ORDER OF THE STAR OF INDIA.

NOTIFICATION.

Fort William; the 1st January, 1909.

The following announcement appears in the *London Gazette* of this date and is republished for general information:

EDWARD THE SEVENTH by the Grace of God of the United Kingdom of Great Britain and Ireland and of the British Dominions beyond the Seas King Defender of the Faith Emperor of India and Sovereign of the Most Exalted Order of the Star of India to all to whom these Presents shall come Greeting.

WHEREAS by virtue of the power in Us vested under certain Letters Patent under the Great Seal of the United Kingdom of Great Britain and Ireland bearing date respectively the Twenty-third day of February One Thousand Eight Hundred and Sixty-one and the Twenty-eighth day of March One Thousand Eight Hundred and Sixty-six and in the Statutes of the Order made

for the Government of the Most Exalted Order of the Star of India We deem it expedient without permanently-increasing the number of the Ordinary Members of the Order to provide for the admission into the Second and Third Classes of the Order of such persons as have rendered to Us special and important services.

We therefore in pursuance and in exercise of the power so vested in Us do make ordain and establish by these Presents sealed with the Seal of the said Order the following Statutes and Ordinances namely:—

It is ordained that the persons whom we may on the First day of January One Thousand Nine Hundred and Nine think fit to admit as Additional Members into the Second and Third Classes of the said Most Exalted Order of the Star of India in commemoration of the Fiftieth Anniversary of the Assumption of the Government of India by the Crown shall not now or hereafter be included within the number of the Ordinary Members allotted to such Classes.

It is ordained that the Additional Members so to be appointed shall have rank and precedence among the Ordinary Members of their respective Classes according to the date of their respective appointments and that the Statutes of Our said Order shall in all matters and things apply in the same manner to the said Additional Members as to the Ordinary Members of Our said Most Exalted Order any Statute Decree or Usage to the contrary notwithstanding.

And it is Our Will and Pleasure that this Statute sealed with the Seal of Our said Order shall be taken and received as part and parcel of the Statutes thereof.

Given at Our Court at Brighton this tenth day of December One Thousand Nine Hundred and Eight in the eighth year of Our reign.

By His Majesty's Command,

MORLEY OF BLACKBURN.

By Order of His Excellency the Grand Master of the Most Exalted Order of the Star of India,

S. H. BUTLER,

Secretary to the Most Exalted Order of the Star of India.

NOTIFICATION.

Fort William; the 1st January, 1909.

His Excellency the Grand Master of the Most Exalted Order of the Star of India is pleased to announce that under a Statute of the Most Exalted Order of the Star of India, dated the 10th December 1908, authorising additional appointments in commemoration of the fiftieth anniversary of the assumption

of the Government of India by the Crown, His Majesty the KING, EMPEROR OF INDIA, has been graciously pleased to make the following appointments to the said Order:

ORDER OF THE INDIAN EMPIRE.

NOTIFICATION.

Fort William; the 1st January, 1909.

The following announcement appears in the *London Gazette* of this date and is republished for general information :

EDWARD THE SEVENTH by the Grace of God of the United Kingdom of Great Britain and Ireland and of the British Dominions beyond the Seas King Defender of the Faith Emperor of India and Sovereign of the Most Eminent Order of the Indian Empire to all to whom these Presents shall come Greeting.

WHEREAS by virtue of the power in Us vested under certain Letters Patent under the Great Seal of the United Kingdom of Great Britain and Ireland bearing date respectively the Second day of August One Thousand Eight hundred and Eighty-six and the Tenth day of June One thousand Eight Hundred and Ninety-seven and in the Statutes of the Order made for the government of the Most Eminent Order of the Indian Empire we deem it expedient without permanently increasing the number of the Ordinary Members of the Order to provide for the admission into the Second and Third Classes of the Order of such persons as have rendered to Us special and important services.

We therefore in pursuance and in exercise of the power so vested in Us do make ordain and establish by these presents sealed with the Seal of the said Order the following Statutes and Ordinances namely:—

It is ordained that the persons whom we may on the First day of January One Thousand Nine Hundred and Nine think fit to admit as Additional Members into the Second and Third Classes of the said Most Eminent Order of the Indian Empire in commemoration of the Fiftieth Anniversary of the Assumption of the Government of India by the Crown shall not now or hereafter be included within the number of the Ordinary Members allotted to such classes.

It is ordained that the Additional Members so to be appointed shall have rank and precedence among the Ordinary Members of their respective Classes according to the date of their respective appointments and that the Statutes of Our said Order shall in all matters and things apply in the same manner to the said Additional Members as to the Ordinary Members of Our said Most Eminent Order any Statute Decree or Usage to the contrary notwithstanding.

And it is Our Will and Pleasure that this Statute sealed with the seal of Our said Order shall be taken and received as part and parcel of the Statutes thereof.

Given at Our Court at Brighton this tenth day of December One Thousand Nine Hundred and Eight in the Eighth year of Our Reign.

By His Majesty's Command,

MORLEY OF BLACKBURN.

CIVIL DIVISION OF THE INDIAN ORDER OF MERIT.

NOTIFICATION.

Calcutta, the 1st January 1909.

No. 2.—The Governor General in Council is pleased to sanction the admission to the third class of the Civil Division of the Indian Order of Merit of the Honourable the Maharaja Dhiraj Bijay Chand Mahtab Bahadur of Burdwan for conspicuous courage displayed by him at the Overtoun Hall on the 7th November 1908, in connexion with the attempt upon the life of Sir Andrew Fraser, the Lieutenant-Governor of Bengal. On Sir Andrew Fraser's entering the Hall a young Bengali stepped towards him and presenting a revolver at him, pulled the trigger, but the weapon fortunately missed fire. The Maharaja Dhiraj of Burdwan at once flung himself between Sir Andrew Fraser and the would-be murderer. The latter was seized by Mr. B. R. Barber, the General Secretary of the Young Men's Christian Association in Calcutta, but succeeded in again directing the revolver towards the Lieutenant-Governor and a second time fired the weapon without result. If it had not missed fire, the bullet would in all probability have struck the Maharaja who had courageously interposed himself between Sir Andrew Fraser and his assailant and was effectually shielding him from danger.

CIVIL DIVISION OF THE INDIAN ORDER OF MERIT.

NOTIFICATION.

Calcutta, the 1st January 1909.

No. 2.—The Governor General in Council is pleased to sanction the admission to the third class of the Civil Division of the Indian Order of Merit of the Honourable the Maharaja Dhiraj Bijay Chand Mahtab Bahadur of Burdwan for conspicuous courage

displayed by him at the Overtoun Hall on the 7th November 1908, in connexion with the attempt upon the life of Sir Andrew Fraser, the Lieutenant-Governor of Bengal. On Sir Andrew Fraser's entering the Hall a young Bengali stepped towards him and presenting a revolver at him, pulled the trigger, but the weapon fortunately missed fire. The Maharaja Dhiraj of Burdwan at once flung himself between Sir Andrew Fraser and the would-be murderer. The latter was seized by Mr. B. R. Barber, the General Secretary of the Young Men's Christian Association in Calcutta, but succeeded in again directing the revolver towards the Lieutenant-Governor and a second time fired the weapon without result. If it had not missed fire, the bullet would in all probability have struck the Maharaja who had courageously interposed himself between Sir Andrew Fraser and his assailant and was effectually shielding him from danger.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8hrs. on Wednesday, the 30th December 1908, based on the Indian Daily Weather Reports of the period.

A depression from Persia entered upper India on the 24th and intensified unsettled weather conditions already prevailing there. The disturbance affected a large part of northern and central India, snow being reported on the 25th from the western Himalayas, and local rain from the east and north Punjab, the north-west and south-east of the United Provinces, the west of the Central Provinces and the east of Central India. A fairly well marked cold wave followed the depression and marched eastward as far as the province of Bengal where its further progress was arrested. Unusually cool weather has in consequence prevailed over a great part of the country, the effects of the cold wave being most pronounced in the Central Provinces and adjacent districts. A fresh depression appeared over Persia on the 26th and gave rain in Baluchistan on the 28th and 29th and precipitation in the extreme north of India on the 29th. Widespread rainfall occurred in the south-east Madras coast districts on the 24th, but there was no other rain in south India. A well marked cyclonic storm formed in the Bay towards the end of the week and on the 30th was approaching the Coromandel coast where it had occasioned heavy cloud and a very rough sea.

Burma.—Skies were clear or lightly clouded and temperature conditions were normal.

North-east India including Orissa.—Skies were almost clear in the northern districts, but were occasionally cloudy in the southern. Temperature was normal or in excess up to the 28th when there was a rapid fall of temperature owing to the eastward

advance of the cold wave from north-west India, and for the next three days temperature was in defect in parts of the province of Bengal.

The United Provinces, Central India and the Central Provinces.—The disturbance from Persia gave rain in the Central Provinces, the east of Central India and parts of the United Provinces, light to moderate falls being reported on the 25th from these areas. Skies were cloudy, while the depression was affecting the division and temperature was normal or in excess, but as the disturbance disappeared, skies cleared and temperature fell rapidly, the effect of the cold wave being shown chiefly in the Central Provinces where from the 27th a considerable to large defect in temperature was shown.

North-west India.—Snow was reported from Kashmir on the 24th and by next day precipitation extended to parts of the Punjab: it then practically ceased but recommenced in Baluchistan on the 28th and occurred on the following day in the extreme north of India. A well marked cold wave followed the first period of disturbed weather and during the greater part of the week temperature was more or less in defect.

The Peninsula.—A few stations in south India reported rain on the 24th, chiefly on the south Madras coast. Skies were moderately clouded in the south of the Peninsula and clear or lightly clouded elsewhere. Temperature was approximately normal.

The following gives the most important amounts of precipitation as recorded at 8 hrs. each day:

December 24th. Sonemarg 1·75″ and Negapatam 1·58″.
,, 25th. Amraoti 0·90″, Hoshangabad 1·33″ and Sialkot 1·10″.
,, 29th. Quetta 0·54″ and Minimarg 1·00″.

The rainfall of the past week has had the effect of converting the deficiency previously shown in Baluchistan into an excess. The seasonal rainfall is now in excess in the North-West Frontier Province as well as in Kashmir and at the stations in the Bay, but in the rest of India it is in more or less defect.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday, 26th December 1908.

Burma.—There was practically no rain during the week. Reaping of early autumn rice is nearly completed and that of winter rice is progressing satisfactorily everywhere. Threshing of paddy has commenced in parts. Sowing of spring rice has begun in places, and cultivation of miscellaneous island crops is in progress. Plucking of cotton and gathering of groundnuts continue. Sowing of wheat and gram is approaching completion. The condition of standing crops and crop prospects on the whole are good. The price of unhusked rice has fallen considerably in some districts and slightly in six.

Eastern Bengal and Assam.—There was no rain during the week. Harvesting of winter rice is nearing completion. It has yielded a fair harvest in all parts of the Province except in the Rajshahi division where it has been seriously damaged by continued drought. Harvesting of sugarcane and pulses continues. These crops and rape are only expected to give a moderate outturn. Some sowing of millets and other spring crops and some preparation of land for monsoon crops of next year are being done, though rain is badly needed for these operations and for all spring crops. Test relief works are in progress in Rangpur, Dinajpur and Bogra where the number of persons employed is 263, 8,521 and 363 respectively. The average price of common rice for the whole Province is practically the same as last week and about 4 per cent less than it was on the same date last year. No Burma rice has been imported into Chittagong since the 1st of November. Cattle disease is prevalent in Darrang, Kamrup, the Khasi Hills, the Chittagong Hill Tracts, Noakhali and Dinajpur.

Bengal.—The week was practically rainless. A few light showers fell in parts of Shahabad, Saran, Muzaffarpur, Darbhanga, Purnea, Hazaribagh and Palamau. Harvesting of winter rice is going on. It has been almost completed in some districts. Harvesting of *kalai*, *mung*, potatoes, *kulthi* and early oilseeds is also in progress in Nadia, Darjeeling, Sambalpur and Ranchi. Pressing of sugarcane has not yet been completed in Bihar, Orissa and Hazaribagh. Sowings of spring crops have been finished in Nadia, Murshidabad, and Cooch Behar. Harvesting of early spring crops has commenced in Angul. Rain is badly wanted for these crops in Bihar as well as in Bankura, Nadia, Hazaribagh and Palamau. Their prospects are reported to be unfavourable in North Bihar, Burdwan, Birbhum, Murshidabad, Khulna and the Sonthal Parganas. *Dalua* paddy is doing well in Orissa. Insect pests are doing damage to standing spring crops in Patna. In Purnea the condition of the poorer classes has been somewhat affected by the absence of work and high prices of food grains. Scarcity is apprehended in Nadia. The price of common rice has risen in Gaya, Muzaffarpur and Ranchi, and has fallen in Burdwan, Saran, Champaran, Darbhanga, Monghyr, Darjeeling, the Sonthal Parganas, Balasore, Singhbhum, Cooch Behar and in the Presidency division, Khulna excepted. Cattle-disease prevails in Midnapore, Muzaffarpur, Monghyr, Sambalpur, Ranchi, Palamau and Manbhum. The fodder-supply is sufficient except in parts of the Sonthal Parganas. Scarcity of water is apprehended in parts of Muzaffarpur, Monghyr and Purnea. The number of persons employed on test-works in Darbhanga was 9,182. Gratuitous relief was given to 1,330 persons in Orissa and 1,271 in Darbhanga.

United Provinces.—Useful falls of rain were received in Garhwal and light or insignificant falls in 24 other districts. Rain is required in all districts and in some urgently. Sowings of spring crops are now practically complete. Prospects are not good in Bahraich and in parts of Fyzabad. Germination has been poor; but generally standing crops are in good condition. Cattle disease is reported in 12 districts but the condition of agricultural stock is good on the whole. Malarial fever continues to decline. Fodder and supplies are adequate. Prices have fallen in 3; have risen in 5 and are stationary in the remaining districts.

Punjab.—Light to moderate rain has fallen in the submontane area. Rain is needed in several districts. Autumn crops are being harvested. The condition and expected yield of autumn crops are generally good to average. The outturn of cotton is generally below average. Harvesting of *toria* continues in Amritsar, Sialkot and Lyallpur and the yield is reported to be good. Sowings of spring crops continue satisfactorily but are late in Amritsar. Spring crops are in good condition. The recent rain has benefited a large portion of the dry crop. Malarial fever is abating. Prices are high but have fallen slightly in some districts. Cattle are in good condition. Fodder is sufficient except in Sialkot, Lyallpur and Jhang and in parts of Gurgaon, Amritsar and Mianwali.

North-West Frontier Province.—Slight showers fell all over the Province, except in Dera Ismail Khan, and have benefited standing crops in unirrigated tracts. The weather is still cloudy. The condition of standing crops is good in Peshawar and average elsewhere. Harvesting of autumn crops still continues in Bannu and the outturn is average. Pressing of sugarcane is in progress. Sowing of spring crops is still going on. Fodder and the water supply in canals are sufficient. There is no irrigation from the Paharpur canal in Dera Ismail Khan. The condition of cattle is generally good except in two villages of the Nowshera tahsil in the Peshawar district. Malarial fever is abating. Prices still show a slight tendency to rise. Prices :—Wheat $8\frac{11}{16}$ to 11; gram $9\frac{3}{8}$ to $11\frac{1}{4}$; maize $11\frac{1}{4}$ to $17\frac{1}{4}$ and *bajra* 13 to $13\frac{3}{8}$ seers per rupee.

Jammu.—There was slight rain during the week. Prices are fluctuating. Wheat sells from 8 to 14 and maize from 11 to 20 seers per rupee. The condition of the standing crops is good. Fodder is sufficient.

Kashmir.—The weather was snowy and bitterly cold. Fodder is sufficient. Prices are unchanged. There is no disease.

Rajputana.—There was slight rain at Kotah and Jhalrapatan. Rain is needed in some places in Karauli. Sowings continue in some States. Standing crops are being watered and are in good condition; slight damage from frost is however reported in the Hill Tracts of Mewar and in the Merwara district, and from insects in Kishangarh. Cattle disease exists in a few places in Jaisalmer, Bharatpur and Merwara. Fodder is sufficient. Prices are generally high but show a tendency to fall in Bikaner, Jaisalmer and Jhalrapatan.

Central India.—There was slight rain in parts of Indore, Bhopal and Bundelkhand; and none elsewhere. Harvesting of autumn crops is nearly completed in Gwalior and is in progress elsewhere. Sowings of spring crops are completed in Bundelkhand; they have germinated in Gwalior and Indore and are in progress elsewhere. Crops have been damaged slightly in parts of Indore and Bhopawar. Agricultural stock are in good condition. Cattle disease is prevalent in parts of Bundelkhand and Bhopawar. Prices have fallen slightly in parts of Malwa and Bhopawar and are stationary but high elsewhere. Poppy sowing has germinated in Gwalior and Indore and is in progress elsewhere.

Central Provinces.—The weather was cool and occasionally cloudy. Light rain fell in 13 districts during the week. The quantity received at head-quarters in Hoshangabad and Amraoti amounted to $1\frac{1}{2}$ and 1 inch respectively; elsewhere the fall ranged from 4 cents in Damoh to 67 cents in Nagpur. In Narsinghpur, Hoshangabad, Jubbulpore and the Vindhyan districts the rainfall extended into the interior of the districts. The rain was accompanied by hail in Jubbulpore, Narsinghpur and Hoshangabad but no damage was done. The rain was beneficial wherever it was received. Threshing and winnowing of autumn crops are nearing completion and picking of cotton is in full swing. Standing spring crops are in good condition. More rain is required in Bilaspur and the Vindhyan districts. The condition of cattle is good. Fodder and water are sufficient. Prices:—Wheat fell in Nagpur, Drug and Akola by $\frac{1}{4}$ to $\frac{3}{4}$ seer per rupee. Rice became cheaper in Chanda and Drug by $\frac{3}{4}$ and $\frac{1}{2}$ seer respectively and dearer in Seoni by $\frac{1}{2}$ seer. *Juar* rose in Nimar and fell in Amraoti by 1 seer; there were no variations elsewhere. The number of weavers on relief was 1,953.

Feudatory States.—Only Chhuikhadan had 30 cents of rain during the week. Harvesting, threshing and winnowing of autumn crops continue. Spring crops are generally in good condition. Fodder and water are sufficient. Prices are steady.

Bombay.—Very slight rain fell during the week in Bijapur. The rainfall for the season is generally sufficient but more is needed in places for spring cultivation. Standing spring crops have been damaged slightly by wind in parts of Belgaum; by disease in parts of Poona, and are withering for want of moisture in parts of Thar and Parkar, Nasik, Ahmednagar, Sholapur and the Karnatak. Cotton and oilseeds have been damaged by insects and wind in parts of Hyderabad. Crops are generally in good condition elsewhere. Harvesting of autumn crops is completed in Karachi and Larkana, is almost over in Nasik, Ahmednagar, Satara and Bijapur, and is in progress in Gujarat, Kanara, East and West Khandesh, the Karnatak, Baroda, Cutch, Rewa Kantha and Kolhapur. Threshing is almost over in Sukkur and continues in parts of Larkana, Hyderabad, the Upper Sind Frontier, the Konkan, East and West Khandesh, Nasik, Poona, Palanpur and Rewa Kantha. Picking of cotton is in progress in parts of Hyderabad, Thar and Parkar, East and West Khandesh and Kathiawar. Sowing of spring crops has been completed in the Panch Mahals and Colaba; is almost over in Kaira and Nasik and continues in parts of Sind, Ahmedabad and Kanara. The supply of fodder is adequate except in parts of West Khandesh, Bijapur, Belgaum and Kolhapur. Agri-

cultural stock are sufficient, except in parts of the Deccan, Bijapur and Cutch, and generally in good condition. The supply of drinking water is sufficient except in parts of West Khandesh, Belgaum and Kolhapur. Water for irrigation is adequate except in parts of West Khandesh and Nasik. Prices of food grains have fallen slightly in Dharwar; have risen slightly in Ahmednagar and Satara, and are generally stationary elsewhere. The quantity purchasable per rupee is in Sind 30 to 42 per cent; in Gujarat 17 to 55 per cent; in the Konkan 18 to 38 per cent; in the Deccan 13 to 47 per cent and in the Karnatak 32 to 46 per cent less than the normal. Stocks of grain are generally adequate. Labourers get sufficient field employment and wages are normal. The cultivating and labouring classes are in fair condition.

Hyderabad.—There was no rain during the week. The autumn harvest is over. Cotton picking continues. The early rice harvest continues in parts. The spring crop is in fair to good condition. Rain is badly needed in parts. The *juar* crop has been injuriously affected by severe cold. The weather is somewhat cloudy. Late rice sowings continue in parts. Cattle disease prevails in 4 talukas. Prices:—Wheat 5¼; coarse rice 6¼ and *juar* 13 seers per rupee. White *juar* is selling in Hyderabad City at 11½ seers per rupee. The highest price in districts is 9 seers in 5 talukas and the lowest 24 seers in the Nagarkurnool taluka of the Mahboobnagar district.

Mysore.—The price of *ragi* has fallen slightly in Kolar, Chitaldrug and Mysore; has risen in Hassan and is generally stationary elsewhere. Standing crops are reported to be withering for want of rain. Prospects of the season are unfavourable Cattle are generally in good condition except in parts. Water and fodder are becoming scarce in the Maidan parts of the State.

Coorg.—Reaping of rice and picking of coffee continue. Picking of cardamom is completed. Prices of food grains are high. The public health is fair. Water and fodder for cattle are sufficient.

Madras.—The rainfall was good in the Nilgiris, light to fair in Nellore, Chingleput, North Arcot, Coimbatore, Salem, Madura, Malabar, Tinnevelly, Trichinopoly, Tanjore and South Arcot, and *nil* elsewhere. Irrigation supplies are insufficient generally except in Chingleput, Malabar and the Nilgiris. Ploughing, sowing, weeding and transplanting are in progress in parts. Standing crops are fair, but some in parts of the Deccan and Central and South Karnatak require more rain or are withering. Harvests continue with outturn poor to bumper. Pasture is sufficient except in parts of the Circars, the Deccan, Nellore, Coimbatore, Trichinopoly, Tinnevelly and South Canara. Fodder is scanty in parts of the Circars, the Deccan, Nellore, South Arcot, Coimbatore and Trichinopoly. The condition of cattle is generally good. The price of rice is stationary in 11 districts; has fallen in 2 and has risen in 10. The prices of millets have fluctuated as follows:—*Ragi* is stationary in 5 districts; has fallen in 3 and has risen in 13. *Cholam* is stationary in 3 districts; has fallen in 4 and has risen in 7. *Cumbu* is stationary in 4 districts; has fallen in 2 and has risen in 9. The public health is generally good. Prospects are generally fair but more rain is urgently required in parts of Guntur, the Deccan, Nellore and Central and South Arcot. The condition of the labouring classes is good and employment is procurable. Grain stocks are generally sufficient.

Financial (Funds),
No. 12.

To His Excellency the Right Honourable the Governor General of India in Council.

MY LORD,

Indian Civil Service Family Pension Regulations : Revised edition 1908.

With reference to my Despatch dated the 12th of June 1908, No. 7 Financial (Funds), I enclose copies of a revised edition (1908) of the Indian Civil Service Family Pension Regulations.

2. The revised edition contains all alterations sanctioned up to this date, and shows the effect of the temporary reduction in subscriptions authorised in my Despatch dated the 12th of June last, No. 7. Rule 10 has been omitted as the rupee rates of contributions have ceased to exist, and Rule 20, as to the commutation of minors' pensions, has been brought into harmony with the new edition of the Military Family Pension Rules transmitted with my Despatch dated the 4th of September 1908, No. 10.

3. The revised Rules should be published in the *Gazette of India* for the information of all concerned.

I have the honour to be,

My Lord,

Your Lordship's most obedient humble Servant,

(Signed) MORLEY OF BLACKBURN.

The following regulations are designed to secure suitable provisions for the widows and orphans of members of the Covenanted Indian Civil Service (except natives of India) not being subscribers to the Bengal, Madras, or Bombay Civil Funds.

The Secretary of State for India in Council reserves to himself the absolute right to regulate from time to time the contributions to be required from Civil Servants under these regulations, and to make any alterations in the regulations themselves that may appear to him equitable : provided always, that the scale of pensions fixed thereby shall not be reduced in the case of actual incumbents. The Secretary of State in Council will endeavour to adjust the contributions to be levied from officers exactly, so that they shall neither be too large nor too small to supply the pensions provided for by these regulations. But if it should appear on experience that they have been fixed too low, the Government will not require any supplementary retrospective payments ; and if they are found to have been fixed too high, no claim to refund will be admitted.

No insurance fund is established by these regulations. The contributions will be credited and the pensions charged directly to the Indian revenues as civil receipts and charges. But in order to adjust the rates of contribution from time to time to what is necessary to supply the pensions provided for by these regulations and no more, a separate *pro formâ* account will be kept of all contributions levied and all payments made under these regulations, and of the interest which would have been allowed upon such contributions if a mutual insurance fund had actually been established.

In accordance with the principle announced in this notification, that the Government does not intend that the pensions provided by these regulations shall bring any charge on the Indian revenues in excess of the amount specially sanctioned for the purpose, the rates of interest and of exchange with England, to be allowed in this *pro formâ* account, will be the, rates which may be fixed from time to time by the Secretary of State in Council, upon a consideration of the market rates of the day.

All needful statistics of ages, births, deaths, and marriages will be carefully registered, and these statistics, with the *pro formâ* accounts, will be submitted at such periods as may be determined by the Secretary of State in Council to such actuary or actuaries as he may select, with instructions to investigate and ascertain whether the rates of contribution are such as will, at the rate of interest and exchange then to be reconsidered and refixed supply the pensions payable under these regulations, and no more. The expense of such actuarial enquiries and reports shall be debited in the *pro formâ* accounts reported upon.

Upon the report of the actuary or actuaries the Secretary of State in Council will order any necessary alterations in the rates of contribution.

The report of the actuary or actuaries, with the orders of the Secretary of State in Council thereupon, shall be published in the *Gazette of India,* and no alteration ordered in the rates of contribution will take effect before the beginning of the month following the date of such publication. No retrospective adjustments will be made.

The benefits provided at the cost of the State are shown in the regulations ; but should it at any time appear from a valuation that the aggregate liabilities on account of those benefits, when the pension list shall have reached a normal state, will exceed 35,000*l.* per annum, they will be subject to such reduction as may be necessary to restrict the annual assistance to 35,000*l.* per annum, but the reduction shall in no case affect the benefits payable to incumbent annuitants.

Regulations for the Provision of Pensions for the Widows and Orphans of Covenanted Civilians (except Natives of India) in the Service of the Government of India.

1. Every covenanted civil servant (except Natives of India), not being entitled to the benefits of any of the late Civil Funds, must, as a condition of his appointment, make the contributions and payments prescribed by these regulations according to his class, whether he is married or unmarried, and with or without children. Subscriptions will commence from the date of arrival in India.

2. For the purposes of these regulations civil servants are classed as follows:—

Class I.—From 18 years' completed service.
,, II.—From 15 to 18 years' completed service.
,, III.—From 12 to 15 years' completed service.
,, IV.—From 7 to 12 years' completed service.
,, V.—Up to 7 years' completed service.

3. The pensions provided under these regulations are payable quarterly in advance, on or after 1st January, 1st April, 1st July, and 1st October.

4. The amounts of the pensions provided are as follow:—

TABLE I.—Annual Pension to a Widow during Widowhood, according to the Class of her Husband at the time of his death.

Widows retain half pension on re-marriage and revert to full rate on second widowhood. Reduction to the half rate to have effect from the commencement of the quarter following that in which the re-marriage takes place, and the full pension to be restored from the day following the death of the second husband.

TABLE II.—Annual Pensions to the Orphan Children of all Classes alike.

—	From Birth till age of 6 years.	From age of 6 till age of 12 years.	From age of 12 till age of 21 years for boys, and for girls till marriage.

Total	25 0 0	50 0 0	100 0 0

The pension of motherless orphans at all ages will be made up by the Government to 100*l*. An orphan in receipt of pension who becomes motherless is entitled to the increased rate, with effect from the day following that of the mother's death.

On marriage daughters will be granted a donation of 250*l*., to be provided by the Government.

Annuitants residing in India may either receive their pensions in Indian currency at the official rate of exchange, or in England in sterling, but having once exercised the option any subsequent change can only be permitted at the commencement of the official year.

5. The pension of a minor orphan will be paid to his or her mother, or other duly appointed or recognised guardian.

Contributions.

6. The contributions for pensions under these regulations, and the pensions of widows, will be regulated by the class of the contributing member. A subscriber cannot secure a higher pension for his widow by contributing as if he belonged to a higher class.

7. Contributions will be deducted from salaries at the time of issue.

8. The circumstance that an officer is not in receipt of pay does not relieve him from the necessity of paying his contributions.

9. *Donations* may be paid in one sum, or in 12 equal monthly instalments. If a donation be paid in instalments, interest on the unpaid portion will be levied at the rate of 4½ per cent. per annum. The balance of any contribution due at an officer's death will be recovered rateably, without interest, from the pensions of his widow and orphans in four quarterly instalments.

10. (Obsolete.)

11. The following are the rates of donations, disparity fines, and monthly contributions prescribed for the present:—

	£ s. d.	s. d.
For a son	0 11 5	10 0
For a daughter	1 1 3	18 7

The monthly contribution contiuues in the case of sons until 21 years of age, and for daughters until marriage.

Arrears.

12. Interest at the rate of 4½ per cent. per annum will be charged on arrears. Donations become due from the date of marriage; but interest will not be charged on sums paid within one month from the date on which they become due.

Reports of Marriages, Births, and Deaths.

13. A Civil Servant who is married at the date of his admission into the service must report the fact of his marriage* on his arrival in India, and the names and dates of birth of his children, if any have been born to him. A member in the service must report his marriage,* or the birth of a child born in wedlock, or the death of a wife or child, within one month of the occurrence, to the Comptroller, India Treasuries, Calcutta, or the Director of Funds, India Office, when an officer is out of India.

14. The birth of every child born alive must be reported: but if a child die before it is 30 days old, no payment in respect to it will be required. If the report of birth be not made within one month of the occurrence a fine of 12*s*. will be imposed, and an additional 2*s*. will be charged for each succeeding month's delay.

15. If the report of a marriage be not made within one month of the occurrence, the donation payable will be increased 2½ per cent., and interest thereon charged from the date of marriage. After six months' delay the donation will be increased 5 per cent., and interest charged as above.

16. In the event of the report of a marriage or the birth of a child not being made by a subscriber during his lifetime, in accordance with the rules, the widow or child will not be entitled to any benefits.

Posthumous Child.

17. A pension will be granted to a posthumous child without any payment, provided the birth be reported within one month of the occurrence.

Duration of Pensions.

18. If a widow re-marry she will retain half her pension during coverture, but if she again become a widow she will be entitled to revert to full pension as widow of her first husband, or, if her last husband have been a contributor, to receive a pension at her option as his widow. A widow can only receive one pension.

19. The pension of a male orphan is payable until he attains the age of 21 years.

* Reports of marriage must be accompained by a certified copy of the registry, together with the dates of birth of the member and his wife.

20. The mother or guardian of a male orphan who has completed the age of 16 may with the sanction of the Secretary of State for India in Council, at any time thereafter (on application as in Forms A, B, and C, annexed to these regulations), have the residue of his pension commuted into a single payment, for the due application of which the mother or guardian will be held responsible.

21. The pension of a female orphan continues until her marriage, and then ceases absolutely. It does not revive on widowhood.

Good Conduct.

22. The pensions provided under these regulations shall in all cases be held during good behaviour only, and will be withheld if any pensioner is found to be leading an immoral life, or on proof of any gross misconduct. The order of the Secretary of State for India in Council in any such case shall be final and conclusive.

Alienation of Pension.

23. A pension paid under these regulations may not be transferred or assigned, or in any way alienated from the pensioner to whom or for whose benefit it is payable.

Retired Members.

24. All members who retire from the service on annuities may continue to subscribe at the monthly rates laid down in these regulations.

25. Married annuitants may commute their monthly contribution by a single payment representing the value thereof during the joint lives of husband and wife, and father and child.

26. In the event of the wife dying after the date of commutation, contribution at the unmarried rate must be resumed, or, as an alternative, it may be commuted.

27. An annuitant who has commuted will on re-marrying become liable for marriage donation and the difference between the married and unmarried rates of contribution, or the commuted value on the joint lives.

28. Widowers and bachelors may also commute their monthly contribution for life. On each subsequent marriage they will become liable for the donation and difference of contribution laid down in the previous article.

29. Contribution or its commuted value must be paid for all children born to a subscriber after his retirement from the service.

30. An annuitant withdrawing his name from the list of subscribers will forfeit all claim to pension in respect of his widow and children, and will not be entitled to any refund of his payments under these regulations.

Dismissed Members.

31. A subscriber who is dismissed the service by competent authority will cease, *ipso facto*, to be a contributor. He will have no claim to any refund, and his family will not be entitled to any pensions under these regulations.

Certificates.

32. Declarations as to continued widowhood and the survival of children must be furnished quarterly to the Accountant-General, India Office, by whom pensions in Europe are paid under the authority of the Director of Funds, or to the proper officer in India.

APPENDIX.

Note.—In England all reports and applications for pensions must be made to the Director of Funds, India Office, Whitehall, London, S. W.

GEOLOGY AND MINERALS.

Calcutta, the 30th December 1908.

No. 11793—103.—IN exercise of the powers conferred by section 20 of the Indian Mines Act, 1901 (VIII of 1901), the Governor-General in Council is pleased to make the following rules for the whole of British India in respect of all mines.

No. 302—95-5, dated 27th January 1904.
No. 3952—36, dated 10th May 1907.
No. 7861—86, dated 19th September 1907.
No. 10014—100, dated 4th December 1907.

The notifications noted on the margin are hereby cancelled.

Annual returns.

1. Forms I, II, III and IV in the Schedule hereto annexed shall be ([1]) filled up in duplicate by the agent, or, if there is no agent, by the owner or manager of a mine, and one copy of each shall be forwarded to the Chief Inspector of Mines and the other to the District Magistrate not later than the 1st February ([2]) in each year.

([1]) Under section 22 (2) (*b*) of the Indian Mines Act, failure to forward correct returns to the Chief Inspector of Mines not later than 1st February in each year will render the agent, owner or manager liable on conviction to a penalty which may extend to R500.

([2]) It will greatly facilitate the preparation of the Statistics if the returns are despatched as soon as possible after the close of the year.

2. When a mine, seam or vein has been abandoned for more than one month, or the working thereof discontinued for more than two months, the owner of the mine, seam or vein shall within seven days after the expiry of such period send notice to the Chief Inspector of Mines specifying the name and situation of the mine, the name of the owner and the date and cause of abandonment or discontinuance.

Notice of abandonment.

3. When a mine, seam or vein is re-opened after abandonment or discontinuance, the owner shall send notice to the Chief Inspector of Mines within one month after the date of re-opening.

Notice of re-opening.

4. When a change occurs in the name of a mine, or of an owner or agent of a mine, notice of the change shall be sent by the owner, agent or manager to the Chief Inspector of Mines within one month after such change.

Change of name of owner, or of mine.

5. If the owner, agent or manager of any mine intends to extend any mining operations under his control at or to any point within fifty yards of any railway subject to the provisions of the Indian Railways Act, 1890, he shall give the Chief Inspector of Mines and the Railway Administrations concerned notice in writing of his intention so to do sixty days before the commencement of such extension.

Notice of extension to vicinity of railway.

6. If the operations in respect of which notice is given under rule 5 are not commenced within twelve months from the expiry of the period of sixty days therein referred to, the notice shall be held to have expired, and a fresh notice shall be given by the owner, agent or manager of the mine, under rule 5.

Expiry of notice under rule 5.

7. The notice to be given under rule 5 shall specify the position of the working of the mine in relation to the railway in question, the manner in which it is proposed to carry out the intended new operations, the limits to which it is proposed to carry the said operations, and whether the operations are actually in progress, and shall include a plan showing the existing and the intended mining operations in so far as they affect the railway in question.

Particulars to be given in notice under rule 5.

8. When an accident occurs in or about a mine causing loss of life or serious bodily injury, or when an accidental explosion occurs in a mine, the owner, agent or manager of the mine shall within twenty-four hours of the occurrence of such accident, give notice of the accident to the Chief Inspector of Mines by despatching to the Magistrate of the district or to the Sub-divisional Magistrate, for transmission to the Chief Inspector of Mines, a notice in form V in the schedule hereto annexed.

Notice of accident.

Explanation.—An injury is said to be serious which involves or will in all probability involve the loss of or permanent injury to any limb, or to the sight or hearing, or fracture of any limb, or enforced absence from work for twenty days, or which is declared by any medical officer to be serious.

9. When any person dies from the result of an injury already reported as serious under rule 8, the owner, agent or manager of the mine shall send notice, within twenty-four hours of his being informed of the death, to the Chief Inspector of Mines, through the Magistrate of the district or the Sub-divisional Magistrate.

Notice of deaths from injuries.

10. From every order passed by the Chief Inspector of Mines under section 6, clause (*d*), an appeal shall lie to the Mining Board, if a Mining Board has been constituted under section 9 of the said Act for the Province or part of the Province where the mine in respect of which the order was made is situate and elsewhere to the Chief Controlling Revenue authority, as defined in section 2, clause (8), of the Indian Stamp Act, 1899 (II of 1899).

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the eight days ending at 8hrs. on Thursday, the 7th January 1909, based on the Indian Daily Weather Reports of the period.

No well marked winter storms has affected north-west India during the past week and only a few falls of snow in Kashmir and light rain in Baluchistan have been reported. On the 3rd and 4th isolated falls of rain occurred over the central parts of the country, but the rain was not heavy and the disturbance quickly passed away. The weather of southern India has been dominated by the cyclonic storm which appeared in the south of the Bay at the end of last week. On the 31st December it was of considerable intensity and situated to the north-east of Trincomalee. Two days later it had passed across the south of the Peninsula and moved out into the Arabian Sea as an area of low pressure accompanied by heavy cloud and moderate rain. The effects of the storm were appreciable as far north as Hyderabad and continued for several days after the storm had passed away. Heavy cloud covered the south of the Peninsula during the whole week and the rainfall was heavy in places. At the end of the week a steadily rising barometer indicated drier weather.

Burma.—There was very little cloud, and humidity and temperature were approximately normal.

North-east India including Orissa.—Dibrugarh and Sibsagar had light falls of rain. Skies were cloudy in parts of the province of Bengal but were clear in Eastern Bengal and Assam. Except in Bihar temperature was normal or in excess.

The United Provinces, Central India and the Central Provinces.—Light falls of rain occurred in the east of Central India, in Berar and the Central Provinces. There was cloud in the southern half of the division, but in the United Provinces skies were generally clear. Minimum temperature was in excess in the area of cloud and normal or in defect elsewhere.

North-west India.—Light snow fell in parts of Kashmir and light rain at Chaman. On the 31st December and on the 6th January cloud spread over the plains of upper India, but during the rest of the week it was present only in the hills. Temperature was normal or in defect, the deficiency occurred chiefly on the 3rd, 4th and 5th January and was most marked in the south Punjab and west Gujarat.

The Peninsula.—Moderate to heavy general rain fell south of Nellore and a few falls occurred to the north. Skies were more or less heavily clouded, and temperature, while normal or in defect in the day time, was generally in excess at night.

The following summarises the chief rainfall amounts as reported at 8 hrs. each day:

December 31st. Negapatam 2·90″ and Trincomalee 2·72″.

January 1st. Pamban 3·09″, Trichinopoly 4·52″, Cuddalore 1·99″, Madras 2·62″, Kodaikanal 4·51″, Ootacamund 2·54″ and Nellore 1·60″.

" 2nd. Coimbatore 1·34″, Salem 1·33″, Cuddapah 2·21″, Nellore 2·78″, Ootacamund 4·51″ and Kodaikanal 3·27″.

" 3rd. Calicut 4·11″.

" 4th. Nellore 3·11″ and Tinnevelly [illegible].

" 5th. Aurangabad 0·82″.

The past week's rainfall has converted the large defect formerly shown in the seasonal rainfall into an excess in north Hyderabad, Mysore and the Madras Presidency. The rainfall of the period is now nearly normal in the [illegible]est of the Central Provinces while it continues in excess at the stations in the Bay and [illegible] Kashmir and Baluchistan.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday, 2nd January 1909.

Burma.—A minute amount of rain fell in two districts of Lower Burma. There was no rain elsewhere. Reaping of early autumn rice is completed and that of winter rice is in progress throughout the Province. Cultivation of spring rice and of miscellaneous crops continues in places. Plucking of cotton and gathering of groundnuts are nearing completion. The prospect of crops is good in Lower and Upper Burma. The price of unhusked rice has fallen in 7 and has risen in 3 districts.

Eastern Bengal [illegible] Assam.—No rain fell during the week. Harvesting of winter rice is still in progress in some districts; it yielded a fair harvest in all parts of the Province except in the Rajshahi division. [illegible] of sugarcane is still [illegible] and promises a fair outturn on the whole. Pulses and rape [illegible] are expected to give a moderate outturn only. Sowing of spring crops and preparation of lands for monsoon crops still continue in some places but rain is badly needed for them and would be of benefit to standing spring crops. The number of persons on relief works in Dinajpur and Bogra is 1,544 and 353 respectively. Relief works are also in progress in Rangpur where 263 persons were on works during last week. The average price of common rice has fallen by about 2 per cent. Cattle disease prevails in Noakhali, Kamrup and Darrang.

Bengal.—There was no rain during the week. *Kalai* and early oilseeds are being harvested in Nadia, Jessore, Purnea and Hazaribagh, and sugarcane-pressing is in progress in Bihar, Orissa and Chota Nagpur. Winter paddy is still being harvested in some districts. Poppy and other spring crops are being irrigated, but they are in urgent want of rain in Bihar. Prospects of these crops are not favourable in North Bihar, Khulna and the Sonthal Parganas. Scarcity is apprehended in Nadia, and the condition of the poorer classes is seriously affected in parts of North Bihar owing to scarcity of work and high prices of food-grains. The agricultural outlook in North Bihar is unfavourable. The price of common rice has fallen in Bankura, Midnapore, the 24-Parganas, Murshidabad, Gaya, Muzaffarpur, Balasore, Puri, Ranchi and Palamau, and has risen in Burdwan, Nadia, Shahabad, Manbhum and Singhbhum. Cattle-disease is reported from Champaran, Muzaffarpur, Darbhanga, Monghyr, Puri, Sambalpur, Hazaribagh, Ranchi, Palamau and Manbhum. The fodder-supply is sufficient except in parts of the Sonthal Parganas. The water-supply is getting deficient in parts of Muzaffarpur, Monghyr and Purnea. The number of persons on test-works in Darbhanga was 10,779. Gratuitous relief was given to 1,392 persons in Orissa and 1,108 in Darbhanga.

United Provinces.—Except for an insignificant fall in Etah the week was rainless. Rain is now urgently required in most districts. Prospects are uncertain in Bahraich and Fyzabad. Unirrigated crops are withering. Signs of scarcity are reported to be apparent in the Bijaigarh Pargana in Mirzapur. Some damage to standing crops from insects is reported in parts of Muttra, Budaun and Kheri and from frost in parts of Farrukhabad, Shahjahanpur and Cawnpore; otherwise standing crops are in good or fair condition. Cattle disease is reported from thirteen districts but generally the condition of agricultural stock is good. Malarial fever continues to decline. Supplies and fodder are adequate. Prices have fallen in seven; have risen in four and are stationary in the other districts.

Punjab.—Slight rain has fallen in Rawalpindi and Mianwali. Winter rains are urgently needed in the Delhi division. Autumn crops are being harvested and their condition and expected yield are good to average. The outturn of cotton is nearly below average while that of sugarcane is good. Harvesting of *toria* continues and the yield is reported good. Sowings of spring crops continue in some districts. On last week's rain a large area has been sown and prospects are favourable at present. Fever is abating. Prices are high but have fallen slightly. Cattle are in good condition. Fodder is sufficient except in Gurgaon, Sialkot, Lyallpur, Jhang and in parts of Amritsar and Mianwali.

North-West Frontier Province.—Showers of rain fell in the Peshawar and Bannu districts and proved beneficial to the standing crops. The condition of standing crops is good throughout the Province. Harvesting of autumn crops still continues in Bannu and the yield is expected to be average both on irrigated and unirrigated lands. Pressing of sugarcane is in progress in the Marwat tahsil of the Bannu district. The wheat crop is reported to have been attacked by insects. The water-supply and fodder are sufficient.

Cattle are generally in good condition throughout the Province. Malarial fever is now abating. Prices are fluctuating. Prices:—Wheat $8\frac{11}{16}$ to $10\frac{3}{4}$; gram $9\frac{3}{4}$ to $11\frac{1}{4}$; maize $11\frac{1}{2}$ to 18 and *bajra* 13 to $13\frac{5}{8}$ seers per rupee.

Jammu.—There was slight rain in parts. Prices are fluctuating. Wheat sells from $6\frac{1}{2}$ to 14 and maize from $11\frac{1}{2}$ to 22 seers per rupee. The condition of standing crop is fair. Fodder is sufficient. Sowing of spring crops is in progress.

Kashmir.—The weather is snowy and bitterly cold. Fodder is sufficient. Prices are unchanged. There is no disease.

Rajputana.—Spring sowings have been completed in most places and young crops are doing well. Slight damage from frost is however reported in some villages of Mewar and the Merwara district. The condition of cattle is generally good and fodder is sufficient. Prices have risen slightly in Marwar and Jaipur but have fallen in Bikaner.

Central India.—There was slight rain in parts of Gw[illegible] Bundelkhand and *ni*[illegible] elsewhere. Harvesting of autumn crops is complete[illegible] Gwalior and Baghelkhand and is in progress elsewhere. Sowing of [illegible] crops is completed in Bundelkhand and is in progress [illegible] is [illegible]factory in Gwalior. Crops have been damaged slightly in parts of Indore, Rutlam and Bhopawar. Agricultural stock are in good condition. Cattle disease is prevalent in parts of Bhopal, Baghelkhand, Bundelkhand and Bhopawar. Prices have fallen slightly in parts of Malwa; are fluctuating in Bhopawar and are stationary but high elsewhere. Germination of the opium crop is satisfactory in Gwalior and sowing is in progress elsewhere.

Central Provinces.—The weather has been occasionally cloudy except in Nimar, Chhindwara, Bhandara, Chanda, Akola, Yeotmal and the districts of Chhattisgarh. Light showers were received during the week ranging from 1 cent in Nagpur and Wardha to 87 cents in Balaghat. The rainfall though light will be beneficial to spring crops. More rain is needed in Damoh and Bilaspur. Threshing and winnowing of autumn crops and picking of cotton are in progress. Frost has slightly damaged pulses and *til* in the northern districts. The condition of spring crops is generally satisfactory and prospects are favourable. Cattle are doing well. The supply of fodder and water is adequate. Prices:—*juar* has remained stationary in 18 districts; wheat and gram in 16 and rice in 12 districts. Wheat in Saugor and *juar* in Nagpur fell by $\frac{1}{2}$ and 1 seer per rupee respectively. Wheat in Damoh and Betul and *juar* in Amraoti became dearer by $\frac{1}{4}$ to 1 seer. Rice in the Chhattisgarh districts fell by $\frac{1}{2}$ to 3 seers while in Balaghat the price rose by $\frac{3}{4}$ seer. Prices fluctuated but slightly elsewhere exhibiting a tendency to fall. The number of weavers on relief was 1,561.

Feudatory States:—A few drops of rain fell in Jashpur and Sirguja during the week. Harvesting of autumn crops is completed and threshing and winnowing are in progress. The condition of spring crops is generally good but a shower will generally improve prospects in Kawardha, Khairagarh and Raj-Nandgaon. Fodder and water are ample. Prices:—rice and *kodon* in Raj-Nandgaon; rice in Bastar and Sakti; and wheat and rice in Raigarh and Sirguja fell by $\frac{1}{2}$ seer to 4 seers per rupee. *Kodon* rose in Chhuikhadan by 1 seer; elsewhere prices remained stationary.

Bombay.—Standing spring crops have been damaged slightly by disease in parts of Poona and by frost in parts of Mahi Kantha and are withering for want of moisture in parts of Thar and Parkar, Nasik, Ahmednagar, Sholapur and the Karnatak. Cotton and oilseeds have been damaged by insects, frost and wind in parts of Hyderabad. Crops are generallty in good condition elsewhere. Harvesting of autumn crops is completed in Karachi, East Khandesh and Bijapur; is almost over in Nasik, Ahmednagar and Satara and is in progress in Gujarat, Kanara, West Khandesh, the Karnatak, Baroda, Cutch, Rewa Kantha and Kolhapur. Threshing is almost over in Sukkur, Larkana and the Upper Sind Frontier and continues in parts of Thana, Colaba, East and West Khandesh, Nasik, Poona and Palanpur. Picking of cotton is in progress in parts of Hyderabad, Thar and Parkar, East and West Khandesh and Kathiawar. Sowing of spring crops is completed in Kaira; is almost over in Larkana, Hyderabad and Nasik and continues in parts of Karachi, Sukkur, the Upper Sind Frontier, Ahmedabad and Kanara. The supply of fodder is adequate except in parts of West Khandesh, Bijapur, Belgaum and Kolhapur. Agricultural stock are sufficient, except in parts of the Deccan and Cutch, and are generally in good condition. The supply of drinking water is sufficient except in parts of West Khandesh, Nasik, Belgaum and Kolhapur. Water for irrigation is generally sufficient. Prices of food-grains are generally stationary. The quantity purchasable per rupee is in Sind 27 to 42 per cent; in Gujarat 18 to 55 per cent; in the Konkan 18 to 30 per cent; in the Deccan 17 to 47 per cent and in the Karnatak 32 to 63 per cent less than the normal. Stocks of grain are generally adequate. Labourers get sufficient field employment and wages are normal. The cultivating and labouring classes are in fair condition.

Hyderabad.—There was no rain during the week. Autumn cotton is still being picked in parts. The early rice harvest is nearing completion. The spring corp is in fair condition. In most parts it needs rain, specially in the Raichur district where in some villages the crop has failed. Late rice sowings continue in parts. Cattle disease is prevalent in four talukas. Prices:—Wheat 5¼; course rice 6¼ and *juar* 12⅝ seers per rupee. White *juar* is selling in Hyderabad City at 11⅓ seers per rupee. The highest price in districts is 8⅓ seers in the Paloncha taluka of the Warangal district and the lowest 23 seers in the Nagarkurnool taluka of the Mahboobnagar district.

Mysore.—There was fair rain during the week in Kolar and Mysore and slight rain elsewhere. Prices of food-grains are steady. Standing crops have already slightly improved as a result of the recent rainfall. Prospects of the season have improved slightly in Kolar but are still generally unfavourable elsewhere. Cattle are generally healthy except in parts of the State. Water and fodder are available except in parts of the Maidan talukas of the State.

Coorg.—Rainfall 1 inch 58 cents. Reaping of rice and picking of coffee continue. Prices of food-grains are [illegible]. The public health is fair. Water and fodder for cattle are sufficient.

Madras.—The rainfall was very heavy in the Nilgiris, T[illegible] Madras; heavy in Chingleput, South Arcot, Trichinopoly and North Arcot; good in Coimbatore, Salem, Cuddapah, Madura and Nellore; *nil* in Ganjam, Vizagapatam and Kistna; and light to fair elsewhere. Irrigation supplies are insufficient except in Kistna, Chingleput, Trichinopoly, Malabar and the Nilgiris. Ploughing, sowing, weeding and transplanting are in progress in parts. Standing crops are fair and have benefited by recent rains in several districts, but some in parts of Ganjam, Kistna, the Deccan, North Arcot, Madura, Tinnevelly, Malabar and South Canara require more rain or are withering. Harvests continue with outturn poor to bumper. Pasture is sufficient except in parts of Ganjam, Kistna, the Deccan, Nellore, Coimbatore, Tinnevelly and South Canara. Fodder is scanty in parts of the Circars, the Deccan, Nellore, South Arcot, North Arcot and Coimbatore. The condition of cattle is generally good. The price of rice is stationary in twelve districts; has fallen in five and has risen in six. The prices of millets have fluctuated as follows:—*Ragi* is stationary in six districts; has fallen in four and has risen in eleven. *Cholam* is stationary in three districts; has fallen in three and has risen in eight. *Cumbu* is stationary in six districts; has fallen in three and has risen in six. The public health is generally good. Prospects are generally fair and have much improved by recent rain. The condition of the labouring classes is good and employment is procurable. Grain stocks are generally sufficient.

MERCHANT SHIPPING.

Calcutta, the 13th January 1909.

No. 377—3.—The following Order in Council, dated the 21st November 1908, relating to German ships is published for general information :—

AT THE COURT AT WINDSOR CASTLE,

The 21st day of November 1908.

PRESENT.

THE KING'S MOST EXCELLENT MAJESTY IN COUNCIL.

Whereas by section 445 of the Merchant Shipping Act, 1894, it is enacted that where the Board of Trade certify that the laws and regulations for the time being in force in any foreign country and relating to overloading and improper loading are equally effective with the provisions of that Act relating thereto, His Majesty in Council may direct that on proof of a ship of that country having complied with those laws and regulations, she shall not, when in a port of the United Kingdom, be liable to detention for non-compliance with the said provisions of that Act, nor shall there arise any liability to any fine or penalty which would otherwise arise for non-compliance with those provisions :

And whereas by section 1 of the Merchant Shipping Act, 1906, provision, as is more particularly therein mentioned, is made for applying to foreign ships when in ports in the United Kingdom certain sections of the Merchant Shipping Act, 1894, which relate to loadline without prejudice to any direction of His Majesty in Council given under the said section 445 of the last mentioned Act :

And whereas the Board of Trade have certified that certain statutory regulations which have been approved by the German Government relating to overloading, so far as regards the assignment of loadlines to German ships on and after the 1st January 1909, are equally

effective with the corresponding regulations in force in this country respecting the assignment of loadlines to British merchant ships.

Now therefore, His Majesty in Council doth direct that on proof that German ships have complied with the aforesaid German regulations, such ships shall not, when in ports of the United Kingdom, be liable to detention for non-compliance with the provisions of the Merchant Shipping Acts relating to overloading, nor shall there arise any liability to any fine or penalty which would otherwise arise for non-compliance with those provisions.

NOTICES.

All communications relating to applications for leave to file specifications and for registration of designs under the Inventions and Designs Act, 1888 (V of 1888), or in continuation of such applications, should be addressed to the Patents Secretary, 2, Bankshall Street, Calcutta.

The Office of the Secretary under the Inventions and Designs Act, 1888, will in future be open for the transaction of business from 11 A.M. to 3 P.M. on all days, except Sundays and gazetted holidays.

The Government of India are advised that, as trade marks are not "designs" within the meaning of the Act, they cannot be registered under Part II.

The fees payable under the fourth and sixth schedules are now collected in cash, and applicants are warned that they must be responsible for any delay in cashing cheques.

Cheques and money orders will only be accepted if made payable *at Calcutta* to the Secretary under the Inventions and Designs Act.

Copies of the weekly notifications, and of the quarterly lists, of applications and specifications filed in the Secretary's Office are now on sale to the public at one anna and eight annas a copy, respectively. Consolidated indexes for 1905, 1906 and 1907, entitled "Inventions and Designs," are also on sale, price one rupee each. They contain a chronological list, subject-matter and name indexes of exclusive privileges for inventions, which have been obtained or applied for in the year, together with lists of designs applications.

All applications made under the Inventions and Designs Act, V of 1888, will from this date (December 19th, 1896) lie in the visitors' room of the Patents Office for ten days from the date of the *Gazette of India* in which their filing may have been notified : or if the 10th day is a holiday, till the evening of the office day next following.

At the time of delivering or sending an application for leave to file a specification, the applicant shall cause a duplicate copy of the application to be delivered or sent therewith to the Secretary.

The Inventions and Designs Act (V of 1888), with the notifications and rules issued under its provisions and the notices of the office of Inventions and Designs, to which is added an explanatory memorandum for the guidance of persons applying for protection of Inventions and Designs. A new and revised edition is now on sale. Royal 8vo volumes, paper cover, price one rupee or 1*s*. 6*d*. To be had of the Superintendent, Government Printing, 8, Hastings Street, Calcutta, or of the Superintendent, Patents Office, 2, Bankshall Street, Calcutta.

A copy of the Bill, which it is proposed to introduce to amend the law relating to the protection of Inventions and Designs, together with a statement of objects and reasons and notes on clauses, has been placed in the visitors' room of the Patents Office for inspection. Copies, price one rupee, may be obtained on application to the Superintendent, Patents Office, 2, Bankshall Street, Calcutta.

ORDERS BY THE HONOURABLE THE CHIEF COMMISSIONER OF AJMER-MERWARA.

NOTIFICATIONS.

Abu, the 8th January 1909.

No. 8-E-12.—In exercise of the powers conferred by section 145 (1) (*e*) of the Ajmer Municipalities Regulations, V of 1886, the Hon'ble the Chief Commissioner is pleased to make the following rules for the assessment and collection of octroi in the Municipality of Ajmer.

Rules 9 to 23 of the existing Rules which were sanctioned in this office letter No. 691-S, dated the 9th March 1888, are hereby cancelled.

RULES.

ARTICLES LIABLE TO OCTROI DUTY WITH EXEMPTIONS.

Rule 1. Subject to the following exemptions and those shown as exemptions in the Octroi Schedule that may be sanctioned from time to time by the Hon'ble the Chief Commissioner, Ajmer-Merwara, duty will be levied on all goods or animals for slaughter brought within the inner cordon of the Ajmer Municipal limits for use and consumption therein :—

(1) Articles imported or procured by Commanding Officers for the use and consumption of their men and regimental followers.

(2) *Bonâ fide* passengers' luggage.

(3) Articles intended for private or personal use which have been previously in use.

(4) All articles the duty on which would be severally less than a pice.

(5) All articles that have already paid octroi duty under these rules.

(6) Goods or animals the property of which is vested in Government at the time they pass the barrier if accompanied by an invoice with the endorsement of the proper officer of Government certifying that they are the property of Government.

Explanation.—Goods or animals the property of which is not vested in Government at the time they pass the barrier, but which, being imported with a view to the fulfilment of a Government contract or otherwise intended for the use of Government will, in the ordinary course of things, become the property of Government after importation, shall on passing the barrier be declared, as intended for the use of Government, *viz.*, in fulfilment of a certain specified contract. The duty on them shall then be paid, and subsequently if they actually do become the property of Government the octroi duty shall be refunded on production of certificate to that effect by the Departmental Officer concerned.

(7) Parcels of fresh fruits, sweets, cakes, and the like or of made up clothing intended for private or personal use.

(8) All goods imported through the post office except value-payable articles the receipts for which are only sent through the post office.

ASSESSMENT AND COLLECTION.

2. *Octroi posts.*—Octroi posts shall be established at such points within Municipal limits as the General Committee may from time to time determine.

All goods or animals received by rail shall be dealt with by the Head Octroi Office.

3. No goods or animals liable to octroi shall, except as laid down in sub-section 2 of clause (*a*) and in clause (*b*) (1) of rule (6), be imported into the Municipality, until the octroi duty due thereon has been paid at such octroi posts as exists or may from time to time be established by the authority of the General Committee.

4. (*a*) All persons bringing dutiable goods or animals into the Municipality shall, so far as may be within their power, give all such information or produce all such receipts or other documents as may be necessary, to enable the octroi officials to collect or assess the duty leviable, and such persons shall afford the octroi officials every facility to weigh, measure or examine the goods, or animals for the purpose of assessing or collecting octroi duty thereon, checking the payment of such duty or carrying out any other provisions of these rules.

4. (*b*) Goods brought by railway will be held to have entered the octroi cordon directly they pass beyond the railway goods or luggage yard or room and they then become liable to duty in the same manner as goods brought by road.

5. Destination of goods, etc., imported into the Municipality. On the importation of goods or animals liable to octroi duty, the Octroi Moharrir in charge of the post shall call upon the importer to declare whether they are intended :—

(1) For the consumption, storage, use or sale within the Municipality.

(2) For immediate exportation.

(3) For temporary detention within Municipal limits and eventual exportation.

Forms A and A1 being used in cases 2 and 3 respectively.

6. Procedure for levy of octori duty (*a*) (1).—In the 1st case mentioned in rule (5) (1), the octroi chargeable on the goods or animals shall, if it does not exceed annas 8, be paid at the option of the importer at once to the Moharrir in charge of the octroi outpost, who shall draw up a receipt in triplicate on badami paper in annexed form D. One copy shall be given to the importer, one shall be put into the cash box (Golak) and the third shall remain as a counterfoil in the receipt book.

(*a*) (2). If the duty exceeds Rs. 0-8-0 or if the importer chooses to pay at the Head Octroi Office, the Moharrir in charge of the outpost shall draw up a pass in triplicate on white paper in annexed form E, and shall retain one into the cash box (Golak) for transmission to the Head Octroi Office, and give one to the importer. The importer shall within 24 hours pay the amount of octroi due at the Head Octori Office. The Moharrir at the Head Octroi Office shall draw up in duplicate a receipt in the annexed form J. One copy shall be given to the importer and the other shall remain as a counterfoil in the Receipt Book.

(*a*) (3). In the case of goods brought direct to the Head Octroi Office, the Octroi Moharrir shall draw up in duplicate a receipt in form D, badami paper, one copy being given to the importer and the other remaining as a counterfoil in the Receipt Book.

(*a*) (4). In the case of goods or animals brought by roads, the Octori Moharrir shall endorse the badami receipt (form D) with the word وصول شد "Received", as soon as the goods or animals enter Municipal limits. In the case of goods or animals brought by rail, the same shall be done by the Moharrir posted at the exit from the Railway Goods yard.

6 (*b*) (1). In the case of goods for immediate exportation the Moharrir shall draw up in duplicate a Pass in form F on yellow paper, filling up all columns except 9 and 10. One copy shall be given to the importer and the other shall remain in the Pass book as a counterfoil. The Pass given to the exporter shall be delivered up by him at the export barrier, where the Moharrir after satisfying himself that the goods or animals being exported are those covered by the Pass, shall give the exporter a receipt in form G, see the goods or animals beyond the Octroi boundary, fill up columns 9 and 10 of the Pass and place it in his cash box (Golak) for eventual despatch to the Head Octroi Office. On receipt of yellow Pass at the Head Octroi Office, it shall be sent to the Moharrir of the issuing post, who shall paste it on its counterfoil.

The Octroi Superintendent shall in course of his daily inspections see that the books of yellow passes are kept up to date at the octroi posts.

(*b*) (2). If the goods or animals be not exported within 24 hours, the importer shall within 48 hours in the absence of reasonable excuse, the burden of proving which shall lie on him, give notice of the fact to the Octroi Superintendent or to the Moharrir in charge of the octroi post of import, and shall pay the duty chargeable on the goods or animals as though he had imported them under clause (6) (*a*) delivering up at the same time the Pass issued, under the preceding paragraph (6) (*b*) 1 ; any breach of this rule shall be held to be an evasion of payment of octroiduty.

(*b*) (3). The Moharrir shall also be bound to report at once in writing to the Octroi Superintendent all cases in which the yellow Pass issued by him is not received back within 48 hours. On receipt of such report, the Octroi Superintendent shall enquire into the circumstances and report them to the Secretary for necessary action.

6. (*c*) In the third case mentioned in rule (5) the article may be sent to the Bonded Warehouse under a Pass similar in form F to that prescribed in clause (6) (*b*) (1) but printed upon green paper.

This Pass is not necessary in the case of goods received by rail, so long as the Bonded Warehouse stands in front of the exit from the Railway Goods yard.

7. (*a*) Determination of the value of goods for assessment of octroi :—

All goods on which an *ad valorem* octroi is leviable will be taxed according to their full value as given in the original invoice (Bijak) or bill from the station of import.

(*b*) In the event of there being no invoice or bill a declaration in form B must be made and signed by the importer at the Head Octroi Office, specifying the nature, weight in Government maunds and seers and value of the goods, and the octroi will be levied accordingly.

Should the importer or his agent refuse to make a declaration of the value of the goods, the same may be appraised according to the market value in Ajmer and the octroi levied on the same.

When the invoice is subsequently received by the importer, he shall be bound to produce the same at the Head Octroi Office for check and shall pay or receive back, as the case may be, the difference, if any, on account of octroi that may after such check be found to be due by him or due to him.

(*c*) In the case of dutiable goods imported by rail, the Railway Receipts shall be produced in addition to the invoice (Bijak) bill or declaration required under clauses (*a*) and (*b*).

8. Inspection of Traders' Account books.—The Chairman of the Municipality or a member authorised by the Chairman shall be at liberty to inspect and examine the account books of any trade, whenever it may be deemed necessary to do so in the interests of octroi taxation.

BONDED WAREHOUSE.

9. There shall be a general Bonded Warehouse under the charge of an Octroi Moharrir for temporary accommodation of goods in transit or in dispute as regards the amount of octroi due.

The warehouse is intended for temporary use only and the Municipality reserve to itself the right of refusing to admit any goods except for the purposes stated above and of calling upon the owners or importers of goods to remove them after a resonable time according to the discretion of the Chairman of the Municipal Committee.

10. Detention of goods in Bonded Warehouse.—Importers of goods unable or unwilling to pay the octroi at the octroi post or dissatisfied with the amount of octroi there demanded, shall take such goods to the Bonded Warehouse, there to be detained till the octroi is paid or until the goods are released for immediate removal from the Municipality.

11. On goods arriving at the Bonded Warehouse, the Moharrir in charge shall at once make an entry of the goods in his Register after comparing them with the pass. The pass shall be filed as a voucher in the Bonded Warehouse office. A receipt in form C shall be given by the Moharrir to the owner or importer of the goods in bond.

12. Fees for Bonded Warehouse.—In return for the accommodation provided in the Bonded Warehouse, a fee of three pies for every bale or package weighing not more than 6 maunds, shall be charged for periods not exceeding 7 days. If the goods be not removed at the expiration of the first 7 days, a further fee of 3 pies per bale or package shall be charged for every subsequent period of 7 days or part thereof, during which the goods remain in the Bonded Warehouse.

For bales or packages weighing more than 6 maunds each, the fees will be double the rate prescribed above.

13. A portion of a consignment may be cleared from the Bonded Warehouse at paying the octroi duty thereon without rendering the remainder of the consignment liable to octroi duty until such remainder leaves the Bonded Warehouse for sale or consumption within the Municipal limits.

14. All fees due for goods deposited in the Bonded Warehouse shall be paid at the time the goods are removed from the Bonded Warehouses.

The Moharrir in charge of the Bonded Warehouse shall transmit to the Head Octroi Office at times fixed by the Committee:—

(1) The amount of cash collected by him during the day.

(2) A list of passes granted by him under rule 15 (4).

15 (1). Release of property from the Bonded Warehouse.—When the owner or importer of articles bonded under clauses 9-10, desires to export the same, he shall apply to the Moharrir in charge of the Bonded Warehouse for the release of his property, the Moharrir having satisfied himself from the register of the propriety of the application shall direct the release of the articles on payment of the prescribed fee for accommodation and obtain the signature of the owner or exporter in the register. A receipt in form C-I shall be given by the Moharrir for all fees received under this rule.

(2) If the articles released from the Bond under this rule, be not exported within 12 hours from the time of release the owner or exporter shall be bound to give notice to the Octroi Superintendent and to pay the octroi chargeable thereon, and receipt shall be given for the octroi paid as prescribed in rule 6 (*b*) (1).

(3) Goods shall not be removed from the Bonded Warehouse except between the hours of 8 A.M. and 5 P.M. or between such other hours as the Committee may fix from time to time.

(4) A pass similar to that provided for by rule 6 (*b*) (1) and under similar conditions shall be granted to the exporter by the Moharrir in charge of the Bonded Warehouse.

16. The Octroi Superintendent shall visit the Bonded Warehouse daily and satisfy himself that the work is properly done there.

17. A sufficient watch and ward shall be maintained by the Municipal Committee to ensure the safe custody of the goods in bond. Owners will be at liberty to employ their own chowkidars in addition.

18. Non-liability of the Municipality for damage to goods in the Bonded Warehouse.—Persons depositing goods in the Bonded Warehouse shall have no claim for compensation for any damage or loss that may occur while the goods are passed into or out of the Bonded Warehouse or while they remain therein, unless such damage or loss shall be proved to have been occasioned by the wilful act or neglect of the official in charge of the Bonded Warehouse or other Municipal Official charged with the safe custody of the goods.

19. Detention of goods upon evasion of payment of octroi.—If the Octroi Superintendent considers that any person is evading or attempting to evade the payment of octroi on any goods or animals which are being brought into the Municipality he may detain such goods reporting his doing so without delay to the member supervising the octroi administration.

If the member determines that octroi is payable upon such goods and the party bringing them into the Municipality shall not forthwith pay the amount declared by the member to be due; the goods shall be sent to the Bonded Warehouse, and shall be dealt with in accordance with the provisions of rules 9 to 18.

CONDUCT AND DUTIES OF OCTROI ESTABLISHMENT.

20. There shall be placed at every octroi post a locked box (Golak) into which the Octroi Moharrir shall drop the money, the duplicates of receipts and passes issued, together with the passes received by him under rules 6 (*a*) (1) and (2), 6 (*b*) (1) and (2) the key of the box shall remain with the Octroi Moharrir.

The Octroi Moharrir shall be bound to supply the octroi payer with such change up to the value of one rupee as may be required by him for the payment of the dues.

21. Verification of octroi receipts.—The contents of the cash boxes (Golak) of octroi outposts shall be forwarded to the Head Octroi Office where they shall be counted by the Octroi Superintendent every day at a fixed time. The Octroi Superintendent shall also compare the entries made in the copies of the receipts received with the cash with the entries in the octroi post daily registers and the totals of the latter with the daily abstracts (goshwaras) and he shall satisfy himself that these items agree and that they correspond with the actual amount of cash received.

The Octroi Superintendent shall then enter the totals for the Head Octroi Office and for each outpost in the cash account (Siyaha) with his own hand in English. He shall also enter the totals in the same manner in the Octroi Out-post Daily Register and Daily Abstracts. He shall then sign the Cash Account, the Daily Registers and the Daily Abstracts.

(22) After verification of the receipts, the Octroi Superintendent shall pay over the whole sum upon the same day to the Secretary, who shall acknowledge receipt by signing his name opposite the Cash Account and deposit such amount along with other cash received by him in the Treasury the same day.

Provided that on days when the Treasury is not open for the receipt of money, the money shall remain in the custody of the Octroi Superintendent and shall be paid to the Secretary on the first subsequent day on which the Treasury may be open.

(23) The copies of the receipts (Rawannas) taken out of the cash boxes shall be filed in the Head Octroi Office with the counterfoils when received from the octroi posts The copies of the receipts shall be made into bundles corresponding to the counterfoils with which they are to be filed and shall be placed in serial order.

(24) Checking of receipts.—Monthly lists showing the income from each octroi post and the income under each class of articles shall be prepared in the Head Octroi Office and shall be submitted to the Convener, Finance Sub-Committee, through the Secretary.

An abstract from this list giving the total income from each octroi post shall be forwarded monthly to the Moharrir in charge for verification. Any discrepancy shall be immediately reported by him to the Secretary.

(25) The Finance Sub-Committee shall supervise generally the octroi administration, applying suitable effective tests both in the realization of octroi income and the refunds of octroi.

The members of the Finance Sub-Committee shall in turn under the directions of the Convener, inspect the octroi posts at uncertain intervals, compare entries in the daily Register with the counterfoil Receipt (Rawanna) Books, see that no leaves in this book are left blank while others of higher serial numbers are filled up, and check, when opportunity occurs, the receipts given to importers with the counterfoils. All entries examined shall be initialled by the member, who shall at once report any irregularities discovered to the Convener of the Finance Sub-Committee.

(26) Duties of Moharrirs.—It shall be the duty of the Moharrir in charge of each Octroi Outpost to transmit to the Head Octroi Office at times fixed by the Committee :—

(1) The amount of cash collected by him during the day with vouchers.

(2) Duplicates of the receipts and passes issued, and the passes received by him during the day.

(3) A list of the passes granted by him under rule 6(*b*)(1).

(4) A list of goods or animals passed through on promise of payment under rule 6 (*a*) (2).

(5) The Daily Register and Daily Abstract.

It shall also be the duty of the Moharrirs in charge of Octroi outposts to keep up the following Registers :—

(*a*) Register of passes (through Challans) granted under rule 6(*b*)(1).

(*b*) Register of receipts (Rawannas) issued on badami paper.

(*c*) Register of refund passes.

(*d*) Register of white passes.

Knowledge of English, Urdu, Hindi and Mahajani shall be required from the Octroi Superintendent and the Assistant Superintendent and every Moharrir to the extent approved by the Finance Sub-Committee in each case.

(27) Preparation of Receipts (Rawannas) for octroi received.—The receipts shall be written in Hindi with carbon paper. Each receipt being press numbered with double numbers, *viz.*, a serial book number, and a serial receipt number, and the daily serial number being given by hand.

Each book shall consist of 50 receipts in duplicate for the Head Octroi Office and in triplicate for the outposts.

OCTROI ESTABLSHMENT.

(28)(*a*) An Octroi Superintendent with a subordinate establishment shall be entrusted with the collection of octroi under the supervision of the Municipal Committee to be ordinarily exercised through the Chairman, Vice-Chairman or the Finance Sub-Committee, the General Committee reserving their right to call for reports to discuss the same and to pass such orders as may seem suitable.

(28)(*b*) The Head Octroi Office shall be under the immediate control of the Octroi Superintendent, who shall supervise the whole work and keep charge of the cash collected. He shall see that the procedure laid down is properly carried out by the Moharrirs, clerks and other officials under him both at the Head Office and the outposts, and that the prescribed Registers are regularly kept up and the returns duly rendered.

(29) Power of appointment of Octroi servants.—The establishment for the collection of octroi shall be appointed by the Finance Sub-Committee subject to the approval of the Chairman. Servants of the Octroi establishment shall wear such uniform or distinguishing badge, as the Sub-Committee may from time to time prescribe. Every servant shall be supplied with a copy of these rules and of the Octroi schedule which he shall show on demand to any one desiring to see it.

(30) Security deposit by Octroi establishment and their liability as public servants.—Every Octroi servant shall be required to furnish adequate security in an amount to be fixed by the Finance Sub-Committee for the proper performance of his duties. This security shall be liable to forfeiture in case of the Octroi servants for any criminal or dishonest action.

(31) No Octroi servant shall demand or accept any duty in excess of the rates specified in the sanctioned schedule, and no money shall be received by any such servant for which a printed counterfoil receipt in the prescribed form is not given to the payer.

(32) Complaints.—Complaints connected with the levy of octroi may be addressed to the Chairman or Secretary of the Municipal Committee, to be laid before the Convener, Finance Sub-Committee, for orders.

PENALTIES.

(33) Infringement of rules and punishment.—Evasion or infraction of rules, 3,4,5,6, 7, 15, 26, and 31 shall on conviction before any Magistrate be punishable with a fine not exceeding 50 rupees.

The Chairman or the Secretary of the Municipal Committee may apply to a Magistrate for a summons against such offenders.

GENERAL.

(34) The Registers and counterfoils of receipts and passes shall be kept in the Head Octroi Office for three years respectively and shall then be destroyed.

(35) The Municipal Committee may agree to compound for a period of twelve months at a time with any person or class of persons for the payment of octroi which is or may become due from them. When arrangements are made for compounding for the octroi duty which may become due within the specified time, the sum agreed upon shall be paid in advance.

(36) The Municipal Committee shall from time to time prescribe the forms referred to in the aforesaid rules.

(37) Copies of the rules for the assessment and collection of octroi and the octroi schedule in English, Hindi, and Urdu shall be exposed at every octroi outpost and at the Head Octroi Office.

REFUNDS.

(38) On the exportation of dutiable goods beyond the Municipal limits the exporter shall be entitled to a refund of the amount of octroi paid on the import of those goods but no refund shall be claimable if the amount to be refunded be less than eight annas.

(39) No refund shall be granted on any article manufactured or produced within the Municipal limits.

(40) Application for refund shall be made separately by each exporter.

(41) The exporter shall attend at the Head Octroi Office between the hours of 8 A.M. and 2 P.M. or at such hours as shall from time to time be fixed by the Municipal Committee; and shall file an application for refund in a printed form (k) to be had from the office specifying as under :—

(*a*) Description of the goods to be exported.

(*b*) Their quantity, number or value.

(*c*) Amount of refund claimed.

(*d*) The octroi outpost by which and the precise time at which they will be exported.

(*e*) The place to which they will be exported.

(*f*) Signature of the exporter or his agent.

The application shall also be accompanied by an invoice of the goods signed by the exporter or by his recognised agent.

Such goods as are not to be exported by rail, as also those on which refund of *advalorem* duty is claimed, shall be brought to the Head Octroi Office for inspection.

42. The Moharrir at the Head Octroi Office shall register the application and write a pass in the following form L in triplicate. After which the goods shall be inspected by the member or official in charge of refunds, and an endorsement as to their quantity or value ascertained as per rule 49 made in column 10 of the pass. The Moharrir will then deliver the pass in duplicate to the exporter to be produced with the goods at the export Octroi Outpost.

1. Date and hour of export.
2. Name and residence of owner.
3. Description of goods.
4. Number of packages, carts or pack animals.
5. Weight, value or number.
6. Amount of refund.
7. Number of application for refund.
8. Destination.
9. Name of export outpost.
10. Endorsement by refund officer.
11. Remarks.

43. On arrival of the goods at the export octroi outpost, the exporter shall deliver the pass to the Moharrir in charge who shall satisfy himself that the goods passing out agree with the declaration in column 4 of pass L made by the exporter at the Head Octroi Office and shall attest the same in column 11 of both slips, of which he shall retain one to be sent into the Head Office with the daily remittances and shall deliver the other to the exporter for presentation at the Head Office.

44. If the goods are despatched by rail, the exporter shall also be bound to produce the railway receipt for verification at the Head Octroi Office within two days after despatch. A copy of the entries in the railway receipt shall be made on the back of the application and this copy shall be signed by the Octroi Superintendent.

45. On production of the pass and the railway receipt in cases of exports by rail at the Head Octroi Office, the exporter shall be entitled to and receive a refund after due verification of demand.

46. The exporter himself or his agent authorised in writing on his behalf shall alone be entitled to receive payment on account of refund.

47. If within seven days from the date of export of goods, for which a pass has been given, the refund due on the pass is not applied for, no application for payment of the same will be entertained and no payment will be made.

48. Exporters shall not club their goods received under different Rawannas for the purpose of raising the refund claimed above the prescribed minimum.

49. In the case of a claim for refund of *ad valorem* duty, the value of the goods shall be calculated at the original cost, or invoice price and not at the selling rates at Ajmer. Where there is a doubt, the Octroi Superintendent may insist upon the production of the Rawanna or Bijak, upon which octroi was originally paid.

In case of a dispute the matter shall be decided by the Secretary or the member supervising the payment of refunds.

50. If any trader produces an invoice containing more than one description of goods which he is about to export, refund may be granted on all the goods on one application only provided that the separate duty on any one description of goods be not less than eight annas. These goods shall be separately detailed as in the application.

51. Claimants for refunds of octroi on goods which subsequent to import become Government property shall present their application at the Head Octroi Office within 7 days from the date on which the goods have become Government property, or where a certificate is given, within one week from the date of such certificate. After the expiration of the above period no application for payment of refunds will be entertained and no payment will be made.

52. Exporters who have not complied with the provisions of these rules shall not be entitled to any refund.

53. An intentional infraction or evasion of any of these rules shall be punishable on conviction before any Magistrate with a fine which may extend to R 50.

54. Rules 28 to 58 both inclusive shall be translated into Hindi and vernacular and circulated in the city , a copy shall also be posted in a prominent place at the Head Octroi Office and at each of the Octroi Post.

55. A register of the application for refunds shall be kept in the form given below (Register M) in which all applications for refunds shall be duly entered. After payments have been made the Octroi Superintendent shall cause the necessary entries to be made daily in Register N, and shall sign the same and see that all applications, certificates (passes) and vouchers relating to each case are properly put together and filed.

Refund applications shall be kept in the Head Octroi Office for 3 years and shall then be destroyed.

56. Such members as the Finance Sub-Committee may from time to time appoint shall supervise the payment of refunds.

Refunds shall be paid at the Head Octroi Office every day between the hours of 7 A.M. and 8 A.M. or at such hours as may be fixed by the Committee.

57. A permanent imprest of R 1,500 shall be allowed by the Municipal Committee to the Octroi Superintendent from which refund shall be made.

58. The Octroi Superintendent shall keep up a cash book in form O and shall recoup himself every week or at shorter intervals, if necessary, by sending a statement embodying the entries in the cash book to the Chairman or Vice-Chairman, through the Secretary, when a cheque for the amount will be drawn up in his favour.

No. 33-*C*.—In exercise of the powers conferred by section 16C of the Mhow, Neemuch and Nowgong Excise Law, 1898, the Agent to the Governor General in Central India, with the previous sanction of the Governor General in Council, is pleased to apply to the Mhow Cantonment the rules relating to hemp drugs published with Notification No. 1163-C., dated the 18th June 1908, on pages 1061—1078 in Part II of the *Gazette of India*, dated 4th July 1908.

No. 35-*C*.—In exercise of the powers conferred by section 16A of the Mhow, Neemuch and Nowgong Excise Law, 1898, the Agent to the Governor General in Central India is pleased—

(1) to establish within the limits of the Cantonment of Mhow a bonded warehouse for the storage of hemp drugs;

(2) to direct that, subject to such conditions as may be prescribed by rules made under section 16C of the said law, the levy of the duty payable under section 16 of the said law on hemp drugs in transit to or stored in the said warehouse shall be postponed until the removal from the warehouse of the hemp drugs.

No. 37-*C*.—In accordance with the provisions of section 16 of the Indore Residency Bazars Excise Law, 1904, the Agent to the Governor General in Central India, with the previous sanction of the Governor General in Council, is pleased to prescribe the following duties payable on the import, on or after the 15th January 1909, into the Indore Residency Bazars of the hemp drugs hereinafter mentioned :—

	If imported from places situated elsewhere than in the Indore State.	If imported from places in the Indore State.

No. 39-*C*.—In accordance with the provisions of section 16 of the Indore Residency Bazars Excise Law, 1904, and in exercise of the powers conferred by section 42 of the said law, the Agent to the Governor General in Central India, with the previous sanction of the Governor General in Council, is pleased to make the following rules for the regulation of the matters hereinafter mentioned :—

1. The passes, required by section 16 of the said law, for the import of hemp drugs shall be in triplicate in such form as may be prescribed by the Agent to the Governor General in Central India in this behalf, and shall be granted only on the application of persons holding a license from the Second Assistant to the Agent to the Governor General for the sale of the drug to be imported, or of the authorised agents of such persons.

2. The person desirous of importing such drugs shall apply in writing to the Second Assistant to the Agent to the Governor General for the issue of a pass. The application which may be sent by post, shall contain the following particulars :—

(1) Name and address of applicant.

(2) Quantity and description of drugs to be imported.

(3) Place whence drugs are to be imported.

(4) Person who will be in charge of the consignment.

(5) Whether pass to be sent to applicant by post or delivered to him at the office of the Second Assistant to the Agent to the Governor General.

The Second Assistant to the Agent to the Governor General shall, unless he sees reason to the contrary, prepare a pass in triplicate. One part shall be sent or delivered to the applicant, the second shall be sent by the Second Assistant to the Agent to the Governor General to the officer in charge of the warehouse or district from which the drug is to be exported, and the counterfoil shall be retained in the office of the Second Assistant to the Agent to the Governor General. The pass shall specify the route to be followed by the consignment, which, in the absence of special reasons to the contrary, shall be required to be despatched by railway to its destination.

3. The importer or his agent shall present his copy of the pass to the officer in charge of the warehouse or district from which the drug is to be exported, who will return it to the person presenting the same, after endorsing on it the particulars of the drugs to be exported. The second copy of the pass received by the same officer will be retained by him and dealt with in accordance with the law and rules in force in the province or State from which the drug is exported.

4. The importer or his agent, after making his purchase, shall have the drugs securely packed and sealed. He shall cause the drugs to be conveyed direct to such building as may by general or special order be prescribed by the Second Assistant to the Agent to the Governor General in this behalf, and there produced, together with his copy of the pass, before the Second Assistant to the Agent to the Governor General or such other officer as may be specified by him in this behalf. He will be permitted to remove the drugs to his licensed premises only after they have been examined and weighed in accordance with the following rules, and after payment of the duty thereon calculated in accordance with the said rules.

5. All drugs imported in accordance with these rules must be removed without delay to the importer's premises, the consignment having first been examined and weighed and the duty leviable thereon having been paid as required by the provisions of these rules. All drugs not removed within 24 hours after the consignment has been examined and weighed as required by these rules shall be disposed of in such manner as the Agent to the Governor General may direct.

Provided that if the Treasury be not open at the time when the consignment has been examined and weighed in accordance with the following rules, the removal of the consignment may be deferred until the next day on which the Treasury is open.

6. As soon as possible after the arrival of the consignment, each package of drugs shall be examined and the condition of the seals noted by the Second Assistant to the Agent to the Governor General or such other officer as may be specified by him in this behalf. Each package of drugs shall be weighed separately in its original packing in the presence of the said officer, and also in the presence of the importer or of his agent. Provided that, if the importer fail to attend, personally or by duly authorized agent, during business hours on the day on which the consignment arrives, the examination and weighment may be effected in his absence.

7. From the gross weight ascertained in accordance with the foregoing rule of each package an allowance of two seers per maund (fractions of a seer being neglected) shall be deducted and set off for packing materials, etc., and the weight of the package thus reduced shall be taken as the true weight for the purposes of these rules of the drugs contained therein.

8. If the total gross weight of the consignment is less than that entered by the officer in charge of the warehouse or district of export in the pass under which the drugs have been imported, the circumstance shall, if the officer by whom the examination is effected is not the Second Assistant to the Agent to the Governor General, be reported by him to the Second Assistant to the Agent to the Governor General, who, if the deficiency is material, shall cause inquiry to be made and report the result for the orders of the Agent to the Governor General in Central India. The Agent to the Governor General in Central India may thereupon direct that the weight entered in the pass, after deducting the allowance for packing materials mentioned in rule 7, shall be deemed to be the true weight of the consignment.

9. In the case of drugs imported from warehouses established under the law in force in British India or maintained by Native States approved in this behalf by the Agent to the Governor General in Central India, and issued from such warehouses in sealed receptacles of standard weight, the weight of such receptables and of their contents being recorded on the receptacles and in the accompanying passes, the packages (if any) containing such receptacles shall be opened on arrival, and the receptacles weighed with their contents by the officer examining the consignment. If the gross weight of a receptacle and its contents as thus ascertained agrees with that recorded on the receptacle and in the accompanying pass, the weight of its contents as so recorded shall, provided that the seals on the receptacle are intact, be taken as the true weight for the purposes of these rules of the drug contained therein. If the gross weight of any receptacle and its contents as ascertained by weighment differs from that recorded on the receptacle and in the accompanying pass, or if the seals are broken or injured, the receptacle shall be opened and the weight of its contents ascertained by actual weighment by the officer examining the consignment.

10. After the drugs have been examined in the manner prescribed by rules 6-9, the officer by whom the examination has been effected shall endorse on the importer's copy of the pass the result of the examination and the amount of duty leviable as ascertained in accordance with the foregoing rules, and shall inform the importer or his agent, if present, of the amount of duty leviable.

11. The importer or his agent shall present to the officer in charge of the Treasury an application in duplicate in form I, together with the duty on the drugs. The officer in charge of the Treasury will receive the application in duplicate and the amount tendered,

and, after ascertaining that the amount tendered is correct, will fill up the figures in the endorsement on both copies of the application, sign them in token of the receipt of the amount tendered, and stamp them both with the seal of the Treasury. One copy will then be returned to the applicant, the duplicate being retained in the Treasury. The importer or his agent will then present his copy to the Second Assistant to the Agent to the Governor General or other officer by whom the examination of the drugs was effected, who will retain it as his authority for permitting the removal of the drug, endorsing on it over his signature the serial number of the pass under which the drugs were imported and the date of removal. He will then return the import pass to the importer or his agent, after endorsing on it the amount of duty paid, the number of the Treasury receipt, the date and hour at which the drugs were removed, and the time within which they are required to reach the importer's licensed premises. The importer or his agent shall convey the drugs, with the pass, direct to his licensed premises, and shall forthwith return the pass to the Second Assistant to the Agent to the Governor General or other officer by whom the examination of the drugs was effected. The said officer shall note on the pass over his signature the date and time of its return, and shall, if he is not the Second Assistant to the Agent to the Governor General, forward it, together with the Treasury receipt for duty, to the Second Assistant to the Agent to the Governor General.

12. The Second Assistant to the Agent to the Governor General will cause the endorsements on the pass to be copied on the counterfoil filed in his office. He will then return the pass to the officer in charge of the warehouse or district of export, entering the date of doing so in the pass so returned and in the counterfoil, and signing the entry in the pass and in the counterfoil.

By order,

P. B. WARBURTON,

First Assistant to the Agent to the Governor General in Central India.

PART IV.

Acts of the Governor General's Council assented to by the Governor General.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Act of the Governor General of India in Council received the assent of the Governor General on the 15th January 1908 and is hereby promulgated for general information:—

ACT NO. I OF 1909.

An Act further to amend the Inland Steam-vessels Act, 1884, and the Indian Steamships Act, 1884.

VI of 1884. VII of 1884.

WHEREAS it is expedient further to amend the Inland Steam-vessels Act, 1884, and the Indian Steamships Act, 1884; It is hereby enacted as follows:

Short title.

1. This Act may be called the Indian Steamships Law Amendment Act, 1909.

The Inland Steam-vessels Act, 1884.

VI of 1884.

Insertion of new section 68A in Act VI, 1884.

2. After section 68 of the Inland Steam-vessels Act, 1884, the following shall be inserted, namely:—

Application of Act to vessels propelled by electricity or mechanical power.

"68A. The provisions of this Act shall apply to vessels which ordinarily ply on inland waters and are propelled by electricity or other mechanical power, with such modifications as the Governor General in Council may prescribe for the purpose of adaptation."

The Indian Steamships Act, 1884.

VII of 1884.

Substitution of new section 4, Act VII, 1884.

3. For section 4 of the Indian Steamships Act, 1884, the following shall be substituted, namely:—

No steamship to carry passengers without a certificate of survey.

"4. No steamship shall carry more than twelve passengers between places in British India or to or from any place in British India from or to any place out of British India, unless she has a certificate of survey under this Act in force and applicable to the voyage on which she is about to proceed, or the service on which she is about to be employed."

Substitution of new section 23, Act VII, 1884.

4. For section 23 of the said Act the following shall be substituted, namely:—

Steamships with foreign certificates of survey or certificates of partial survey.

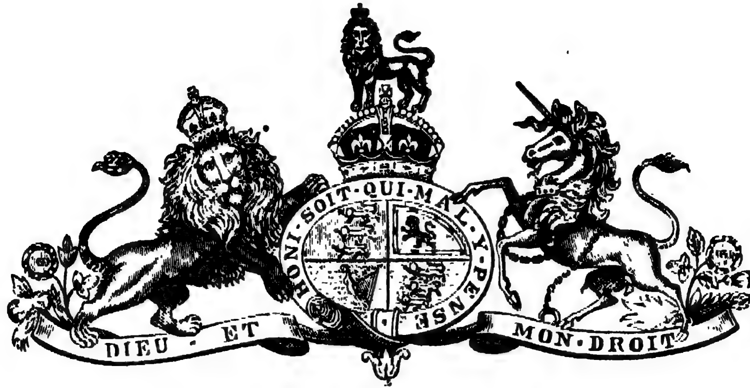
"23. (*1*) When a steamship requires to be furnished with a certificate of survey under this Act and the Local Government is satisfied, by the production of a certificate of survey attested by a British Consular Officer at the port where the survey was made, that the ship has been officially surveyed at a foreign port, and that the requirements of this Act are proved by that survey to have been substantially complied with, the Local Government may, if it thinks fit, dispense with any further survey of the ship in respect of the requirements so complied with, and give a certificate which shall have the same effect as a certificate given after survey under this Act:

Provided that this sub-section shall not apply in the case of a foreign steamship to an official survey at any foreign port with respect to which His Majesty has by Order in Council directed

that section 363 of the Merchant Shipping Act, 58 1894, shall not apply.

(2) When the Local Government has, by notification in the local official Gazette, declared that it is satisfied that an official survey at any foreign port specified in the declaration is such as to prove that the requirements of this Act have been substantially complied with, any person appointed by the Local Government, by name or as holding any office, may exercise the power to dispense with a survey and to give a certificate conferred on the Local Government by sub-section (1) in the case of any steamship furnished with a valid certificate of survey granted at such foreign port and duly attested by the British Consular Officer at that port.

(3) The procedure prescribed in sub-section (1) shall be applicable in the case of steamships furnished with valid certificates of partial survey, including docking certificates, granted by the Board of Trade or any British Colonial Government, as if they were steamships furnished with like certificates of survey granted at foreign ports, subject to the modification that the powers of the Local Government under the said sub-section may be exercised by any person appointed by the Local Government, by name or as holding any office, in this behalf."



Insertion of new section 40 in same Act.

5. After section 40 of the said Act the following shall be inserted, namely:—

Application of Act to ships propelled by electricity or mechanical power.

"41. The provisions of this Act shall apply to ships propelled by electricity or other mechanical power, with such modifications as the Governor General in Council may prescribe for the purpose of adaptation."

PART V.

Bills introduced in the Council of the Governor General of India for making Laws and Regulations, Reports of Select Committees presented to the Council, and Bills published under Rule 23

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Council of the Governor General of India for the purpose of making Laws and Regulations on the 15th January 1909:—

No. 1 OF 1909.

A Bill to amend the Indian Paper Currency Act, 1905.

WHEREAS it is expedient to amend the Indian Paper Currency Act, 1905; It is hereby enacted as follows:— (III of 1905.)

Short title and extent.

1. (*1*) This Act may be called the Indian Paper Currency (Amendment) Act, 1909: and

(*2*) It extends to the whole of British India inclusive of British Baluchistan, the Santhal Parganas and the Pargana of Spiti.

Amendment of section 8 (3), Act III of 1905. (III of 1905.)

2. In section 8, sub-section (*3*), of the Indian Paper Currency Act, 1905, the words "issued from any town not situate in Burma" shall be repealed.

Amendments of sections 14 and 15, Act III of 1905.

3. For sections 14 and 15 of the said Act the following shall be substituted, namely:—

Currency notes where legal tender.

"14. A currency note of the denominational value of five rupees shall be a legal tender in any place in British India, and

a currency note of any denominational value exceeding five rupees shall be a legal tender at any place within the circle from which the note was issued,

for the amount expressed in the note, in payment or on account of—

(*a*) any revenue or other claim, to the amount of five rupees or upwards, due to the Government of India, and

(*b*) any sum of five rupees or upwards, due by the Government of India, or by any body corporate or person in British India:

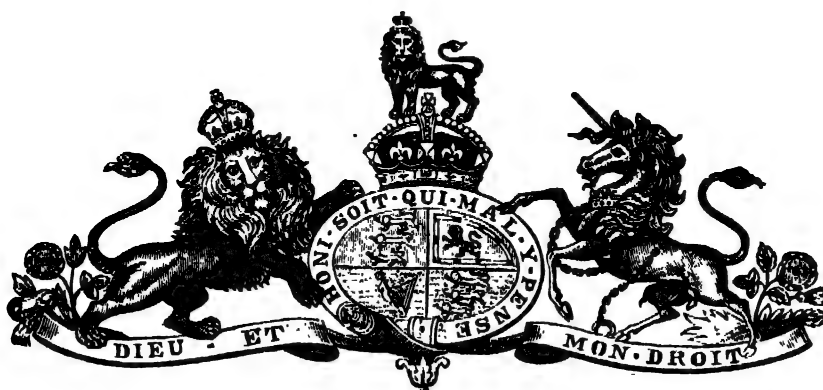
Provided that no currency note shall be deemed to be a legal tender by the Government of India at any office of issue.

Currency notes where payable.

"15. A currency note shall be payable at the following offices of issue, namely:—

(*a*) a currency note of the denominational value of five rupees, at any office of issue;

(*b*) a currency note of any denominational value exceeding five rupees, at an office of issue in the town from which it was issued and also, unless issued from any town in Burma, at an office of issue in the Presidency-town of the Presidency within which such town is situate."



STATEMENT OF OBJECTS AND REASONS.

THE object of this Bill is to amend the Indian Paper Currency Act, 1905, so as to declare the universal five-rupee note, which is at present legal tender throughout British India with the exception of Burma, to be henceforth legal tender throughout all British India, including Burma, and to make it payable at all Currency Offices including that at Rangoon. No further issues of the separate Burma note of this denomination will be made after the new note is introduced.

The Hon'ble Mr. J. M. Holms, C.S.I.

NEW MEMBER.

The Hon'ble Mr. Holms took his seat as an Additional Member of Council.

QUESTIONS AND ANSWERS.

The Hon'ble MR. DADABHOY asked :—

" In answer to a question put by Mr. G. M. Chitnavis in this Council on the 13th March last regarding an inquiry into the causes of the abnormal and general rise in prices of food-grains during the past few years, Government was pleased to give an assurance that the subject was under consideration, and that, in case an inquiry was found necessary, it would gladly consider his suggestion.

Will Government be pleased now to state if it has come to any final decision, and, if so, does it propose to make a full investigation into this most important subject ?"

The Hon'ble SIR GUY FLEETWOOD WILSON replied :—

" The Government fully recognise the high importance of the rise in prices, and it is engaging their most careful attention. It is, however, a question of much complexity, involving a number of other issues of much moment; and the Government are not yet in a position to announce their final decision regarding the suggested enquiry. They trust that it will shortly be possible to give the Hon'ble Member further information on the subject."

The Hon'ble MR. DADABHOY asked :—

" In view of the doubts expressed in certain quarters about the introduction *en bloc* of the Reforms sketched out in the Secretary of State's despatch to this Government of 27th November last, will Government be pleased to state approximately the time when they will be carried out, and, further, for the satisfaction of the people, to use all possible expedition in their introduction ? "

The Hon'ble SIR HARVEY ADAMSON replied :—

" The Government of India understand that a Bill legalising the reforms in question will be introduced in the next Session of Parliament. There can be no enlargement of the Legislative Councils until the Bill has passed into law. There is obviously a considerable amount of work yet to be done before the reforms can take practical effect, but the Government of India are anxious to lose no time, and they have already taken action to secure all possible expedition in the matter."

The Hon'ble MR. DADABHOY asked :—

" Will Government be pleased to consider the desirability of appointing trained lawyers as Judicial Commissioners and Additional Judicial Commissioners wherever such offices exist or may be created in future ?"

The Hon'ble SIR HARVEY ADAMSON replied :—

" There is no obstacle to the appointment of trained lawyers as Judicial Commissioners and Additional Judicial Commissioners. Three such appointments have already been made, and the Governor General in Council will be prepared to make others as occasion may arise."

The Hon'ble MR. DADABHOY asked :—

" Is the Government aware that the imposition upon India of an additional burden of Rs. 45,00,000 in consequence of the decision of the Romer Committee, notwithstanding a vigorous protest from this Government, has caused widespread dissatisfaction in the country ? "

The Hon'ble SIR GUY FLEETWOOD WILSON replied :—

" The Government of India have observed the comments of the Indian Press on the subject."

The Hon'ble MR. DADABHOY asked :—

" Will Government be pleased to state the grounds upon which this burden has been imposed, and to lay upon the table all papers relating thereto ? "

The Hon'ble SIR GUY FLEETWOOD WILSON replied :—

" The capitation rate laid down by the Welby Commission was liable to revision at a subsequent date. The grounds upon which the extra charge was accepted by the Secretary of State were the increase since the calculation and introduction of the £7-10-0 capitation rate in :—first, the training period required ; secondly, the annual cost per man of recruits under training ; and thirdly, the percentage of annual drafts and reliefs to total establishment. As the Secretary of State has decided that it would not be in the public interest to present the papers to the House of Commons, they cannot be presented to this Council "

The Hon'ble MR. DADABHOY asked :—

" Has the Secretary of State for India finally sanctioned the additional expenditure in consultation with this Government ?"

The Hon'ble SIR GUY FLEETWOOD WILSON replied :—

" The Secretary of State has agreed to the extra charge being paid from the 1st May 1908. He is in possession of the views of the Government of India."

The Hon'ble MR. DADABHOY asked :—

" Was the Report of the Romer Committee published either in India or in England before the sanction ? If not, why not ? Has it since been published ?"

The Hon'ble SIR GUY FLEETWOOD WILSON replied :—

" The report of the Romer Committee has not been published, the Secretary of State having decided that its publication would not be in the public interest."

The Hon'ble MR. DADABHOY asked :—

" In sanctioning the extra contribution from India were the recommendations of the Welby Commission taken into account and considered ? "

The Hon'ble SIR GUY FLEETWOOD WILSON replied :—

" The Welby Commission Report was before the Romer Committee. "

The Hon'ble MR. DADABHOY asked :—

" Has a similar contribution been exacted from any of the British Colonies ? If not, why this difference in treatment of different parts of the same Empire ? "

The Hon'ble SIR GUY FLEETWOOD WILSON replied :—

"The Crown Colonies of Mauritius, Ceylon, Singapore and Hong-Kong contribute fixed percentages of their revenues towards the cost of their garrisons. All the most important Colonies, except those in South Africa, provide their own defence forces. Since the passing of the Statute 21 George III, c. 65, in 1781, India has been required to meet all charges for raising, transporting and maintaining the European troops which she employs."

The Hon'ble MR. DADABHOY asked :—

"Has the attention of Government been drawn to the remarks made by Mr. Saradacharan Mitra, late Judge of the Calcutta High Court, on the occasion of his retirement from the Bench, about the enormous growth of business of late years in the Calcutta High Court, the gross insufficiency in the number of Judges, and the consequent failure of justice?

"If so, does Government propose to increase the number of Judges, with due regard to the claims of both branches of the legal profession and the Indian Civil Service?

"Will Government be pleased to ascertain if similar unsatisfactory conditions prevail in any of the other High Courts?"

The Hon'ble SIR HARVEY ADAMSON replied :—

"The Government of India have seen in the newspapers a report of the reply made by the Hon'ble Mr. Justice Mitra to the farewell address presented to him by the Vakils of the Calcutta High Court on the occasion of his retirement from the Bench of that Court.

"The Government of India have at present under their consideration the question of the strength of the Calcutta High Court.

"The Government of India have also under consideration a proposal recently made by the Government of Madras for the temporary strengthening of the Bench of the Madras High Court, with particular reference to the reduction of arrears of work in that Court. They have no reason to believe that any further additions to the strength of the Bench in the Bombay and Allahabad High Courts are necessary at present. In the year 1907 an additional Judge was appointed temporarily to the former Court, to deal with the extra work involved by the institution of a number of cases under the Land Acquisition Act. Early in 1908 the fifth Puisne Judgeship in the Allahabad High Court, which had hitherto been sanctioned as a temporary arrangement, was made permanent: and a sixth Puisne Judge was also appointed to the Court, on the understanding that the appointment should be absorbed on the occurrence of the first vacancy in the Court at the end of eight years."

INDIAN STEAM-SHIPS LAW AMENDMENT BILL.

The Hon'ble MR. HARVEY moved that the Bill further to amend the Inland Steam-vessels Act, 1884, and the Indian Steamships Act, 1884, be taken into consideration. He said :—"The provisions of this Bill have met with general approval and, as the Statement of Objects and Reasons fully explains the purpose which we had in view in framing the Bill, I need now only explain the two small amendments which I am proposing. The first amendment is intended to make it perfectly clear that clause 2 of the Bill will apply to motor-driven craft plying ordinarily on inland waters. Secondly, in the second sub-section of the new section 23 which, when clause 4 of the Bill becomes law, will be substituted for the existing section in the Indian Steamships Act, it is proposed to substitute the word 'substantially' for the word 'sufficiently,' this amendment being necessary to bring sub-section (2) of section 23 into line with sub-section (1) of the same section."

The motion was put and agreed to.

The Hon'ble MR. HARVEY moved that after the word "vessels" in the new section 68A of the Inland Steam-vessels Act, 1884, proposed to be inserted by clause 2 of the Bill, the words "which ordinarily ply on inland waters and are" be inserted.

The motion was put and agreed to.

The Hon'ble MR. HARVEY moved that for the word "sufficiently" in sub-section (2) of the new section 23 of the Indian Steamships Act, 1884, proposed to be substituted by clause 4 of the Bill, the word "substantially" be substituted.

The motion was put and agreed to.

The Hon'ble MR. HARVEY moved that the Bill, as amended, be passed.

The motion was put and agreed to.

INDIAN PAPER CURRENCY (AMENDMENT) BILL.

The Hon'ble SIR GUY FLEETWOOD WILSON moved for leave to introduce a Bill to amend the Indian Paper Currency Act, 1905. He said :—
"Hon'ble Members are in possession of the Bill itself, which cannot be held to be of a controversial character. I may explain that in 1903, when the present five-rupee currency note was introduced, it was made legal tender throughout British India with the exception of Burma. The measure which I now submit to Your Excellency's Council is intended to remove that exception. The reason why the great province of Burma was left outside the scope of the so-called 'universal' note in 1903 was purely a question of ways and means. The experiment of universal notes was a novel one; and we anticipated that they would, in the beginning at any rate, be used to a considerable extent as a means of private remittance, thus throwing upon Government a large potential liability to encash them at the different offices of issue throughout India. It was feared that this liability would be particularly heavy in Burma, owing to the great volume of the seasonal movement of trade between that province and Bengal. It was determined therefore to defer the extension of the universal five-rupee note to Burma until experience had been gained of the working of the change in India.

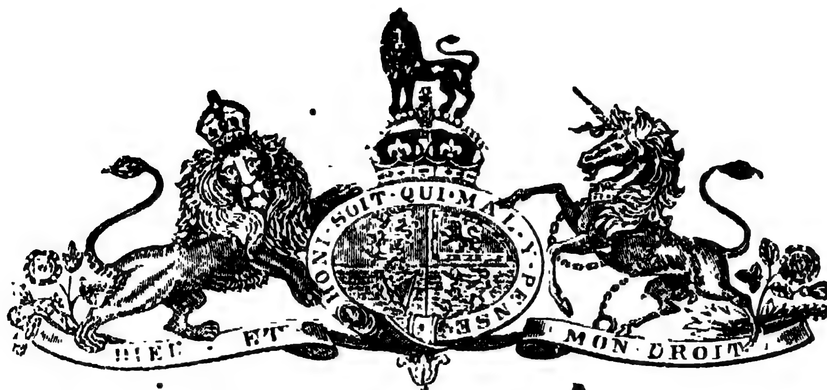
"Five years have passed since then, and we now feel that Burma should no longer be left out of the scheme. We have more information than we had in 1903 regarding the use of the five-rupee note for remittance purposes; and we are prepared, by certain financial dispositions with which I need not trouble the Council, to minimise whatever danger there is in that direction. We believe that the extension of the note to Burma will be welcomed by the business community of that province, and that it will tend to increase the popularity and usefulness of our note circulation.

"If the measure which I now submit becomes law, a new pattern of universal five-rupee note will be issued, bearing its denomination on the face of it in Burmese as well as in the other leading vernaculars of India; the issue of the present Burma note being discontinued."

The motion was put and agreed to.

The Hon'ble SIR GUY FLEETWOOD WILSON introduced the Bill.

The motion was put and agreed to.



The Hon'ble SIR GUY FLEETWOOD WILSON moved that the Bill, together with the Statement of Objects and Reasons relating thereto, be published in the Gazette of India in English and in the local official Gazettes in English and in such other languages as the Local Governments think fit.

The motion was put and agreed to.

The Council adjourned to Friday the 5th February 1909.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8hrs. on Thursday, the 14th January 1909, based on the Indian Daily Weather Reports of the period.

On the 8th pressure was decreasing rapidly in the north-west, and on the next day a well marked depression was shown over the south Punjab, but unlike disturbances of the normal winter type it appeared to be affecting the lower strata of the atmosphere more than the higher. On the 9th a second depression of only slight intensity passed through Sind into south Rajputana. For three days these depressions affected the weather of northern India and light precipitation was reported from the east of the Punjab and neighbouring districts on the 10th, 11th and 12th. Although on the 13th the depressions had disappeared, the weather remained unsettled over the greater part of India.

The passage of the disturbance was accompanied by the usual temperature conditions, high temperatures being experienced in the front of the depressions and cold weather behind. Thus from the 10th to the end of the week the air was warmer than usual in the eastern parts of upper India and colder in the west.

Burma.—Mergui recorded a light fall of rain on the 13th. Skies were almost free from cloud and temperature was normal.

North-east India including Orissa.—Light cloud was reported from the greater part of the division on the 10th, but there was very little cloud on the remaining days of the week. Temperature was approximately normal up to the 13th when it rose and on that and the following day it was in excess at many stations.

The United Provinces, Central India and the Central Provinces.—Moderately heavy snow fell at Chakrata and Muktesar, and light rain at most stations in the western half of

the United Provinces and also at Cawnpore, Benares and Nowgong. Skies were cloudy in the United Provinces and the east of Central India. Temperature was in excess during the greater part of the week, except in the west of Central India.

North-west India.—Rainfall occurred in Baluchistan, the east Punjab, and at Sambhar, Ajmer and Jodhpur, and there was snow in Kashmir and the west Himalayas. Skies were lightly to heavily clouded. The approach of the depression from Persia was accompanied by a rise of temperature which at the beginning of the week was in parts above normal, but as the depression moved eastwards, temperature fell, and a well marked cold wave entered north-west India, the effects of which continued to the end of the week.

The Peninsula.—Skies were free from cloud except in south India. The cold wave in north-west India made itself felt in the Konkan where maximum temperature was in moderate defect on the 12th and 13th, but in other parts of the Peninsula, temperature was approximately normal.

The following summarises the chief amounts of precipitation as reported at 8 hrs. each day:

January 9th. Sonemarg 3·75", Minimarg 2·20" and Chaman 0·53".

" 10th. Sonemarg 4·17" and Srinagar 0·99".

" 11th. Agra 0·94," Chakrata 1·41", Muktesar 1·25" and Ludhiana 1·98."

" 12th. Chakrata 2·65".

The past week's rainfall has considerably diminished the large seasonal deficiency hitherto shown under the United Provinces and the Punjab East and North.

GOVERNMENT OF INDIA.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday, 9th January 1909.

Burma.—Reaping of winter rice is in progress and threshing and winnowing are also progressing satisfactorily. Cultivation of spring rice and of tobacco continues in parts of the Province. Harvesting of late sesamum and *juar* and the cultivation of other miscellaneous and island crops are progressing in places. In Upper Burma standing crops are in good condition. Prospects are good in Lower and Upper Burma. The price of unhusked rice has fallen considerably in three districts and slightly in five; it has risen slightly in two districts.

Eastern Bengal and Assam.—Slight scattered showers fell in the extreme north-east corner of Assam. More rain is urgently needed for standing spring crops. Reaping of winter rice continues. Plucking of cotton is in progress. Pruning of and deep hoeing for tea have commenced but both tea and sugarcane are likely to suffer from want of rain which has already affected the prospects of pulses and rape crops. The number of persons on relief works is:—Dinajpur 2,010; Bogra 238 and about 72 persons on an average *per diem* in Rangpur. The average price of common rice continues almost unchanged. Cattle disease prevails in Mymensingh, Noakhali, Rajshahi, Kamrup and Darrang.

Bengal.— There was practically no rain again in the week under report. Some light showers were received only in Singhbhum and in the Sasaram sub-division of Shahabad. Harvesting of pulses and of early oilseeds still continues in Nadia, Jessore, Purnea and Cuttack and sugarcane pressing is in progress in Bihar and Orissa. Harvesting of winter paddy has not yet been completed. Preparation of lands for planting of sugarcane has commenced in Saran, Sambalpur, Hazaribagh and Ranchi. Spring crops are in need of rain, and the crops on unirrigated areas in Gya, Saran, Muzaffarpur and Darbhanga are suffering for want of moisture. Prospects of these crops are unfavourable in North Bihar and in parts of Burdwan, Murshidabad, Khulna and the Sonthal Parganas. Distress is reported from several thanas of Purnea due to scarcity and high prices of food-grains, and arrangements for relief are being made for those who are in distress. The price of common rice has fallen in Burdwan, Bankura, Hooghly, Nadia, Murshidabad, Patna, Gaya, Shahabad, Darjeeling and Manbhum, and has risen in Khulna, Darbhanga, Purnea, Balasore, Hazaribagh, Ranchi and Cooch Behar. Cattle-disease exists in Midnapore, Nadia, Muzaffarpur, Darbhanga, Puri, Sambalpur and in Chota Nagpur, Singhbhum excepted. Scarcity of the water-supply is reported from Muzaffarpur, Purnea and the Sonthal Parganas. The number of persons on test-works in Darbhanga was 16,132. Gratuitous relief was given to 1,374 persons in Orissa and 975 persons in Darbhanga.

United Provinces.—Fair falls of rain were received in Rampur and Tehri and Aligarh and there were insignificant showers in thirteen other districts. Since the close of the week however good rain has fallen in the hills. There has been general rain in Agra and rain averaging 65 cents in Muttra. Some rain has also fallen in Meerut, Bijnor, Saharanpur, Moradabad and Bahraich while more rain is almost everywhere urgently needed. Some damage from frosts and insects is reported from eleven districts. Unirrigated crops have suffered in Moradabad and Fyzabad and prospects are not good in the Bijaigarh Pargana in Mirzapur; elsewhere standing crops are in fair to good condition. Some cattle disease is reported from ten districts but generally the condition of agricultural stock is good. Malarial fever is dying out. Fodder and supplies are adequate. Prices have risen in five districts; have fallen in eight and are stationary elsewhere.

Punjab.—Light to moderate rain has fallen in all districts except Hissar, Ambala Lahore, Gujranwala, Shahpur, Lyallpur, Jhang and Multan. Winter rains are urgently needed in the Delhi and Lahore divisions. Autumn crops are being harvested and their condition and expected yield are good to average. The outturn of cotton is generally below average while that of sugarcane is good to average. Harvesting of *toria* continues and the yield is reported to be good. Sowings of spring crops continue in some districts. A large area has been sown and prospects are favourable at present. Fever is abating. Prices are high and have risen slightly in some districts. Cattle are in good condition. Fodder is sufficient except in Sialkot, Jhang and in parts of Gurgaon, Amritsar and Mianwali.

North-West Frontier Province.—No rain fell during the week except 1 inch and 36 cents in Hazara. Rain is badly wanted now. Standing crops are generally in good condition throughout the Province. Pressing of sugarcane still continues. Wheat is still being sown in parts of the Peshawar district. In the Marwat tahsil of the Bannu district the wheat crop is reported to have been attacked by insects. The water-supply and fodder are sufficient. There is no irrigation from the Paharpur canal in Dera Ismail Khan. The condition of cattle is generally good throughout the Province. The public health is generally good. Malarial fever in Bannu is now decreasing. Prices show a slight tendency to rise. Wheat sells from 8½ to 10¾; gram from 10 to 11; maize from 10 to 17 and *bajra* from 12¾ to 13 seers per rupee.

Jammu.—There was slight rain during the week. Prices are stationary. Wheat sells from 6½ to 14 and maize from 10 to 20 seers per rupee. The condition of standing crops is fair. Fodder is sufficient.

Kashmir.—The weather during the week was snowy and bitterly cold. Fodder is sufficient. Prices are unchanged. There is no disease.

Rajputana.—Forty-two cents of rain fell at Jodhpur during the week. Rain is needed in Tonk where standing crops have suffered to some extent for want of moisture. Some damage from insects is also reported in that State as well as in Kishangarh and Mewar and from frost in Dungarpur and the Hill Tracts. The condition of cattle generally is good. Fodder is sufficient. Prices have risen in Bikaner, Mewar, Shahpura, Tonk and Bundi but have fallen in Kishangarh.

Central India.—There was slight rain in Bhopal and Bundelkhand and *nil* elsewhere. Harvesting of autumn crops is completed in Gwalior, Indore and Bhopal and is in progress elsewhere. Sowing of spring crops is completed in Baghelkhand and Bundelkhand and is in progress elsewhere. Crops have been damaged slightly in parts of Gwalior, Indore, Baghelkhand, Bundelkhand and Bhopawar. Agricultural stock are good. Cattle disease is prevalent in parts of Bhopal, Bundelkhand and Bhopawar. Prices have fallen in parts of Malwa; are rising in Bhopawar and are stationary but high elsewhere. Opium crops are doing well in Gwalior and Indore and are being irrigated in Bhopal, Baghelkhand and Bhopawar.

Central Provinces.—The weather has been clear and occasionally cloudy. Damoh and Seoni received three cents of rain at head-quarters during the week. Light showers also fell in the interior of the Jubbulpore, Seoni, Narsinghpur and Bilaspur districts. These showers have greatly benefited standing crops but more rain is required in Saugor, Raipur and Bilaspur. Threshing and winnowing of autumn crops and picking of cotton are in full swing. Oilseeds and pulses are in flower and wheat in ear in Damoh, Narsinghpur, Amraoti and Buldana. Cloudy weather in Wardha and insect pests in Nagpur did slight damage to the crops. The condition of spring crops is fair in Chanda, Wardha, Nimar and Raipur and is generally good elsewhere. Agricultural stock are in good condition. Fodder and water are ample. Prices:—wheat rose in Saugor and Seoni by ½ seer per rupee; rice in Balaghat and Bilaspur and *juar* in Chhindwara fell by ¾ to 1 seer. *Juar* in Buldana and rice in Drug and Raipur became dearer by ¼ to 1½ seers. Elsewhere prices remained stationary or fluctuated slightly. The number of weavers on relief was 1,555.

Feudatory States.—Only Kawardha and Bastar had light showers during the week. Threshing and winnowing of autumn crops are approaching completion. Linseed and mustard are not doing well in Bastar. Otherwise the condition of spring crops is generally good. Fodder and water are sufficient. Prices:—wheat and rice in Sarangarh and rice and *Kodon* in Raj-Nandgaon fell by ½ to 1 seer per rupee. Rice in Raigarh and wheat in Raj-Nandgaon rose by ½ and ¼ seer, respectively. Rice became dearer by 4 seers in Sirguja. Elsewhere prices are steady.

Bombay.—Slight rain fell during the week in parts of Kaira, Kanara, the Deccan and the Karnatak. Standing spring crops have been damaged slightly by disease in parts of Poona and by frost in parts of Mahi Kantha and are suffering from want of moisture in parts of Thar and Parkar, Nasik, Ahmednagar, Sholapur and Dharwar. Cotton has been damaged slightly by insects and frost and oilseeds by insects in parts of Hyderabad. Crops are generally in good condition elsewhere. Harvesting of autumn crops has been completed in East Khandesh; is almost over in Nasik and Satara and is in progress in Gujarat, Kanara, West Khandesh, the Karnatak, Baroda, Cutch, Rewa Kantha and Kolhapur. Threshing is completed in Sukkur and continues in parts of the Upper Sind Frontier, Kaira, the Konkan, East and West Khandesh, Nasik, Poona and Palanpur. Picking of cotton is in progress in parts of Hyderabad, Thar and Parkar, East and West Khandesh and Kathiawar. Sowing of spring crops is almost over in Hyderabad and Nasik and continues in parts of Karachi, Larkana, the Upper Sind Frontier and Kanara. Harvesting of spring crops has commenced in parts of Bijapur and Kolhapur. The supply of fodder is adequate except in parts of West Khandesh, Bijapur, Belgaum and Kolhapur. Agricultural stock

are sufficient except in parts of the Deccan and Cutch and are generally in good condition. The supply of drinking water is sufficient except in parts of West Khandesh, Nasik, Belgaum and Kolhapur. Water for irrigation is generally sufficient. Prices of food-grains have risen slightly in Kaira and Dharwar; have fallen slightly in Kanara and are stationary elsewhere. The quantity purchasable per rupee is in Sind 27 to 42 per cent; in Gujarat 18 to 55 per cent.; in the Konkan 14 to 30 per cent; in the Deccan 17 to 46 per cent and in the Karnatak 32 to 76 per cent less than the normal. Stocks of grain are generally adequate. Labourers get sufficient field employment and wages are normal. The cultivating and labouring classes are in fair condition.

Hyderabad.—The rainfall during the week was 15 cents. Spring crops have been benefited. More rain is required, especially in the Raichur district and the Ashti taluka of the Bir district where crops have failed in parts. Picking of autumn cotton is nearing completion. The early rice harvest is almost over. Spring crops are generally fair except in the Raichur district and other isolated parts. Late rice sowings still continue and the crop is fair. Cattle disease is prevalent in five talukas. Prices:— wheat $5\frac{1}{4}$; coarse rice $6\frac{1}{4}$ and *juar* $11\frac{3}{4}$ seers per rupee. White *juar* is selling in Hyderabad City at 11 seers per rupee. The highest price in districts is $8\frac{1}{2}$ seers in the Paloncha taluka of the Warangal district and the lowest 29 seers in the Nagarkurnool taluka of the Mahboobnagar district.

Mysore.—There was very slight rain in parts of the State. Prices of food-grains continue to be high. Paddy and horse-gram are being harvested. Dry crops have improved slightly in Kolar and Tumkur. The season's prospects are not encouraging. Cattle are generally healthy except in parts of the State. Fodder is not easily procurable in the Maidan taluka. Scarcity of water is being felt in parts of Tumkur, Hassan, Kadur, Shimoga and Chitaldrug.

Coorg.—[Report not received.]

Madras.—The rainfall was very heavy in Nellore and the Nilgiris; good in Madura, Cuddapah, Trichinopoly, South Arcot, Coimbatore, Malabar, North Arcot, Madras, Tanjore, Salem, Tinnevelly and Chingleput; *nil* in Vizagapatam and Kistna, and light to fair elsewhere. Irrigation supplies are insufficient except in Chingleput, South Arcot, Trichinopoly, Tanjore, Madura, Malabar and the Nilgiris. Ploughing, sowing, weeding and transplanting are in progress in parts. Standing crops are fair and have much improved by the recent rains in several districts, but some in parts of Ganjam, Vizagapatam, Kistna, Bellary, North Arcot, Malabar and South Canara require more rain. Harvests continue with outturn poor to bumper. Pasture is sufficient except in parts of the Circars, Bellary, Anantapur, Coimbatore, Tinnevelly and South Canara. Fodder is scanty in parts of the Circars, the Deccan, Nellore, South Arcot, North Arcot and Coimbatore. The condition of cattle is generally good. The price of rice is stationary in eight districts; has fallen in twelve and has risen in three. The prices of millets have fluctuated as follows:—*Ragi* is stationary in three districts; has fallen in eleven and has risen in seven. *Cholam* is stationary in six districts; has fallen in six and has risen in two. *Cumbu* is stationary in five districts; has fallen in four and has risen in six. The public health is generally good. Prospects are generally fair and have much improved by the recent rains. The condition of the labouring classes is good and employment is procurable. Grain stocks are generally sufficient.

FAMINE.

Statement showing the number of persons on relief works and in receipt of gratuitous relief in the Districts and Native States affected by famine or scarcity in India—(District details).

NOTE.—The figures are compiled from returns obtained from Local Governments and Political Officers, and give the corrected details of the totals reported in the telegraphic famine reports published weekly in the Supplement to the *Gazette of India*.

Non-labouring children and other dependants of relief workers are classed under relief works when distinguished in the local returns from persons gratuitously relieved in poor-houses or at their houses. Weavers relieved in their own trade are shown under "village doles or other relief."

No. 30.

GOVERNMENT OF INDIA.

HOME DEPARTMENT.

SANITARY.

ADHERENCE OF INDIA TO THE PARIS SANITARY CONVENTION OF 1903.

Calcutta, the 12th January 1909.

RESOLUTION.

In June 1908, the Government of India informed the Secretary of State that they were willing that the adherence of India to the Convention framed at the International Sanitary Conference at Paris in 1903, and ratified by His Majesty's Government in March 1907, should be notified subject to the following five reservations :—

(I) a reservation to the effect that the provisions of the Convention in respect of plague only shall apply to India, the provisions of the Paris Convention of 1894 continuing to apply as regards cholera:

(II) a reservation as to article 93, which creates the obligation that all sanitary imposts leviable on pilgrims shall be included in the initial price of the pilgrims' tickets :

(III) a reservation as to article 96, to the effect that in computing the accommodation to be provided on pilgrim ships for pilgrims, no account shall be taken of children in arms:

(IV) a reservation as to article 110 to the effect that it shall not be necessary to enter in the list the names of female passengers:

(V) a reservation as to article 92, that the Government of India accept no responsibility in respect of British ships carrying pilgrims from ports in the Persian Gulf towards the Hejaz.

2. Intimation has now been received that His Majesty's Ambassador at Paris notified to the Government of the French Republic on the 14th October 1908 the accession of India to the Paris Sanitary Convention of 1903 subject to the reservations enumerated above.

3. The maritime local Governments have already been instructed to observe the provisions of the Convention as accepted by the Government of India and the Government of Bombay are being requested to prepare a redraft of the rules under the Pilgrim Ships Act, 1895, (XIV of 1895) so as to bring them into accord with the Convention.

ORDER.—Ordered that the resolution, with a translation of the Paris Sanitary Convention of 1903, be published for general information in the Supplement to the *Gazette of India.*

H. A. STUART,
Secretary to the Government of India.

THE

INTERNATIONAL SANITARY CONVENTION OF PARIS, 1903;

WITH APPENDICES.

PART I.

GENERAL PROVISIONS.

CHAPTER I.

PROVISIONS TO BE OBSERVED BY THE COUNTRIES SIGNING THE CONVENTION ON THE APPEARANCE OF PLAGUE OR CHOLERA IN THEIR TERRITORY.

SECTION I.—*Notification and subsequent communications to the other countries.*

Art. 1.—Every Government must immediately notify to the other Governments the first appearance of recognised cases of plague or cholera in its territory.

Art. 2.—Such notification shall be accompanied or very promptly followed by detailed information as to :—

(1) where the disease has appeared;

(2) the date of its appearance, its source, and its type;

(3) the number of known cases and deaths;

(4) in the case of plague, the presence of that disease or of unusual mortality among rats or mice;

(5) the measures taken immediately on the first appearance of the disease.

Art. 3.—The notification and the information prescribed in Articles 1 and 2 shall be supplied to the diplomatic or consular agencies in the capital of the infected country. In the case of countries not represented there, the notification and the information shall be telegraphed direct to the Governments of these countries.

Art. 4.—The notification and the information prescribed in Articles 1 and 2 shall be followed by subsequent communications furnished regularly and in such fashion as to keep the Governments informed of the course of the epidemic. These communications shall be made at least once a week, shall be as complete as possible, and shall, in particular, indicate the precautions adopted with a view to prevent spread of the disease. They must set out with precision :—

(1) the preventive measures taken in the way of sanitary inspection or of medical investigation, of isolation, and of disinfection;

(2) the measures adopted in the case of outgoing vessels to prevent exportation of the disease, and, particularly, in the case contemplated in Article 2 (4), the measures taken against rats.

Art. 5.—It is of primary importance that the foregoing provisions be promptly and scrupulously complied with. Notification is of no real value unless every Government be itself informed, in time, of cases of plague and cholera and also of doubtful cases occurring in its territory. It cannot therefore be too strongly impressed on the several Governments that they should

make notification of plague and cholera compulsory, and that they should keep themselves informed as to any unusual mortality among rats or mice, particularly in ports.

Art. 6.—It is to be understood that neighbouring countries reserve to themselves the right to make special arrangements with the object of organising direct exchange of information between the principal administrative officers on their frontiers.

SECTION II.—*The conditions under which a local area may be regarded as infected or as having ceased to be infected.*

Art. 7.—The notification of a first case of plague or cholera shall not lead to the adoption of the measures prescribed in the following Chapter II, against the local area in which the case has occurred. But when several non-imported cases of plague have occurred, or when the cases of cholera constitute a *foyer*,* the local area shall be declared infected.

Art. 8.—In order that the measures be limited to places which are infected, Governments must apply them to arrivals from infected local areas only. "Local area" means a portion of territory clearly defined in the information that accompanies or follows notification—as, for instance, a province, a "government," a district, a department, a canton, an island, a commune, a town, a quarter in a town, a village, a port, a polder, an agglomeration, &c., whatever may be the extent and population of these portions of territory. But this limitation to the infected local area must be accepted only on the definite condition that the Government of the infected country take the measures necessary (*a*) for preventing the export of the things specified in Article 12 (1) and (2) derived from the infected local area, unless previously disinfected, and (*b*) for checking the spread of the epidemic.

When a local area is infected, no restrictive measure shall be taken against arrivals from that local area, if they have left it not less than five days before the beginning of the epidemic.

Art. 9.—In order that a local area cease to be regarded as infected it must be officially established:—(1) that no death from nor fresh case of plague or cholera has occurred within the five days following either the isolation† or the death or recovery of the last case of plague or cholera; (2) that all measures of disinfection have been carried out and that, in the case of plague, measures have been taken against rats.

CHAPTER II.

MEASURES OF DEFENCE, ON THE PART OF THE OTHER COUNTRIES, AGAINST TERRITORIES THAT HAVE BEEN DECLARED INFECTED.

SECTION I.—*Publication of measures prescribed.*

Art. 10.—The Government of each country shall immediately make public the measures which it considers necessary to prescribe with regard to arrivals from an infected country or local area. It shall forthwith communicate these measures to the diplomatic or consular agent of the infected country resident in the capital, and also to the International Sanitary Boards. It shall also communicate, through the same channels, the withdrawal of these

* *Translator's note. The expression "centre of dissemination" may be taken as a fair equivalent for the word* "foyer." *It seems desirable, however, to retain the original term in the text, in view of the difficulty of deciding what is to be regarded as constituting a* "foyer" *of cholera. This question was debated at some length [illegible] the Dresden Conference in 1893, and was again raised at the Paris Conference in 1903 by the translator and others. At the Dresden Conference, Professor Brouardel, one of the French delegates, stated that an exact definition of the word* "foyer" *was a difficult matter. At the Paris Conference in 1903; the word, after some discussion, was retained without definition of its precise significance in relation with cholera.*

† "Isolation" means the isolation of the sick person, of those in permanent attendance on him, and the prohibition of visits by any other person.

measures or any modifications of them. In the absence of a diplomatic or consular agency in the capital, the communications shall be made direct to the Government of the country concerned.

SECTION II.—*Merchandise.—Disinfection.—Importation and Transit.—Baggage.*

Art. 11.—No article of merchandise is in itself capable of conveying plague or cholera. Merchandise becomes dangerous only when contaminated by plague or cholera products.

Art. 12.—Only such merchandise and things as the local sanitary authority considers infected may be subjected to disinfection. Provided always that the merchandise or things hereinafter specified may be subjected to disinfection or their importation may even be prohibited, irrespective of any evidence as to whether or not they are infected:—(1) Body-linen, wearing apparel, bedding that has been in use. But when these things are carried as baggage or in consequence of a change of abode (household goods), their importation may not be prohibited but they shall be dealt with as prescribed in Article 19. Soldiers' and sailors' kits, returned to their country after their death, are to be regarded as of the nature of the things specified in the first sentence of (1) of this Article. (2) Rags, save, in the case of cholera, rags compressed and carried in bound bales as merchandise in bulk. The importation of the following articles may not be prohibited:—Fresh waste derived directly from spinning, weaving, making up, or bleaching establishments; artificial wools (*Kunstwolle*, shoddy) and new paper clippings.

Art. 13.—The transit of the merchandise and things specified in (1) and (2) of the foregoing Article may not be prohibited if they are packed so that they cannot be manipulated on the way. Similarly, when such merchandise and things have been so conveyed that they cannot have come into contact with contaminated articles on the way their transit through an infected local area must not hinder their importation into the country to which they are consigned.

Art. 14.—Importation of the merchandise and things specified in (1) and (2) of Article 12 shall not be prohibited if it be proved to the authority of the country to which they are consigned that they were despatched not less than five days before the commencement of the epidemic.

Art. 15.—It rests with the authority of the country to which the merchandise and things are consigned to decide in what manner and at what place disinfection shall be carried out, and what shall be the methods adopted to secure destruction of rats. These operations must be performed in such fashion as to injure articles as little as possible. It rests with each State to settle questions of consequent compensation for damage caused by measures of disinfection or of rat-destruction. If, on account of measures taken to secure destruction of rats on board ship, charges are levied by the sanitary authority either directly or indirectly through a company or a private person, the rates of these charges must be in accordance with a tariff made public beforehand, and so drawn up that the State or the sanitary authority shall, on the whole, derive no profit from its application.

Art. 16.—Letters and correspondence, printed matter, books, newspapers, business documents, &c. (not including parcels conveyed by post), shall not be subject to disinfection or to any restriction whatsoever.

Art. 17.—Merchandise, whether it has come by land or by sea, may not be detained at frontiers or at ports; the only measures that may be taken are those specified in the foregoing Article 12. Provided always that if merchandise which has come by sea and is either not packed or imperfectly packed, has become infected during the voyage by rats ascertained to have plague, and if such merchandise cannot be disinfected, the destruction of the germs may be secured by storing the merchandise during a period not to exceed two weeks. It is to be understood that the application of this measure shall not in any way delay the ship nor give rise to extra expenses by reason of deficient storage-accommodation in any port.

Art 18.—When merchandise has undergone disinfection in accordance with the provisions of Article 12, or has been temporarily stored in virtue of the proviso contained in Article 17, the proprietor of such merchandise or his representative has the right to exact from the sanitary authority that has ordered the disinfection or the storage, a certificate showing the measures that have been taken.

Art. 19.—*Baggage.*—Soiled linen, clothing and articles carried as baggage or as household goods, from a local area declared to be infected, shall undergo disinfection only in those instances where the sanitary authority considers them infected.

SECTION III.—*Measures at ports and land frontiers.*

Art. 20.—*Classification of ships.*—A ship shall be regarded as *infected* if there is plague or cholera on board or if there have been one or more cases of plague or cholera on board within seven days.

A ship shall be regarded as *suspected* if there have been cases of plague or cholera on board at the time of departure or during the voyage but no fresh case within seven days.

A ship shall be regarded as *healthy,* notwithstanding its having come from an infected port, if there has been no death from nor case of plague or cholera on board either before departure or during the voyage or on arrival.

Art. 21.—In the case of *plague, infected* ships shall undergo the following measures :—

(1) medical inspection;

(2) the sick shall immediately be disembarked and isolated;

(3) the other persons must also be disembarked if possible, and either be kept under observation* during a period which shall not exceed five days and which may or may not be followed by surveillance† of not more than five days' duration, or merely be subjected to surveillance during a period which shall not exceed ten days. The period shall date from the arrival of the ship. It rests with the sanitary authority of the port, after taking into consideration the date of the last case, the condition of the ship, and the local possibilities, to take that one of these measures which seems to them preferable;

(4) such soiled linen, wearing-apparel, and articles belonging to the crew‡ and passengers as are, in the opinion of the sanitary authority, infected shall be disinfected;

(5) the parts of the ship that have been occupied by persons ill with plague, or that, in the opinion of the sanitary authority, are infected, must be disinfected;

(6) the rats on board must be destroyed either before or after discharge of cargo, as quickly as possible and, in any case, within a maximum time of forty-eight hours, and so as to avoid damage to merchandise and to the ship's plating and engines. In the case of ships in ballast, this process must be carried out as soon as possible before taking cargo.

Art. 22.—In the case of *plague, suspected* ships shall undergo the measures specified in (1), (4), and (5) of Article 21.

* "Observation" means isolation of travellers either on board a ship or in a sanitary station before they obtain free pratique.

† "Surveillance" means that travellers are not isolated; they receive free pratique immediately, but the authorities of the several places whither they are bound are informed of their coming and they are subjected to medical examination with a view to ascertaining their state of health.

‡ "Crew" means persons forming or having formed part of the crew or staff of the ship and includes stewards, waiters, cafedji, &c. The word must be interpreted in this sense in all instances in which it occurs in this Convention.

In addition, the crew and passengers may be subjected to surveillance, the duration of which, dating from the arrival of the ship, shall not exceed five days. The crew may, during the same period, be prevented from leaving the ship except on duty.

Destruction of rats on board is recommended. This process shall be carried out, either before or after discharge of cargo, as quickly as possible and, in any case, within a maximum time of forty-eight hours, and so as to avoid damage to merchandise and to the ship's plating and engines. In the case of ships in ballast, this process, if there be occasion for it, shall be carried out as soon as possible and, in any case, before taking cargo.

Art. 23.—In the case of *plague, healthy* ships shall be given free pratique immediately, whatever their bill of health may be. The only measures which the authority of the port of arrival may take as regard these ships are the following:—

(1) medical inspection;

(2) disinfection of soiled linen, wearing-apparel and other articles belonging to the crew and passengers, but only in exceptional instances, when the sanitary authority has special reasons for regarding them as infected;

(3) the sanitary authority may subject ships from an infected port to a process intended to secure destruction of rats on board, either before or after discharge of cargo, although this measure must not be resorted to as a general rule. This process must be carried out as soon as possible and, in any case, must not take longer than twenty-four hours, and so as to avoid damage to merchandise and to the ship's plating and engines, and also so as not to interfere with the coming and going of passengers and crew between ship and shore. In the case of ships in ballast the process, if there be occasion for it, shall be carried out as soon as possible and, in any case, before taking cargo.

If a ship from an infected port has been subjected to measures of rat-destruction, these cannot be repeated unless the ship has called at an infected port and has there brought up to the quay, or unless sick or dead rats are found on board.

The crew and passengers may be subjected to surveillance during a period which shall not exceed five days reckoned from the date on which the ship left the infected port. The crew may, during the same period, be prevented from leaving the ship except on duty.

The competent authority at the port of arrival may, in all cases, exact a certificate, given on oath, from the doctor of the ship, or, in his default, from the captain, testifying that there has not been a case of plague on board since departure and that unusual mortality among rats has not been observed.

Art. 24.—When rats on a *healthy* ship have been shown by bacteriological examination to have plague, or when unusual mortality among these rodents has been observed, the measures to adopt are as follows:—

I. Ships with rats having plague:—

(*a*) medical inspection;

(*b*) the rats must be destroyed, either before or after discharge of cargo, as quickly as possible and, in any case, within a maximum time of forty-eight hours, and so as to avoid damage to merchandise and to the ship's plating and engines. Ships in ballast shall undergo this process as soon as possible and, in any case, before taking cargo;

(*c*) such parts of the ship and such articles as the local sanitary authority regards as infected shall be disinfected;

(*d*) the passengers and crew may be subjected to surveillance during a period which must not exceed five days reckoned from the date of arrival, save in exceptional instances in which the sanitary authority may prolong the surveillance up to not more than ten days.

II. Ships on which unusual mortality among rats has been observed :—

(a) medical inspection;

(b) the rats shall be examined for plague as far and as quickly as possible;

(c) if it be considered necessary to destroy the rats, such destruction shall take place subject to the conditions specified above as regards ships with rats having plague;

(d) until all suspicion shall have been removed, the passengers and crew may be subjected to surveillance for a period which shall not exceed five days reckoned from the date of arrival, save in exceptional instances in which the sanitary authority may prolong the surveillance up to not more than ten days.

Art. 25.—The sanitary authority of the port shall, whenever requested, furnish the captain, the ship-owner, or the ship-owner's agent, with a certificate stating that measures of rat-destruction have been carried out, and giving the reasons why they were resorted to.

Art. 26.—In the case of *cholera*, *infected* ships shall undergo the following measures :—

(1) medical inspection;

(2) the sick shall be immediately disembarked and isolated;

(3) the other persons must also be disembarked, if possible, and either be kept under observation or subjected to surveillance during a period which shall vary with the health-conditions of the ship and the date of the last case, but which shall not exceed five days reckoned from the arrival of the ship;

(4) such soiled linen, wearing-apparel, and articles belonging to the crew and passengers as are, in the opinion of the sanitary authority of the port, infected shall be disinfected;

(5) the parts of the ship that have been occupied by persons ill with cholera, or that the sanitary authority regard as infected, shall be disinfected;

(6) the bilge-water shall be disinfected and pumped out.

The sanitary authority may order that a supply of wholesome drinking-water be substituted for that stored on board.

Casting human excreta, or allowing them to pass, without preliminary disinfection, into the waters of the port may be prohibited.

Art. 27.—In the case of *cholera*, *suspected* ships shall undergo the measures prescribed in (1), (4), (5), and (6) of Article 26.

The crew and passengers may be subjected to surveillance during a period which must not exceed five days reckoned from the arrival of the ship. It is recommended that the crew be prevented, during the same period, from leaving the ship except on duty.

Art. 28.—In the case of *cholera*, *healthy* ships shall be given free pratique immediately, whatever their bill of health may be.

The only measures that the authority of the port of arrival may prescribe as regards these ships are those specified in (1), (4), and (6) of Article 26.

The crew and passengers may be subjected to surveillance, in respect of their state of health, during a period which must not exceed five days reckoned from the date on which the ship left the infected port. It is recommended that the crew be prevented, during the same period, from leaving the ship except on duty.

The competent authority at the port of arrival may, in all cases, exact a certificate, given on oath, from the doctor of the ship or, in his default, from the captain, testifying that there has not been a case of cholera on board since departure.

Art. 29.—In applying the measures specified in Articles 21-28, the fact of a ship of any of the three classes before-mentioned carrying a doctor and

disinfecting apparatus (disinfecting chambers) shall receive due consideration on the part of the competent authority. In the case of plague, like consideration shall be given when the ship is provided with apparatus for the destruction of rats.

The sanitary authorities of States that find it convenient to come to an agreement on the matter, may dispense with medical inspection and other measures in the case of healthy ships carrying a doctor specially commissioned by their country.

Art. 30.—Special measures may be prescribed as regards ships that are overcrowded, and more especially as regards emigrant ships, or any other ship in an unsanitary condition.

Art. 31.—Ships refusing to submit to measures prescribed by a port authority, in virtue of the provisions of this Convention, shall be at liberty to put out to sea. Such ships may be permitted to land goods after the following necessary precautions have been taken, *viz.*:—

(1) isolation of the ship, crew, and passengers;
(2) in the case of plague, request for information as to whether there has been any unusual mortality among rats on board;
(3) in the case of cholera, disinfection and evacuation of the bilge-water and the substitution of wholesome drinking-water for that stored on board.

Such ships may also be authorised to disembark passengers at their request, on the condition that such passengers submit to the measures prescribed by the local authority.

Art. 32.—Ships from an infected place, that have been disinfected and have undergone adequate sanitary measures, shall not, on their arrival in another port, be subjected to these measures a second time, if no case has occurred since the disinfection was performed and if they have not called at an infected port. A ship which has merely disembarked passengers and their baggage, or mails, without having been in communication with the shore, shall not be regarded as having called at the port.

Art. 33.—Passengers arriving by an infected ship are entitled to exact from the sanitary authority of the port a certificate showing the date of their arrival and the measures taken as regards themselves and their baggage.

Art. 34.—Coasting traffic shall be dealt with by special regulations to be agreed upon by the countries concerned.

Art. 35.—Without prejudice to the right of Governments to agree to establish sanitary stations in common, every country must provide at least one port on each of its seaboards with an organisation and an equipment sufficient for the reception of a ship, whatever its health-conditions may be.

It is recommended that, when a healthy ship from an infected port arrives in a large sea-port, such ship should not be sent away to another port with a view to the carrying out of the sanitary measures prescribed.

In every country, the ports open to arrivals from ports infected with plague or cholera must be so equipped that healthy ships can there undergo the prescribed measures upon their arrival and be not sent to another port for the purpose. Governments shall make known what ports in their country are open to arrivals from ports infected with plague or cholera.

Art. 36.—It is recommended that there be provided in large sea-ports:—

(*a*) a properly-organised port medical service and permanent medical supervision of the health-conditions of crews and of the population of the port;
(*b*) suitable accommodation for the isolation of the sick and for keeping suspected persons under observation;
(*c*) bacteriological laboratories and the buildings and plant necessary for efficient disinfection;
(*d*) a supply of drinking-water of quality above suspicion at the disposal of the port, and a system of scavenging that offers every possible guarantee for the removal of excrement and refuse.

SECTION IV.—*Measures at land frontiers.—Travellers.—Railways.—Frontier tracts.—Riverways.*

Art. 37.—Land quarantine must no longer be resorted to. Only such persons as show symptoms of plague or of cholera may be detained at frontiers.

This principle does not deprive a State of the right to close a portion of its frontiers in case of need.

Art. 38.—It is important that the railway staff keep watch over the state of health of travellers.

Art. 39.—Medical intervention shall be limited to inspection of travellers and care of the sick. When this inspection is resorted to, it shall, as far as possible, be combined with the Customs' examination in order that travellers may suffer as little delay as possible. Only those persons who are visibly ailing shall be subjected to a thorough medical examination.

Art. 40.—It is a measure of the greatest value to subject travellers that have come from an infected place, on their arrival at their destination, to surveillance for a period which should not exceed ten or five days, reckoned from the date of their departure, in the case of plague or cholera respectively.

Art. 41.—Governments have the right reserved to them of taking special measures in regard of certain classes of persons, notably gipsies, vagrants, emigrants, and persons travelling or crossing the frontier in bands.

Art. 42.—Railway carriages for passengers, mails, or luggage may not be detained at a frontier. If one of these carriages be infected or shall have been occupied by a person suffering from plague or from cholera, it shall be detached from the train for disinfection at the earliest possible moment. The same procedure shall apply in the case of goods trucks.

Art. 43.—Measures in relation with the crossing of frontiers by railway and postal staff come within the scope of the administrations concerned. They shall be arranged so as not to hamper the service.

Art. 44.—The regulation of frontier traffic and questions connected therewith, as also the adoption of exceptional measures of surveillance, must be left as matters for special arrangements between adjoining States.

Art. 45.—The sanitary control of riverways is a matter for special arrangement by the Governments of States abutting thereon.

PART II.

SPECIAL PROVISIONS REGARDING COUNTRIES OUTSIDE EUROPE.

CHAPTER I.

ARRIVALS BY SEA.

SECTION I.—*Measures at infected ports on the departure of vessels.*

Art. 46.—The competent authority shall take effectual measures to prevent the embarkation of persons showing symptoms of plague or of cholera.

Every person taking passage by a ship must be individually examined at the time of embarkation, by day and on shore, during such time as may be necessary, by a doctor appointed by the public authority. The consular authority of the country to which the ship belongs may be represented at this examination.

In exception of this provision, the medical examination may, at Alexandria and Port Said, take place on board whenever the local sanitary authority consider this course to be of service; subject, however, to the reservation

that third-class passengers shall not afterwards be authorised to leave the ship. The medical examination may be conducted by night in the case of first-class and second-class passengers, but not in the case of third-class passengers.

Art. 47.—The competent authority shall take effectual measures :—

(1) to prevent the exportation of such merchandise or articles of any sort as it may regard as infected and which have not previously been disinfected on shore under the supervision of a doctor appointed by the public authority;

(2) in the case of plague, to prevent rats gaining access to ships;

(3) in the case of cholera, to see that drinking-water taken on board is wholesome.

SECTION II.—*Measures regarding ordinary ships from infected northern ports, on their arrival at the entrance to the Suez Canal or at Egyptian ports*

Art. 48.—Ordinary *healthy* ships from a port, infected with plague or with cholera, in Europe or in the Mediterranean basin, proposing to pass through the Suez Canal, shall be granted passage in quarantine and shall continue their voyage under five days' observation.

Art. 49.—Ordinary *healthy* ships, wishing to touch at Egypt, may put in at Alexandria or Port Said, where their passengers shall complete the period of five days' observation, either on board, or in a sanitary station, as the local sanitary authority may decide.

Art. 50.—The measures to be taken as regards *infected* and *suspected* ships from a European or Mediterranean port infected with plague or with cholera, wishing to touch at an Egyptian port or to pass through the Suez Canal, shall be settled by the Egyptian Sanitary Board in conformity with the provisions of this Convention. The regulations embodying these measures must, to become effective, be accepted by the several Powers represented on the Board: they shall establish the measures to which ships, passengers, and merchandise are to be subjected, and must be submitted with the least possible delay.

SECTION III.—*Measures in the Red Sea*

A.—*Measures regarding ordinary ships from the south, touching at Red Sea ports or bound for the Mediterranean*

Art. 51.—In addition to the general provisions comprised in Part I, Chapter II, Section III, concerning the classification of ships as infected, suspected, or healthy, and the measures regarding them, the special provisions embodied in the following articles, shall apply to ordinary ships entering the Red Sea from the south.

Art. 52.—*Healthy* ships must have completed or must complete five full days' observation reckoned from the time of their departure from the last infected port touched at.

They shall be entitled to pass through the Suez Canal in quarantine and shall enter the Mediterranean continuing the above-mentioned five days' observation. Ships with a doctor and a disinfecting chamber shall not undergo disinfection prior to the passage in quarantine.

Art. 53.—*Suspected* ships shall be treated in a manner which shall differ according as to whether they have or have not a doctor and a disinfecting apparatus (disinfecting chamber).

(*a*) Those that have a doctor and a disinfecting apparatus (disinfecting chamber) that fulfils the requisite conditions shall be allowed to pass through the Suez Canal in quarantine subject to the regulations prescribed for the passage.

(*b*) Those that have neither doctor nor disinfecting apparatus (disinfecting chamber) shall, before being allowed to pass through the Canal in quarantine, be detained at Suez or at Moses' Wells for such time as may be

necessary for the performance of the disinfection prescribed and for assurance that the health-conditions on board are satisfactory.

Passage in quarantine shall be granted to mail-boats or packets specially devoted to passenger traffic that have a doctor but no disinfecting apparatus (disinfecting chamber), if it be officially established to the satisfaction of the local authority that cleansing and disinfection have been properly carried out at the place of departure or during the voyage.

Free pratique may be granted at Suez, on the termination of the procedure prescribed by the regulations, to mail-boats or packets specially devoted to passenger traffic that have a doctor but no disinfecting apparatus (disinfecting chamber), if the last case of plague or cholera occurred more than seven days before and if the health-conditions of the ship are satisfactory.

In the case of a vessel that has had a healthy voyage of less than seven days' duration, passengers for Egypt shall be landed at an establishment appointed by the Alexandria Board and isolated for such time as may be necessary for the completion of five days' observation. Their soiled linen and their wearing apparel shall be disinfected. They shall then be granted free pratique.

Ships that have had a healthy voyage of less than seven days' duration and that wish to have free pratique for Egypt shall be detained at an establishment, appointed by the Alexandria Board, during such time as may be necessary for the completion of five days' observation; they shall undergo the measures prescribed by the regulations for suspected vessels.

When plague or cholera has occurred among the crew only, no soiled linen shall be disinfected save that of the crew, the whole of which, however, shall undergo disinfection; the crew's quarters shall also be disinfected.

Art. 54.—*Infected* ships shall be divided into two classes, ships with a doctor and a disinfecting apparatus (disinfecting chamber), and ships without a doctor and without a disinfecting apparatus (disinfecting chamber).

(*a*) Ships without a doctor and without a disinfecting apparatus (disinfecting chamber) shall be detained at Moses' Wells;* persons that show symptoms of plague or cholera shall be disembarked and isolated in a hospital. Disinfection shall be thoroughly carried out. The other persons shall be disembarked and isolated in as small groups as possible so that, if plague or cholera break out in one group, the whole party will not be affected. The soiled linen and the clothing of passengers and crew, and other articles used by them, shall be disinfected, as also shall the ship.

It is to be understood that there is no question of discharging merchandise, but only of disinfecting the infected part of the ship.

The passengers shall remain five days at an establishment appointed by the Egyptian Sanitary Maritime and Quarantine Board. When cases of plague and cholera have not occurred for several days the term of isolation shall be shortened. Its duration shall vary according to the date of recovery, death, or isolation of the last case. Thus, if six days have elapsed since the recovery, death, or isolation of the last case, the period of observation shall be one day; if only five days have elapsed, the period shall be two days; if only four days have elapsed, the period shall be three days; if only three days have elapsed, the period shall be four days; if only two days or one day have elapsed, the period shall be five days.

(*b*) Ships with a doctor and a disinfecting apparatus (disinfecting chamber) shall be detained at Moses' Wells. The ship's doctor must state, on oath, which persons on board have symptoms of plague or of cholera. These persons shall be disembarked and isolated.

After these persons have been disembarked, such of the soiled linen of the other passengers as the sanitary authority regards as dangerous and that of the crew shall be disinfected on board. When plague or cholera has

* The sick shall, as far as possible, be landed at Moses' Wells; the other persons may be kept under observation at a sanitary station appointed by the Egyptian Sanitary Maritime and Quarantine Board (pilots' lazaret).

occurred only among the crew, the disinfection of linen shall be carried out only as regards the soiled linen of the crew and the linen of the crew's quarters.

The ship's doctor must also declare, on oath, which part or compartment of the ship was occupied by the sick and to which section of the hospital they were removed. He must also declare, on oath, which persons have been in relation with the plague or cholera patient since the first appearance of the disease, either by direct contact or by contact with objects that may have been infected. Only these persons shall be regarded as suspected.

The part or compartment of the ship, and the section of the hospital, that have been occupied by the sick, shall be thoroughly disinfected. "Part of the ship" shall mean the cabin of the sick person, the adjoining cabins, the passage to these cabins, the deck, the parts of the deck where the sick person or persons have remained for some time. If it be impossible to disinfect the part or compartment of the ship that has been occupied by plague or cholera sick without disembarking the persons declared to be suspected, these persons shall either be transferred to another ship specially reserved for the purpose, or be landed and accommodated in the sanitary station without being brought into contact with the sick, who must be kept in the hospital. This stay on board ship or on shore, for purposes of disinfection, shall be as short as possible and shall not exceed twenty-four hours.

The suspected persons shall be kept under observation, either on their own ship or on the ship reserved for that purpose, for a period which shall vary according to the circumstances and in the manner set out in the third paragraph of sub section (*a*) of this Article.

The time occupied in carrying out the measures prescribed by the regulations shall be included in the observation period.

Passage in quarantine may, if deemed possible by the sanitary authority, be allowed before expiry of the periods of detention indicated above. It shall in any case be granted on the completion of disinfection if the ship leaves behind, in addition to its sick, the persons classed above as "suspected."

A barge fitted with a disinfecting chamber may be brought alongside the ship with a view to hastening the process of disinfection.

Infected vessels seeking free pratique in Egypt shall be detained five days at Moses' Wells; they shall, in addition, undergo the same measures as are taken in the case of infected ships arriving in Europe.

B.—*Measures regarding ordinary ships from infected ports in the Hedjaz during the pilgrimage season.*

Art. 55.—If, during the Mecca pilgrimage, plague or cholera is prevalent in the Hedjaz, ships from the Hedjaz or from any other part of the Arabian coast of the Red Sea, that have not there taken on board any pilgrims or like collections of persons and on which there has been no suspicious incident during the voyage, shall be classed as ordinary suspected ships and shall be subjected to the preventive measures and the treatment prescribed for such ships.

If they are bound for Egypt they shall undergo, at a sanitary station appointed by the Sanitary Maritime and Quarantine Board, five days' observation, reckoned from the date of their departure, whether it be cholera or plague that is in question. They shall, moreover, be subjected to all the measures prescribed for suspected ships (disinfection, &c.), and shall not be granted free pratique until after favourable medical inspection.

It is to be understood that, if there have been suspicious incidents on board during the voyage, the period of observation shall be undergone at Moses' Wells and shall be five days whether it be cholera or plague that is in question.

SECTION IV.—*The organisation for securing surveillance and disinfection at Suez and at Moses' Wells*

Art. 56.—Every ship arriving at Suez shall undergo the medical inspection prescribed by the regulations. This inspection shall be conducted by

one or more of the doctors attached to the station, and shall, in the case of ships from a port infected with plague or with cholera, be made by day. It may, however, in the case of ships wishing to pass through the Canal, take place by night when the ship is lighted by electricity and in all cases in which the local sanitary authority is satisfied that the ship is sufficiently well lighted.

Art. 57.—There shall be at least seven doctors at the Suez station,—a Principal Medical Officer and six medical officers. They must hold a recognised diploma and, in their selection, preference is to be given to medical men who have made a special study of practical epidemiology and practical bacteriology. They shall be appointed by the Minister of the Interior on the recommendation of the Sanitary Maritime and Quarantine Board of Egypt. The salary of the medical officers shall commence at 8,000 francs and rise by progressive increments to 12,000 francs; that of the Principal Medical Officer shall commence at 12,000 francs and rise to 15,000 francs.

Should this medical staff prove insufficient, naval doctors of the several States may be employed, under the orders of the Principal Medical Officer of the sanitary station.

Art. 58.—The supervision and performance of the Suez Canal prophylactic measures, at the Moses' Wells and Tor stations, shall be entrusted to a staff of sanitary guards.

Art. 59.—This staff shall consist of ten guards. They shall be selected from retired non-commissioned officers, of higher than corporal's rank, of the armies and navies of Europe and Egypt. These guards are elected, after the Board is satisfied as to their fitness, according to the procedure laid down in Article 14 of the Khedivial Decree of 19th June 1893.

Art. 60.—There shall be two classes of guards; four of the first class, six of the second class.

Art. 61.—The yearly pay of these guards shall be £160 Egyptian, rising, by progressive increments, to a maximum of £200 Egyptian, for the first class; and £120 Egyptian rising, by progressive increments, to a maximum of £168 Egyptian, for the second class.

Art. 62.—These guards shall have the status of police officers, with the right to invoke aid in cases where the sanitary regulations are infringed. They shall be under the immediate control of the administrator-in-chief of the establishment at Suez or Tor. They must have practical knowledge of all the methods of disinfection in use and must know how to manipulate disinfecting materials and apparatus.

Art. 63.—The disinfecting and isolation station at Moses' Wells shall be under the control of the Principal Medical Officer at Suez. If sick persons are landed at the Moses' Wells Station, two of the Suez medical officers shall be kept in residence there, one to attend to cases of plague or cholera, the other to attend to persons not suffering from these diseases. If there should be cases of plague, of cholera, and of other diseases at the same time, three medical officers shall be kept in residence; one for plague cases, one for cholera cases, and the third for persons suffering from other diseases.

Art. 64.—The disinfecting and isolation station at Moses' Wells must be provided with :—

(1) at least three disinfecting chambers, of which one shall be on a barge, and the plant required for rat-destruction;
(2) two isolation hospitals, each with twelve beds, one for cases of plague and persons suspected of having plague, the other for cases of cholera and persons suspected of having cholera. These hospitals must be so arranged that, in each of them, the sick, the suspected, and men and women can be segregated from one another;
(3) buildings, hospital-tents, and ordinary tents, for the accommodation of persons landed;
(4) a sufficient number of baths and shower-baths;
(5) the necessary buildings for general staff, doctors, guards, &c.; a store and a laundry;

(6) a reservoir for the water-supply;

(7) the several buildings must be so arranged that the sick, or infected or suspected articles, cannot be brought into contact with other persons.

Art. 65.—The disinfecting chambers at Moses' Wells shall be entrusted to the special care of a skilled mechanic.

SECTION V.—*The passage of the Suez Canal in quarantine.*

Art. 66.—Permission to pass the Suez Canal in quarantine shall be granted by the Suez sanitary authority; the Board shall be immediately informed when such permission is given. In doubtful cases, the decision shall rest with the Board.

Art. 67.—When the permission provided for in the preceding article has been given, a telegram shall at once be sent to the authority appointed by each Power. The telegram shall be sent at the expense of the ship.

Art. 68.—Each Power shall issue an edict subjecting to penalties those vessels which depart from the course declared by the captain and enter without license one of the ports of that Power. Exception shall be made in the case of circumstances beyond control and when a break in the voyage cannot be avoided.

Art. 69.—When the health-visit takes place, the captain must declare if he has on board gangs of native stokers, or hired servants, of any description, not included in the roll of the crew, or the register kept for the purpose. The following questions, in particular, shall be put to the captains of all ships arriving at Suez from the south and shall be answered by them on oath :—

Have you any supernumeraries: stokers, or other hands not included in the ship's roll or in the special register?

What is their nationality?

Where did you embark them?

The medical officers must satisfy themselves as to the presence of these supernumeraries, and if they find that any of their number are missing, they must inquire carefully into the cause of their absence.

Art. 70.—A sanitary officer and two sanitary guards shall go on board. They must accompany the ship as far as Port Said; their duty is to prevent communication, and to see to the execution of the measures prescribed for the passage of the Canal.

Art. 71.—All embarkation and disembarkation, and all transhipment of passengers or goods, are forbidden during the passage of the Canal from Suez to Port Said.

Provided always that travellers may embark at Port Said in quarantine.

Art. 72.—Ships passing through the Canal in quarantine must make the journey from Suez to Port Said without lying up.

In case of the vessel running aground, or being compelled to lie up, the necessary operations shall be carried out by the staff of the ship, all communication with the staff of the Suez Canal Company being avoided.

Art. 73.—Infected or suspected transports passing through the Canal in quarantine with troops must do so only by day. If they are compelled to pass the night in the Canal, they shall anchor in Lake Timsah or in the Great Lake.

Art. 74.—Ships that pass through the Canal in quarantine are forbidden to stop at Port Said except as provided for by the second paragraph of Article 71 and by Article 75. Revictualling must be effected by the means at the disposal of the ship. All stevedores and others who have gone on board shall be isolated on the quarantine barge, where their clothing shall be disinfected as prescribed by the regulations.

Art. 75.—When it is absolutely necessary for ships passing in quarantine to coal at Port Said, they must do so at a place to be fixed by the Sanitary

Board, where the necessary isolation and sanitary supervision can be secured. The coaling may be done by the labourers of the port in cases where effective supervision of this operation is possible, and when all contact with the crew can be avoided. At night, the coaling-place must be lighted by electricity.

Art. 76.—Pilots, electricians, agents of the Company, and sanitary guards shall be disembarked at Port Said outside the port, between the jetties, and shall be taken thence direct to the quarantine-barge, where their clothing shall be disinfected if necessary.

Art. 77.—As regards the passage of the Suez Canal, the following advantages shall be accorded to ships of war as hereinafter specified.

The quarantine authority shall accept them as healthy on their presenting a certificate signed by the ship-surgeons, countersigned by the captain, and stating on oath :—

(*a*) that there has not been, either at the time of departure or during the voyage, a case of plague or of cholera on board;

(*b*) that a careful examination of every one on board, without exception, has been made within 12 hours of arrival at the Egyptian port, and that no case of either of these diseases has been detected.

These ships shall not undergo medical inspection, and shall be given free pratique at once subject to their having completed five clear days since leaving the last infected port at which they called. Such of these ships as have not completed the requisite period may pass through the Canal in quarantine without medical inspection provided they produce the certificate above mentioned to the quarantine authority.

Notwithstanding the foregoing provisions, the quarantine authority shall have the right of medically inspecting, by its officers, ships of war in all instances in which it considers this procedure necessary.

Infected or suspected ships of war shall be subject to the regulations in force.

Only fighting-units shall be regarded as ships of war. Transports and hospital-ships shall be classed as ordinary ships.

Art. 78.—The Egyptian Maritime and Quarantine Board may arrange the conveyance, by rail, over Egyptian territory, of mails and ordinary passengers from infected countries in quarantine trains, under the conditions specified in Appendix No. 1.

SECTION VI.—*Measures in the Persian Gulf.*

Art. 79.—Ships shall undergo the health-visit at the Island of Ormuz sanitary station before they enter the Persian Gulf. They shall undergo the measures specified in Section III, Chapter II, Part I, that their health-conditions and the place whence they have come render applicable. Ships, however, that have to proceed up the Shatt-el-Arab shall be permitted, if the period of observation has not been completed, to continue their voyage, on condition that they traverse the Persian Gulf and the Shatt-el-Arab in quarantine. A chief guard and two sanitary guards, taken on board at Ormuz. shall keep the ship under supervision as far as Bassorah, where a second medical inspection shall be made and the necessary measures of disinfection carried out. Pending the organisation of the Ormuz sanitary station, the sanitary guards shall be taken on at the temporary station provided in accordance with paragraph 2 of Article 82 hereinafter, and these guards shall accompany ships proceeding in quarantine up the Shatt-el-Arab to the station provided in the neighbourhood of Bassorah.

Ships that have to call at Persian ports to disembark passengers or goods may do so at Bender-Bushire.

It is to be clearly understood that a ship which continues healthy after five days, reckoned from her date of departure from the last port infected by plague or cholera at which she has touched, shall be granted free pratique at Persian Gulf ports, provided she is ascertained to be healthy on arrival.

Art. 80.—In so far as the classification of ships and the measures they are to undergo are concerned, Articles 20 to 28 of this Convention apply in the Persian Gulf, subject to the three following modifications:—

(1) observation, for the same period, shall always be substituted for surveillance of passengers and crew;

(2) healthy ships cannot be granted free pratique unless they have completed five full days since leaving the last infected port at which they have touched;

(3) in the case of suspected ships the period of five days' observation of passengers and crew shall be reckoned from the time at which there ceased to be a case of plague or of cholera on board.

SECTION VII.—*Persian Gulf Sanitary Stations.*

Art. 81.—Sanitary stations must be provided, under the direction and at the expense of the Constantinople Board of Health, one at the Island of Ormuz, the other at a spot to be selected in the neighbourhood of Bassorah.

At the Ormuz sanitary station there shall be at least two doctors, sanitary officers, sanitary guards, and a complete plant for disinfection and for destruction of rats. A small hospital shall be erected.

At the station near Bassorah there shall be provided a large lazaret with a staff of several doctors, and buildings and plant for the disinfection of goods.

Art. 82.—The Constantinople Superior Board of Health, which has the control of the Bassorah sanitary station, shall have the same power as regards the Ormuz station.

Pending the construction of the Ormuz sanitary station, a sanitary post shall be provided there by the Constantinople Superior Board of Health.

CHAPTER II.

ARRIVALS BY LAND.

SECTION I.—*General provisions.*

Art. 83.—The measures taken in respect of arrivals by land from districts infected with plague or with cholera must be in conformity with the sanitary principles laid down in this Convention.

Modern methods of disinfection must be substituted for land quarantine. With this object, disinfecting chambers and other disinfecting plant shall be established at properly selected points on the roads frequented by travellers. The same methods shall be adopted on railways, whether now in existence or constructed hereafter. Merchandise shall be disinfected in accordance with the principles of this Convention.

Art. 84.—Every Government is at liberty, in case of need, to close a portion of its frontiers to passengers and merchandise in localities where there is difficulty in organising sanitary supervision.

SECTION II.—*Turkish land frontiers.*

Art. 85.—The Constantinople Superior Board of Health must organise without delay the sanitary stations of Hanikin and Kisil Dizié, near Bayazid, on the Turco-Persian and Turco-Russian frontiers.

PART III.

SPECIAL PROVISIONS REGARDING PILGRIMAGES.

CHAPTER I.

GENERAL PROVISIONS.

Art. 86.—The provisions of Articles 46 and 47, Part II, are applicable to persons and things that have to be taken on board a pilgrim-ship leaving a

port in the Indian Ocean or Oceania, even when the port is not infected with plague or with cholera.

Art. 87.—When there are cases of plague or of cholera in the port, embarkation on pilgrim-ships shall not take place until the persons, collected in groups, shall have been subjected to observation sufficient to ensure that none of them are suffering from plague or cholera. It is to be understood that, as regards the adoption of this measure, every Government may take local circumstances and possibilities into account.

Art. 88.—If local circumstances permit, pilgrims must prove that they possess the means absolutely necessary for the accomplishment of the pilgrimage, and, in particular, that they have a return-ticket.

Art. 89.—Only steamships shall be permitted to carry pilgrims on long voyages. The carriage of pilgrims by other ships on such voyages shall be prohibited.

Art. 90.—Pilgrim-ships that are coasters intended for short passages known as "coasting voyages" shall be subject to the provisions of the special regulations for the Hedjaz pilgrimage, which shall be published by the Constantinople Board of Health, in conformity with the principles laid down in this Convention.

Art. 91.—A ship which, in addition to ordinary passengers, among whom pilgrims of the upper classes may be included, carries pilgrims of the lowest class in less proportion than one pilgrim per 100 tons gross, shall not be considered a pilgrim-ship.

Art. 92.—Every pilgrim-ship, on entering the Red Sea or the Persian Gulf, must observe the provisions of the special regulations for the Hedjaz pilgrimage, which shall be published by the Constantinople Board of Health, in conformity with the principles laid down in this Convention.

Art. 93.—The captain must pay all sanitary imposts leviable on pilgrims. These imposts must be covered by the price of the ticket.

Art. 94.—As far as practicable, pilgrims who embark or disembark at sanitary stations must have no contact with one another at the landing places.

Ships that have disembarked their pilgrims must change their anchorage before commencing re-embarkation.

Pilgrims who have been disembarked must be distributed in camp in as small groups as possible. It is necessary that they be supplied with wholesome drinking-water, obtained either from local sources or by distillation.

Art. 95.—When there is plague or cholera in the Hedjaz, provisions brought by pilgrims shall be destroyed if the sanitary authority consider it necessary.

CHAPTER II.

PILGRIM SHIPS.—SANITARY STATIONS.

SECTION I.—*General conditions applying to ships.*

Art. 96.—The ship must be capable of accommodating the pilgrims in the between-decks.

Over and above the space required for the crew, the ship must provide for each person, irrespective of age, an area of 1·50 square metres, equivalent to 16 English square feet, and a height between decks of about 1·80 metres. In coasting vessels, each pilgrim must be allowed a space at least 2 metres wide along the gunwales.

Art. 97.—On each side of the ship, on deck, a place must be set apart, screened from view and furnished with a hand-pump, for the supply of sea-water for the needs of the pilgrims. One such place must be reserved exclusively for women.

Art. 98.—The ship must be provided, in addition to closets for the crew, with latrines, fitted with a flushing apparatus or with a water tap, in a minimum proportion of one latrine per hundred passengers. Some of these latrines shall be reserved exclusively for women.

There must be no closets between decks or in the hold.

Art. 99.—The ship must have two places for cooking set apart for the use of the pilgrims. Pilgrims shall be forbidden to light fires elsewhere, especially on deck.

Art. 100.—A properly fitted hospital, constructed with due attention to safety and health, must be reserved for the accommodation of the sick. It must be capable of accommodating, at the rate of three square metres per patient, not less than five per cent. of the pilgrims taken on board.

Art. 101.—The ship must be provided with the means of segregating persons showing symptoms of plague or of cholera.

Art. 102.—Every ship must carry such medical remedies, disinfectants, and things as are necessary for the treatment of the sick. The regulations framed for this class of ship by each Government must specify the nature and the quantity of these remedies.* Medicine and attendance shall be provided for the pilgrims free of charge.

Art. 103.—Every ship taking pilgrims must carry a duly qualified doctor, commissioned by the Government of the country to which the ship belongs or by the Government of the port where the pilgrims are embarked. A second doctor must be carried when the number of pilgrims on board exceeds 1,000.

Art. 104.—The captain must cause notices, in the languages chiefly spoken in the countries inhabited by the pilgrims he is taking, to be posted up on the ship in a conspicuous place, accessible to all concerned, showing:—

(1) the destination of the ship;
(2) the price of tickets;
(3) the daily ration of food and water allowed to each pilgrim;
(4) the price of articles, not included in the daily ration, which may be procured on extra payment.

Art. 105.—The heavy baggage of pilgrims shall be registered, numbered, and put in the hold. Pilgrims may keep with them only such things as are absolutely necessary. The nature, amount, and dimensions of these things shall be decided by regulations framed by each Government for its own ships.

Art. 106.—The provisions of Chapter I, of Sections I, II, and III of Chapter II, and of Chapter III, of Part III of this Convention shall be posted up, in the form of regulations, in the language of the country to which the ship belongs, and also in the languages chiefly spoken in the countries inhabited by the pilgrims to be embarked, in a conspicuous and accessible place on every deck and between-decks of every ship carrying pilgrims.

SECTION II.—*Measures before departure.*

Art. 107.—The captain or, in his default, the owner or agent of every pilgrim-ship must, not less than three days before departure, declare to the competent authority of the port of departure his intention to embark pilgrims. At ports of call, the captain or, in his default, the owner or agent of every pilgrim-ship must make the same declaration twelve hours before the departure of the ship. This declaration must specify the proposed date of departure and the destination of the ship.

Art. 108.—On receipt of the declaration provided for by the preceding article the competent authority shall proceed, at the expense of the captain, to inspect and measure the ship. The consular authority of the country to which the ship belongs may be present at this inspection. Inspection alone shall take place if the captain already has a certificate of measurement furnished

* It is to be desired that every ship be provided with the chief immunising agents (anti-plague serum, Haffkine's prophylactic, &c.).

by the competent authority of his country, unless it be suspected that the certificate no longer represents correctly the real condition of the ship.*

Art. 109.—The competent authority shall not permit the departure of a pilgrim-ship until satisfied :—

(a) that the ship has been thoroughly cleaned and, if necessary, disinfected;

(b) that the ship is in a condition to undertake the voyage without danger; that she is properly manned, equipped and ventilated, and provided with a sufficient number of boats; that there is on board nothing that is, or may become, injurious to the health or safety of the passengers, and that the deck is of wood or of iron sheathed in wood;

(c) that there is on board properly stowed away, over and above the rations for the crew, sufficient food and fuel of good quality for all the pilgrims, during the declared duration of the voyage;

(d) that the drinking-water is of good quality and from a source free from risk of contamination; that it is in sufficient quantity; that the tanks for drinking-water are safe from all contamination and so closed that the water can be supplied only by means of taps or pumps. The water-supply fittings known as "sucoirs" shall be absolutely prohibited;

(e) that the vessel carries a condenser, capable of distilling a minimum quantity of five litres of water per diem for every person on board, including crew;

(f) that the ship possesses a disinfecting chamber, ascertained by the sanitary authority of the port where the pilgrims embarked to be safe and efficacious;

(g) that, in accordance with Articles 102 and 103, the vessel carries a duly qualified doctor commissioned† either by the Government of the country to which she belongs or by the Government of the port where the pilgrims embark, and that she carries medical stores;

(h) that the deck is free from merchandise and all encumbrances;

(i) that the arrangements on board are such as to allow of the measures prescribed in the following Section III being carried out.

Art. 110.—The captain may not start without having in his possession :—

(1) a list, countersigned by the competent authority, showing the name, sex, and total number of pilgrims he is authorised to carry;

(2) a bill-of-health, giving the name, nationality, and tonnage of the ship, the name of the captain and of the doctor, the exact number of persons embarked—crew, pilgrims, and other passengers —the nature of the cargo and the place of departure.

The competent authority shall note on the bill-of-health whether the number of pilgrims permissible under the regulations has been embarked or not, and, in the latter case, the additional number of passengers the vessel is authorised to embark at subsequent ports of call.

SECTION III.—*Measures during the voyage.*

Art. 111.—During the voyage the deck must be kept free from encumbrances; it must be reserved, night and day, for the passengers, and placed at their disposal without charge.

* At present the competent authority is: in British India, an officer appointed for the purpose by the Local Government (Native Passengers' Ships Act, 1877, Article 7); in the Dutch Indies, the master of the port; in Turkey, the sanitary authority; in Austro-Hungary, the port authority; in Italy, the captain of the port; in France, Tunis, and Spain, the sanitary authority; in Egypt, the sanitary quarantine authority.

† Exception is made in the case of Government without commissioned doctors.

Art. 112.—The between-decks must be carefully cleansed and rubbed with dry sand, mixed with disinfectants, every day while the pilgrims are on deck.

Art. 113.—The latrines allotted to the passengers, as well as those for the crew, must be kept clean, and must be cleansed and disinfected three times a day.

Art. 114.—The excretions and dejecta of persons showing symptoms of plague or of cholera must be received in vessels containing a disinfecting solution. These vessels shall be emptied into the latrines, which must be thoroughly disinfected every time this is done.

Art. 115.—All bedding, carpets, and clothing that have been in contact with the sick persons referred to in the preceding Article must be immediately disinfected. The observance of this rule is specially enjoined in respect of the clothes of persons who have been near the sick, and which may have been contaminated. Such of the above-mentioned articles as are of no value must be either thrown overboard, if the ship is not in harbour or in a canal, or else burnt. Other articles must be carried to the disinfecting chamber in impermeable bags washed in a disinfecting solution.

Art. 116.—The quarters occupied by the sick, referred to in Article 100, must be thoroughly disinfected.

Art. 117.—It is compulsory on pilgrim-ships to undergo such measures of disinfection as are in accordance with the regulations on this subject that are, for the time being, in force in the country under whose flag they sail.

Art. 118.—Not less than five litres of drinking-water must each day be put at the disposal of every pilgrim, irrespective of age, free of charge.

Art. 119.—If there be any doubt as to the quality of the drinking-water or any reason to suspect that it may possibly have become contaminated, either at its source or during the voyage, it must be boiled or otherwise sterilised, and the captain shall be responsible for seeing that it is thrown overboard at the first port of call at which he can procure a purer supply.

Art. 120.—The doctor shall visit the pilgrims, tend the sick, and see that the principles of hygiene are observed on board.

He must in particular :—

(1) satisfy himself that the rations issued to the pilgrims are of good quality, that their quantity is in accordance with contract, and that they are properly prepared;

(2) satisfy himself that the provisions of Article 118, regarding the distribution of water, are observed;

(3) if there be any doubt as to the quality of the drinking-water, call the attention of the captain, in writing, to the provisions of Article 119;

(4) satisfy himself that the ship is always kept clean, and particularly that the latrines are cleansed in accordance with the provisions of Article 113;

(5) satisfy himself that the pilgrims' quarters are kept wholesome, and, in case of the occurrence of infectious disease, that disinfection is carried out in accordance with Articles 116 and 117;

(6) keep a diary of all occurrences related to health during the voyage, and submit this diary to the competent authority at the port of arrival.

Art. 121.—Only the persons charged with the care of plague or cholera patients shall have access to them, and these persons must not come in contact with the other persons that have been embarked.

Art. 122.—In the event of a death occurring during the voyage, the captain must enter the fact opposite the name of the deceased, on the list countersigned by the authority of the port of departure, and must also enter in the log the name of the deceased, his age, the place from which he came, the supposed cause of death according to the medical certificate, and the date of death.

In the event of a death fro minfectious disease, the corpse, wrapped in a shroud impregnated with a disinfecting solution, must be committed to the deep.

Art. 123.—The captain must see that all preventive measures taken during the voyage are entered in the log. The log shall be submitted by him to the competent authority at the port of arrival.

At each port of call the captain must cause the list drawn up in accordance with Article 110 to be countersigned by the competent authority.

In the event of a pilgrim disembarking during the voyage, the captain must note the fact on the list, opposite the pilgrim's name.

In the event of persons embarking, their names must be entered on the list in accordance with the foregoing Article 110. This must be done before the competent authority, as in duty bound, again countersigns the list.

Art. 124.—The bill-of-health given at the port of departure must not be changed during the voyage.

It shall be countersigned at each port of call by the sanitary authority, who shall enter :—

(1) the number of passengers disembarked or embarked at the port;

(2) anything that has happened at sea affecting the life or health of the persons embarked;

(3) the health-conditions of the port of call.

SECTION IV.—*Measures on arrival of pilgrims in the Red Sea.*

A.—*Sanitary control of ships from an infected port, going from the south to the Hedjaz with Mohammedan pilgrims.*

Art. 125.—Pilgrim-ships from the south, bound for the Hedjaz, must, in the first instance, put in at the Kamaran sanitary station, and shall be dealt with as provided by Articles 126—128.

Art. 126.—Ships found, on medical inspection, to be *healthy* shall be given free pratique on completion of the following procedure :—

The pilgrims shall be disembarked; they shall take a shower bath or bathe in the sea; their soiled linen and any portion of their personal effects or their baggage, open, in the opinion of the sanitary authority, to suspicion, shall be disinfected. The duration of these operations, including disembarkation and embarkation, must not exceed forty-eight hours.

If no recognised or suspected case of plague or of cholera be discovered during these operations, the pilgrims shall immediately be re-embarked and the ship shall proceed to the Hedjaz.

In the case of plague, the provisions of Articles 23 and 24 regarding rats shall apply in the event of there being any of these vermin on board.

Art. 127.—*Suspected* ships, which have had cases of plague or of cholera on board at the time of departure, but no fresh case of plague or of cholera within seven days, shall be dealt with as follows :—

The pilgrims shall be disembarked; they shall take a shower bath or bathe in the sea; their soiled linen and any portion of their personal effects or their baggage, open, in the opinion of the sanitary authority, to suspicion, shall be disinfected. In time of cholera, the bilge-water shall be pumped out. The parts of the ship occupied by the sick shall be disinfected. The duration of these operations, including disembarkation and embarkation, must not exceed forty-eight hours.

If no case or suspected case of plague or of cholera be discovered during these operations, the pilgrims shall immediately be re-embarked and the ship shall proceed to Jeddah, where a second medical inspection shall take place on board. If the result be favourable and if the ship's doctor certifies in writing and on oath that there has been no case of plague or of cholera during the passage the pilgrims shall be landed forthwith. If, however, one or more recognised or suspected cases of plague or of cholera prove to have occurred

during the voyage or on arrival, the ship shall be sent back to Kamaran where she shall again be dealt with as infected.

In the case of plague, the provisions of the third paragraph of Article 22 shall apply in the event of there being rats on board.

Art. 128.—*Infected* ships, that is to say, ships with cases of plague or of cholera on board, or that have had cases of plague or of cholera on board within seven days, shall be dealt with as follows :—

Persons suffering from plague or from cholera shall be disembarked and isolated in hospital. The other passengers shall be disembarked and isolated in as small groups as possible, in order that, if plague or cholera break out in one group, the whole party may not be affected.

The soiled linen, clothing, and personal effects of the crew and the passengers shall be disinfected, as also shall the ship. The disinfection shall be carried out thoroughly. Provided always that the local sanitary authority may decide that heavy baggage and merchandise need not be unloaded, and that only part of the ship need be disinfected.

The passengers shall remain at the Kamaran station seven or five days, according as to whether plague or cholera is in question. When no cases of plague or of cholera have occurred for several days the period of isolation may be shortened, and may vary according to the date of occurrence of the last case and the decision of the sanitary authority.

The ship shall then proceed to Jeddah, where everyone on board shall undergo a thorough medical examination. If the result be favourable the ship shall be given free pratique. If, however, recognised cases of plague or of cholera have occurred on board during the voyage or on arrival, the ship shall be sent back to Kamaran, where she shall again be dealt with as infected.

In the case of plague, the measures specified in Article 21 regarding rats shall be adopted in the event of there being any of these vermin on board.

1. *The Kamaran Station.*

Art. 129.—At the Kamaran station the following conditions must be fulfilled :—

Complete evacuation of the island by its inhabitants.

For the safety and convenience of shipping in the bay of Kamaran Island, provision of :—

(1) a sufficient number of buoys and beacons;

(2) a main pier or quay for the landing of passengers and baggage;

(3) a separate stage for the embarkation of the pilgrims in each encampment;

(4) a steam tug and sufficient barges for the disembarkation and embarkation of pilgrims.

Art. 130.—The disembarkation of pilgrims from infected ships shall be effected by the ship's own resources. If these be inadequate, the persons and the barges that assist in the disembarkation shall undergo the same measures as the pilgrims and the infected ship.

Art. 131.—The equipment of the sanitary station shall comprise the following :—

(1) a railway-system connecting the landing-places with the administrative buildings, the disinfecting stations, the various staff premises, and the encampments;

(2) administrative buildings and premises for the sanitary and other staff;

(3) buildings for the disinfection and washing of wearing apparel and other articles;

(4) buildings where the pilgrims are to have shower baths or sea baths while their clothes are being disinfected;

(5) separate and completely isolated hospitals for both sexes :—
(a) for the observation of suspected persons,
(b) for plague patients,
(c) for cholera patients,
(d) for patients suffering from other contagious diseases,
(e) for ordinary patients;

(6) encampments completely separated from each other, the distance between them to be as great as possible; pilgrims' quarters constructed on the most approved sanitary principles, and not to contain more than 25 persons each;

(7) a well situated cemetery, distant from all dwellings, free from sub-soil water, and drained to the depth of half-a-metre below the level of the graves;

(8) steam disinfectors in sufficient number, and fulfilling all the conditions of safety, efficacy, and rapidity; apparatus for destroying rats;

(9) spray-producers, disinfecting chambers, and the necessary appliances for chemical disinfection;

(10) water-distilling machines; apparatus for the sterilisation of water by heat; ice machines. A system of pipes and covered reservoirs, impervious, and from which water can be taken only by means of taps or pumps, for the distribution of drinking-water;

(11) a bacteriological laboratory with the necessary staff;

(12) provision of portable receptacles for the reception of fœcal matters after disinfection, and a system of disposal of these matters on one of the parts of the island farthest from the encampments, due regard being had to the conditions necessary for the proper working, from a sanitary point of view, of the land used for this purpose;

(13) a system of removal of slop and waste waters from the encampments, which shall prevent their stagnation or use for drinking purposes. The slop and waste waters of the hospitals must be disinfected.

Art. 132.—The sanitary authority shall provide, in each encampment, a store for food and a store for fuel.

The tariff of prices fixed by the competent authority shall be posted up in several places in the encampment, in the languages commonly spoken in the countries inhabited by the pilgrims.

The doctor of the encampment shall be responsible for the daily control of the quality and quantity of the provisions.

Water shall be provided free of charge.

2. *The stations at Abu-Ali, Abu-Said, Jeddah, Vasta, and Yambo.*

Art. 133.—At the sanitary stations of Abu-Ali, Abu-Said, Vasta, as well as those of Jeddah and Yambo, the following conditions must be fulfilled :—

(1) the construction of four hospitals at Abu-Ali, two for cases of plague, male and female, two for cases of cholera, male and female;

(2) the construction of a hospital for ordinary cases, at Vasta;

(3) the provision, at Abu-Said and at Vasta, of stone buildings capable of accommodating fifty persons each;

(4) the provision of three disinfecting chambers at Abu-Ali, Abu-Said, and Vasta, with laundries, accessories, and apparatus for destroying rats;

(5) the provision of shower baths at Abu-Said and Vasta;

(6) on each of the islands of Abu-Said and Vasta, provision of distilling machines capable together of yielding 15 tons of water per day;

(7) the disposal of fœcal matters and slop and waste waters on the lines accepted in the case of Kamaran;

(8) the provision of a cemetery on one of the islands;

(9) the provision, at Jeddah and Yamboo, of the buildings and plant for sanitary purposes referred to in Article 150, particularly disinfecting chambers, and other means of securing disinfection for the pilgrims returning from the Hedjaz.

Art. 134.—The rules laid down regarding food and water at Kamaran shall apply to the encampments of Abu-Ali, Abu-Said, and Vasta.

B.—*Sanitary control of ships from the north going to the Hedjaz with Mohammedan pilgrims.*

Art. 135.—If it be not established that there is plague or cholera at the port of departure or in its neighbourhood, and if no case of plague or of cholera has occurred during the voyage, the ship shall be granted free pratique forthwith.

Art. 136.—If it be established that there is plague or cholera at the port of departure on in its neighbourhood, or if a case of plague or of cholera has occurred during the voyage, the ship shall be dealt with, at El-Tor, in the manner prescribed for ships coming from the south and stopping at Kamaran. The ships shall thereafter be granted free pratique.

SECTION V.—*Measures for pilgrims returning home.*

A.—*Homeward bound pilgrim ships, going north.*

Art. 137.—Every ship from a port in the Hedjaz or from any other port on the Arabian coast of the Red Sea, carrying pilgrims or any like collection of persons and bound for Suez or a Mediterranean port, must proceed to El-Tor, there to undergo the observation and the sanitary measures specified in Articles 141-143.

Art. 138.—Ships bringing back Mohammedan pilgrims to the Mediterranean shall not pass through the Canal save in quarantine.

Art. 139.—Agents of shipping lines and captains of ships are warned that, on completion of their period of observation at El-Tor sanitary station, only Egyptian pilgrims will be permitted to leave the ship definitively, in order to return to their homes. Only pilgrims with a certificate of residence, issued by an Egyptian authority and made out in the form prescribed, shall be recognised as Egyptians or inhabitants of Egypt. Specimens of this certificate shall be deposited with the consular and sanitary authorities at Jeddah and Yambo, where they may be seen by shipping agents and ship captains.

Non-Egyptian pilgrims, such as Turks, Russians, Persians, Tunisians, Algerians, inhabitants of Morocco, &c., may not, after leaving El-Tor, be disembarked at an Egyptian port. Agents of shipping lines and ship captains are therefore warned that the transhipment of non-Egyptian pilgrims at Tor, Suez, Port Said, or Alexandria, is prohibited.

Vessels carrying pilgrims belonging to the nationalities mentioned in the preceding paragraph shall be treated according to the rules for such pilgrims, and shall not be permitted to enter any Egyptian port in the Mediterranean.

Art. 140.—Egyptian pilgrims shall undergo at El-Tor, Suakim, or any other station appointed by the Egyptian Sanitary Board, observation for a period of three days and medical inspection, before being given free pratique.

Art. 141.—If it be established that there is plague or cholera in the Hedjaz or at the port whence the ship has come, or that either of these diseases has occurred in the Hedjaz during the pilgrimage, the ship shall be dealt with, at El-Tor, in the manner prescribed for infected ships at Kamaran.

Persons suffering from plague or cholera shall be landed and isolated in hospital. The other passengers shall be landed and isolated in as small

groups as possible in order that, if plague or cholera break out in one group, the whole party may not be affected.

The soiled linen, clothing, and personal effects of the crew and the passengers, and such baggage and merchandise as are suspected of being infected, shall be landed for purposes of disinfection. These articles, and also the ship, shall be thoroughly disinfected. Provided always that the local sanitary authority may decide that heavy baggage and merchandise need not be unloaded and that only part of the ship need be disinfected.

The provisions of Articles 21 and 24 regarding rats shall apply in the event of there being any of these vermin on board.

Whether it be plague or cholera that is in question, all the pilgrims shall be kept under observation for seven clear days, reckoned from the day on which the measures of disinfection were completed. If a case of plague or of cholera occur in a section, the period of seven days for that section shall be reckoned from the day on which the last case occurred.

Art. 142.—In the circumstances provided for by the foregoing Article, Egyptian pilgrims shall, in addition, be kept under observation for a further period of three days.

Art. 143.—If it be not established that there is plague or cholera in the Hedjaz or at the port whence the ship has come, or that either of these diseases has occurred in the Hedjaz during the pilgrimage, the ship shall be dealt with, at El-Tor, in the manner prescribed for healthy ships at Kamaran.

The pilgrims shall be landed; they shall take a shower bath or bathe in the sea; their soiled linen and any portion of their personal effects or their baggage, open, in the opinion of the sanitary authority, to suspicion, shall be disinfected. The duration of these operations, including disembarkation and embarkation, must not exceed 72 hours.

Provided always that a pilgrim-ship, belonging to a country that has given its adhesion to the provisions of this Convention and of previous Conventions, if she has had no case of plague or of cholera during the voyage from Jeddah to Yambo and El-Tor, and if it be established by medical examination, conducted at El-Tor after disembarkation, of every one on board, that she has no such case, may be permitted by the Egyptian Sanitary Board to pass through the Suez Canal in quarantine, even by night, subject to the fulfilment of the four following conditions:—

(1) that, in order to secure medical attendance of persons on board, the ship carries one or more doctors, commissioned by the Government of the country to which she belongs;

(2) that the ship is provided with disinfecting chambers, and it is established that the soiled linen has been disinfected during the voyage;

(3) that it is proved that the number of pilgrims is not in excess of that permitted by the pilgrimage regulations;

(4) that the captain undertakes to sail direct to a port in the country to which the ship belongs.

The medical examination, after disembarkation at El-Tor, must be made with as little delay as possible.

The sanitary tax, payable to the quarantine Administration, shall be the same as the pilgrims would have had to pay if they had remained in quarantine for three days.

Art. 144.—In the event of a suspicious case occurring on board during the voyage from El-Tor to Suez, the ship shall be sent back to El-Tor.

Art. 145.—Transhipment of pilgrims at Egyptian ports is strictly prohibited.

Art. 146.—Ships from the Hedjaz, carrying pilgrims bound for the African coast of the Red Sea, shall be permitted to proceed direct to Suakim or such other place as the Alexandria Sanitary Board shall appoint, there to undergo the same quarantine measures as those at El-Tor.

Art. 147.—Ships from the Hedjaz, or from a port on the Arabian coast of the Red Sea, with a clean bill-of-health, not carrying pilgrims or like collections of persons, and without suspicious incident during the voyage, shall, on favourable medical inspection, be given free pratique at Suez.

Art. 148.—When it is established that there is plague or cholera in the Hedjaz :—

(1) caravans of Egyptian pilgrims must, before proceeding to Egypt, undergo strict quarantine at El-Tor for seven days, whether it be plague or cholera that is in question; they must thereafter be kept under observation at El-Tor for three days, after which they shall not be granted free pratique until after favourable medical inspection and disinfection of effects;

(2) caravans of pilgrims from other countries, returning home by land, shall undergo the same measures as Egyptian caravans, and must be accompanied by sanitary guards to the borders of the desert.

Art. 149.—When plague or cholera has not been reported to have occurred in the Hedjaz, caravans of pilgrims coming from the Hedjaz by way of Akaba or Moila shall, on their arrival at the Canal or at Nakhel, undergo medical inspection and disinfection of soiled linen and personal effects.

B.—*Homeward bound pilgrims, going south.*

Art. 150.—The ports of embarkation in the Hedjaz shall be provided with buildings and plant for sanitary purposes sufficient to permit, in the case of pilgrims homeward bound to the south, the taking of the measures, rendered compulsory by the provisions of Articles 46 and 47, on the departure of these pilgrims from ports beyond the Strait of Bab-el-Mandeb. These measures shall be optional; that is to say, they shall not be carried out unless the consular authority of the country to which the pilgrims belong, or the doctor of the ship by which they propose to go, considers them necessary.

CHAPTER III.

PENALTIES.

Art. 151.—Any captain convicted of a breach of his contract for the supply of water, food, or fuel, shall be liable to a fine of 2 pounds Turkish.* This fine shall be paid to the pilgrim who has suffered from the breach of contract on proof that he demanded its fulfilment without effect.

Art. 152.—Any infringement of Article 104 shall be punished by a fine of 30 pounds Turkish.

Art. 153.—Any captain, who commits, or knowingly allows to be committed, any fraud with respect to the list of pilgrims, or of the bill-of-health provided for by Article 110, shall be liable to a fine of 50 pounds Turkish.

Art. 154.—Any ship-captain arriving without a bill-of-health from the port of departure, or without its having been countersigned at the ports of call, or unprovided with the prescribed list, duly kept in accordance with Articles 110, 123, and 124, shall be liable, in each instance, to a fine of 12 pounds Turkish.

Art. 155.—Any captain convicted of having or of having had on board more than 100 pilgrims, without a commissioned doctor, in accordance with the provisions of Article 103, shall be liable to a fine of 300 pounds Turkish.

Art. 156.—Any captain convicted of having or of having had on board more pilgrims than he is permitted, by the provisions of Article 110, to carry, shall be liable to a fine of five pounds Turkish for each pilgrim in excess of the proper number.

The pilgrims in excess of the proper number shall be disembarked at the first station where there is a competent authority, and the captain is bound

* A Turkish pound is of the value of $22\frac{1}{2}$ francs.

to provide the pilgrims so disembarked with sufficient money to enable them to reach their destination.

Art. 157.—Any captain convicted of having disembarked pilgrims at a place other than their destination, unless with their consent, or from unavoidable cause, shall be liable to a fine of 20 pounds Turkish for each pilgrim wrongfully disembarked.

Art. 158.—Any other infringement of the provisions relating to pilgrim-ships shall be punished by a fine of from 10 to 100 pounds Turkish.

Art. 159.—Any known infringement during the voyage shall be entered in the bill-of-health, and in the list of pilgrims. The competent authority shall prepare a statement of the case and submit it in the proper quarter.

Art. 160.—In Turkish ports, infringements of the provisions relating to pilgrim ships shall be tried before, and the fine imposed by, the competent authority, in accordance with the provisions of Articles 173 and 174.

Art. 161.—All agents required to assist in carrying out the provisions of this Convention regarding pilgrim ships shall be liable to punishment, agreeably to the laws of their respective countries, for any failure on their part in carrying out the aforesaid provisions.

PART IV.

ADMINISTRATION AND CONTROL.

I.—*The Egyptian Sanitary, Maritime, and Quarantine Board.*

Art. 162.—The provisions of Appendix III of the Venice Sanitary Convention of January 30th, 1892, regarding the composition, the functions, and the manner of discharge of the functions of the Egyptian Sanitary, Maritime and Quarantine Board, as provided by the Decrees of His Highness the Khedive under the dates of June 19th, 1893, and December 25th, 1894, and also by the Ministerial Order of June 19th, 1894, are confirmed.

The said Decrees and Order are appended to this Convention.

Art. 163.—The ordinary expenses arising out of the provisions of this Convention, and in particular those due to increase of the staff employed by the Egyptian Sanitary, Maritime, and Quarantine Board, shall be defrayed by an additional yearly contribution by the Egyptian Government of a sum of four thousand pounds Egyptian, which may be paid out of the surplus of the light-house dues remaining at the disposal of that Government. Provided always that from this sum shall be deducted the amount produced by an additional quarantine charge of 10 P. T. (piastre tariff) on each pilgrim, to be levied at El-Tor.

In the event of the Egyptian Government finding difficulty in bearing this proportion of the expenses, it would be for the Powers represented on the Sanitary Board to approach the Khedivial Government with a view to securing part of these expenses being borne by the latter.

Art. 164.—It devolves upon the Egyptian Sanitary, Maritime, and Quarantine Board to bring into harmony with the provisions of this Convention the regulations it now applies to plague, cholera, and yellow fever, and also the regulations regarding arrivals from Arabian ports in the Red Sea during the pilgrimage season. If necessary, it shall revise, to the same end, the general sanitary, maritime, and quarantine police regulations now in force.

To become effective, these regulations must be approved by the several Powers represented on the Board.

II.—*The Constantinople Superior Board of Health.*

Art. 165.—The framing of the measures to be taken with a view to preventing the introduction into the Turkish Empire and the transmission to

other countries, of epidemic disease, devolves upon the Constantinople Superior Board of Health.

Art. 166.—The number of Turkish delegates on the Superior Board of Health, having the right to vote, shall be four, namely :—

the President of the Board, or, in his absence, the Acting President of the meeting. They shall have a casting vote only;

the Inspector-General of the sanitary service;

the Assistant-Inspector;

the delegate acting as intermediary between the Board and the Sublime Porte, known as *Mouhassébedgi.*

Art. 167.—The appointment of the Inspector-General, the Assistant-Inspector, and the Delegate before-mentioned, nominated by the Board shall be ratified by the Turkish Government.

Art. 168.—The High Contracting Parties recognise the right of Roumania as a maritime Power, to representation by a delegate on the Board.

Art. 169.—The delegates of the several States must be duly qualified doctors, holding the diploma of a European faculty of medicine, and belonging to the nation they represent, or consular officials of rank not lower than Vice-Consul or of equivalent rank. The delegates must be in no way connected with the local authority or with a shipping company.

These provisions shall not apply to the delegates now in office.

Art. 170.—The decisions of the Superior Board of Health, carried by a majority of its members, shall come into force, without appeal.

The Governments signing this Convention agree that their representatives at Constantinople shall be instructed to inform the Turkish Government of this Convention and to approach that Government with a view to securing its accession thereto.

Art. 171.—The enforcement and the control of the provisions of this Convention regarding the pilgrimages and of measures against the introduction and the spread of plague and of cholera, shall be entrusted, within the scope of the Constantinople Superior Board of Health's jurisdiction, to a Committee selected from among members of that Board exclusively, and composed of representatives of the several Powers adhering to this Convention. The representatives of Turkey on this Committee shall be three in number; one of them shall be the President of the Committee. When the votes are equally divided, the President shall have a casting vote.

Art. 172.—There shall be a staff of qualified doctors, well-trained disinfecters and mechanics, and also sanitary guards selected from persons who have been officers or non-commissioned officers of higher than corporal's rank in the military service, whose duty it shall be to secure, within the jurisdiction of the Constantinople Superior Board of Health, the proper working of the several sanitary establishments enumerated in and prescribed by this Convention.

Art. 173.—The sanitary authority of a Turkish port of call or of arrival which has convicted anyone of an infringement of the regulations, shall prepare a statement of the case, to which the captain is entitled to add comments in writing. A certified copy of this statement shall be sent, at the port of call or of arrival, to the consular authority of the country under whose flag the ship sails. The amount of the fine imposed shall be deposited with the consular authority or, if there be no consul, with the sanitary authority. The fine shall not be definitively handed over to the Constantinople Superior Board of Health until the consular Commission, described in the Article next following, shall have given judgment as to whether such fine be valid.

Another certified copy of the statement must be forwarded by the convicting sanitary authority to the President of the Constantinople Board of Health, who shall bring the document to the notice of the consular Commission.

The nature of the infringement and the deposit of the fine shall be noted upon the bill-of-health by the sanitary or the consular authority.

Art. 174.—A consular Commission shall be established at Constantinople to decide between contradictory statements made by sanitary agents and incriminated captains. It shall be appointed yearly by the consular authorities. The Sanitary Administration may be represented by a person discharging the duties of public prosecutor. The consul of the country concerned shall always be invited to attend; he shall be entitled to vote.

Art. 175.—The cost of providing, within the jurisdiction of the Constantinople Superior Board of Health, the sanitary posts, both permanent and temporary, prescribed by this Convention, shall be, in so far as construction of buildings is concerned, debited to the Turkish Government. The Constantinople Superior Board of Health is authorised, if necessary and in case of emergency, to advance from the reserve fund the necessary money, which shall, upon demand, be furnished by the "Mixed Commission entrusted with the revision of sanitary charges." In this event, the Board must see to the construction of these establishments.

The Constantinople Superior Board of Health must organise, without delay, the sanitary stations of Hanikin and Kizil-Dizié, near Bayazid, on the Turko-Persian and Turko-Russian frontiers, out of the moneys now placed at its disposal.

The other expenses arising, within the jurisdiction of the said Board, from the measures prescribed by this Convention, shall be mutually borne by the Turkish Government and the Constantinople Superior Board of Health, as agreed upon by the Government and the Powers represented on the Board.

III.—*The Tangier International Board of Health.*

Art. 176.—In the interests of the public health, the High Contracting Parties agree that their representatives in Morocco shall again direct the attention of the Tangier International Board of Health to the necessity of carrying out the provisions of the sanitary Conventions.

IV.—*Miscellaneous provisions.*

Art. 177.—Each Government shall decide as to the means it shall employ to secure disinfection and the destruction of rats.*

---

* The following methods of disinfection are given by way of guide:—

Wearing-apparel, old rags, infected dressings, papers and other articles of no value should be burnt.

Personal effects, bedding, mattresses infected with plague can be efficiently disinfected either by means of a high-pressure steam disinfecting chamber or a current-steam disinfecting chamber at a temperature of 100° Centigrade, or by exposure to formol vapours.

Articles, such as coverlets and bed-linen, that can be steeped in antiseptic solutions without damage, can be disinfected by 1 per 1,000 solutions of perchloride of mercury, 3 per 100 solutions of carbolic acid, 3 per 100 solutions of lysol or commercial cresyl, 1 per 100 solutions of formol (one part of the commercial solution of formaldehyde at 40 per 100), or 1 per 100 solutions of the alkaline hypochlorites (sodium or potassium), that is to say, 1 part of the ordinary solution of commercial hypochlorite. The period of contact must obviously be long enough to allow dried germs to be well penetrated by the antiseptic solution: four to six hours will suffice.

To secure destruction of rats, three processes are now made use of:—

(1) Sulphurous acid mixed with a small quantity of sulphuric anhydride, driven under pressure into holds and mixed with the air. This destroys rats and insects and will, it is stated, destroy the plague-bacillus also if the proportion of sulphuro-sulphuric anhydride be sufficiently great.

(2) An incombustible mixture of carbon monoxide and carbon dioxide, passed into holds.

(3) Carbonic acid so employed as to constitute 30 per cent. of the air in the ship.

The last two methods kill rodents but it is not claimed that they destroy insects or the plague-bacillus.

The Technical Commission of the Paris (1903) Sanitary Conference specified the three following processes—a mixture of sulphuro-sulphuric anhydrides, a mixture of carbonic oxide and carbonic acid, and carbonic acid,—as being among those to which Governments might resort, and expressed the opinion that the sanitary authority should, in every instance where it did not itself do the work, superintend its performance and make sure that the rats had been killed.

Art. 178.—The sums realised by sanitary charges and fines may not, in any instance whatever, be used for any purposes other than those under the control of the Boards of Health.

Art. 179.—The High Contracting Parties undertake that their Public Health Departments shall frame a set of instructions intended to enable ship captains, particularly when there is no doctor on board, to carry out the provisions of this Convention regarding plague and cholera, and also to carry out the regulations regarding yellow fever.

V.—*The Persian Gulf.*

Art. 180.—The cost of construction and upkeep of the sanitary station to be provided, in accordance with Article 81 of this Convention, on the Island of Ormuz, shall be debited to the Constantinople Superior Board of Health. The said Board's Mixed Commission of revision shall meet at the earliest date possible in order to furnish, on the Board's request, the necessary moneys to be derived from the available reserve funds.

VI.—*International Health Office.*

Art. 181.—The Conference having taken note of the resolutions, hereto appended, passed by its Commission of Ways and Means regarding the creation of an International Health Office in Paris, the French Government shall, at such time as it may think fit, submit, by diplomatic channels, proposals on this subject to the States represented at the Conference.

PART V.

YELLOW FEVER.

Art. 182.—The countries concerned are recommended to modify their sanitary regulations in such fashion as to bring them into harmony with the present scientific data as to the manner in which yellow fever is transmitted and, in particular, as to the part played by mosquitoes in carrying the germs of the disease.

PART VI.

ADHESION AND RATIFICATION.

Art. 183.—The Governments that have not signed this Convention are allowed to become parties thereto at their request. Such adhesion shall be notified, by diplomatic channels, to the Government of the French Republic, and by that Government to the other Governments that have signed the Convention.

Art. 184.—This Convention shall be ratified, and the ratifications thereof shall be deposited at Paris as soon as may be practicable.

It shall be put in force as soon as it shall have been made public in such manner as is in accordance with the laws of the States that sign it. As regards the relations between the Powers that ratify or become parties to it, it shall replace the International Sanitary Conventions signed on January 30th, 1892, April 15th, 1893, April 3rd, 1894, and March 19th, 1897.

The previous Conventions, above cited, shall continue in force in the case of Powers which, having signed or become parties to them, do not ratify or become parties to this Convention.

APPENDIX I. (*See Art.* 78.)

REGULATIONS

REGARDING THE CONVEYANCE OF PASSENGERS AND MAILS FROM INFECTED COUNTRIES THROUGH EGYPT BY QUARANTINE TRAIN.

Art. 1.—The Egyptian Railway Executive that wishes to run a quarantine train in connection with ships arriving from infected ports, must give notice thereof to the local quarantine authority not less than two hours before the time of departure of such train.

Art. 2.—The passengers shall land at a place appointed by the quarantine authority with the consent of the Railway Executive and the Egyptian Government, and shall proceed, without any communication, direct from the ship to the train, under the supervision of a transit-officer and of two or more sanitary guards.

Art. 3.—The passengers' personal belongings, baggage, &c., shall be conveyed in quarantine, by the means at the disposal of the ship.

Art. 4.—In so far as quarantine measures are concerned, the railway staff shall obey the orders of the transit-officer.

Art. 5.—The carriages employed in this service shall be corridor-carriages. In each carriage there shall be a sanitary guard, whose duty it shall be to keep watch over the passengers. The railway staff shall not hold any communication with the passengers.

A doctor on the quarantine staff shall go with the train.

Art. 6.—The passengers' heavy baggage shall be put in a special van which the transit-officer shall seal before the train starts. Upon arrival, the seals shall be removed by the transit-officer.

Transference of passengers to another train or taking passengers during the journey is prohibited.

Art. 7.—The closets shall be furnished with pails, containing a certain amount of antiseptic, for the reception of the passengers' dejecta.

Art. 8.—No one, except the staff absolutely necessary, shall be allowed on railway-platforms at which the train may have to stop.

Art. 9.—Every train may have a restaurant-car. The remnants of meals shall be destroyed. The staff of the restaurant-car and such other railway servants as have come in contact, from any cause, with passengers, shall undergo the same measures as the pilots and electricians at Port Said or Suez, or such measures as the Board may consider necessary.

Art. 10.—Passengers are absolutely prohibited from throwing anything whatever out of the windows, doors, etc.

Art. 11.—In every train a hospital-compartment shall be kept empty so as to secure isolation of the sick therein, should such contingency arise. This compartment shall be fitted up in accordance with the directions of the quarantine Board.

If plague or cholera appear among the passengers, the sick person shall immediately be isolated in the special compartment, and shall, on the arrival of the train, be removed forthwith to the quarantine lazaret. The other passengers shall proceed on their journey in quarantine.

Art. 12.—If a case of plague or of cholera occur during the journey the train will be disinfected by the quarantine authority.

In all instances the vans carrying baggage and mails shall be disinfected immediately after the arrival of the train.

Art. 13.—The transference of passengers, baggage, &c., from train to ship shall be effected in the same way as on arrival. The ship that takes the passengers shall immediately be put in quarantine and any incident that may have occurred during the journey shall be noted on the bill-of-health, with specific mention of any persons that may have been in contact with the sick.

Art. 14.—The expenses incurred by the quarantine administrative body shall be debited to whoever requisitioned the quarantine train.

Art. 15.—The President of the Board, or his substitute, shall have the right to exercise supervision over the train during the whole of its journey. The President may, moreover, entrust the duty of such supervision to a high official (above and beyond the transit officer and the sanitary guards). This official shall have access to the train on his showing an order signed by the President.

APPENDIX II. (*See Art. 162.*)

[*This Appendix, consisting of the Khedivial Decrees of 19th June 1893, and 25th December 1894, and of the Ministerial Order of 19th June 1893, is not here reproduced.*]

APPENDIX III. (*See Art.* 181.)

RESOLUTIONS.

PASSED BY THE COMMISSION OF WAYS AND MEANS OF THE SANITARY CONFERENCE OF PARIS REGARDING AN INTERNATIONAL HEALTH OFFICE.

I.—An International Health Office shall be established on the lines followed in the institution and conduct of the International Office of Weights and Measures. It shall have its seat in Paris.

II.—The International Office shall fulfil the function of collecting information as to the progress of infectious diseases. To this end it shall receive information given to it by the chief Health Authorities of the States that are parties to it.

III.—The Office shall periodically set out the results of these labours in official reports which shall be communicated to the contracting Governments. These reports must be made public.

IV.—The Office shall be supported by contributions from the contracting Governments.

V.—The Government, in whose country the International Office is to be established, shall be charged with the submission, within three months of the signing of the proceedings of the Conference, for the approval of the contracting States, of Regulations for the institution and conduct of that Office.

NOTE.—(1) In English and Vernacular Offices when there are no arrears of work the last Saturday in every month may be observed as a holiday.

(2) The last day of every month will be observed as a holiday in the Treasury Office, Ajmer, instead of the last Saturday.

(3) Mahomedan holidays depend on the moon being visible and fall on the day following such event.

(4) With regard to Hindu holidays on account of eclipses of the sun and the moon, those for the former are granted for the day on which the eclipse occurs and those for the latter for the day following.

In 1909 there will be one lunar eclipse on 3rd June and the holiday will be observed on Friday, the 4th June.

(5) Local holidays may be granted for great festivals or fairs at the discretion of the Commissioner when there are no arrears of work.

(6) The Civil Court vacations commence on the 1st August 1909 and end on 30th September 1909. No fresh suits shall during that time be instituted unless they be of an urgent character, but the Court will be open for the purpose of clearing up cases instituted before the 15th July and for the disposal of any urgent work.

(7) The day which may be fixed for the celebration of the King-Emperor's Birthday will be notified separately in due course.

The 18th January 1909.

No. 79—390-*II*.—Mr. Nand Lal, Assistant Surgeon attached to the Victoria Hospital at Ajmer, is granted privilege leave for three months with effect from the 1st February 1909, or the subsequent date on which he may be allowed to avail himself of the leave.

MOUNT ABU HIGH SCHOOL.

This European High School, for boys only, has recently been entirely reorganized, and placed under direct Government control. There is a competent staff of both Masters and Lady Teachers, with a Medical attendant, an experienced Matron and a Sergeant.

The School works by the Revised Code of Regulations for European Schools, prescribed by the Government of Bombay, and prepares boys for the High School Examination, the Matriculation Examination of the University of Bombay, and for the Bombay School of Art. The fees are very moderate, and there are several scholarships open to competition.

SUCCESSES FOR 1908.

Two passed Matriculation—University of Bombay. Seven passed First Grade Drawing examination of the School of Art.

The School further offers all the advantages of a healthy climate, in a fine situation; besides two large play-grounds for cricket, football and hockey, it has both natural Swimming Bath and Rifle Range on its own estate.

An excellent Tonga service makes it accessible from Abu Road Station (B., B. and C. I. Railway) in about three hours. A Motor service has also been recently started.

For particulars, apply to Revd. P. S. Grove, Honorary Secretary, Government Board of Control, Mount Abu, Rajputana.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8hrs. on Thursday, the 21st January 1909, based on the Indian Daily Weather Reports of the period.

Skies were cloudy and weather feebly unsettled over the whole of northern India during the past week but as these disturbed conditions were not connected with any definite depression, the resulting precipitation was light and sporadic in character. Scattered falls of rain, most of them less than a tenth of an inch in amount, were recorded in he northern half of north-east India, the United Provinces, the Punjab, the North-West Frontier Province, west Rajputana and lower Sind. In Baluchistan, Kashmir and the extreme north of the Brahmaputra valley, however, snowfall or rainfall was of almost daily occurrence and was possibly associated with disturbances outside the Indian region. The week was practically rainless in Burma and the Peninsula.

Burma.—Myitkyina is the only station that had rain. Skies were clear or lightly clouded and temperature was normal.

North-east India including Orissa.—Rain was reported from Dibrugarh on the 15th, 16th, 19th, 20th and 21st and from Gaya on the 21st. Skies were heavily overcast in the upper Brahmaputra valley and lightly clouded elsewhere. Temperature was normal or in excess.

The United Provinces, Central India and the Central Provinces.—On the 17th light precipitation was recorded at several stations, but amounts of over a tenth of an inch were registered only at Bahraich, Mainpuri and Chakrata. Skies were clouded especially in the United Provinces and the east of Central India, and temperature was normal or in excess, the excess being shown chiefly in the area of heaviest cloud.

North-west India.—Precipitation occurred on most days of the week in Baluchistan and Kashmir, on the 17th in the east Punjab hills and on the 19th in lower Sind. There was more or less cloud throughout the division. The most important feature in temperature conditions was a persistent excess in the minimum in east Rajputana.

The Peninsula.—Trivandrum and Tinnevelly had light falls of rain. Skies were clear or lightly clouded and temperature was approximately normal.

The only large amounts of precipitation that occurred during the week were 1·85" at Sonemarg and 1·50" at Dras, both being reported on the 17th.

The seasonal rainfall in Baluchistan is now slightly above the normal, while the large defect formerly shown in Assam and Sind has been reduced. No other change of importance has been effected by the past week's rainfall.

DEPARTMENT OF REVENUE AND AGRICULTURE.

Season and Crop Prospects for the week ending Saturday, 16th January 1909.

Burma.—Mergui received 1 inch of rain. Reaping of the winter rice crop is nearly completed and threshing and winnowing are progressing. In Upper Burma ground-nuts, cotton and sesamum are being harvested and the cultivation of spring rice and miscellaneous spring crops is going on. The condition of standing crops and the prospects of the harvest are good. The price of unhusked rice has risen in five and has fallen in six districts.

Eastern Bengal and Assam.—Practically no rain fell in Eastern Bengal but light showers were received in parts of Assam. Reaping of rape crops is going on and gathering of pulses continues. Harvesting of sugarcane is over. All these crops have suffered from want of rain. Plucking of cotton is in progress. Harvesting of winter rice is practically finished. Transplantation of summer rice is going on. Pruning of, and deep hoeing for, tea continue. Tobacco promises a fair outturn. The number of persons on test relief works is 3,181 in Dinajpur, 237 in Bogra and about 175 on an average daily in Rangpur. The average price of common rice has fallen by about 1 per cent. Cattle disease prevails in Backarganj, Rajshahi, Dinajpur and Darrang.

Bengal.—Some light showers fell in North Bihar and in Shahabad and Darjeeling. More rain is urgently wanted for the standing spring crops. Pulses and early oilseeds are being harvested in Nadia, Jessore, Purnea and Cuttack. Sugarcane pressing is going on in Bihar, Orissa and Chota Nagpur. The harvesting of the winter rice crop has nearly been completed, and its threshing continues. Lands are being prepared for planting of sugarcane in Gaya, Saran, Sambalpur and Palamau, and *Dalua* paddy is being trans planted in Orissa. The prospects of spring crops are not favourable in North Bihar and in parts of Murshidabad, Khulna and the Sonthal Parganas owing to drought. The poorer classes in Purnea and Bhagalpur are in distress. Gratuitous relief has been started in Bhagalpur, and arrangements are being made to start relief in Purnea. The price of common rice has risen in Patna, Gaya, Muzaffarpur, Darjeeling, Puri and Hazaribagh, and has fallen in Murshidabad, Khulna and Ranchi. Cattle disease is reported from Midnapore, Nadia, Patna, Gaya, Muzaffarpur, Darbhanga, Purnea, Puri, Sambalpur, Ranchi, Palamau, Manbhum and Singhbhum. The fodder supply is sufficient, except in parts of the Sonthal Parganas. Scarcity of water is apprehended in parts of Muzaffarpur, Monghyr, Purnea and the Sonthal Parganas. The number of persons on test-works in Darbhanga was 22,663. Gratuitous relief was given to 1,145 persons in Balasore and Puri and to 2,366 persons in Darbhanga and Bhagalpur.

United Provinces.—Excellent falls of rain were received in the hills and there was some rain in all districts. The amounts received were however mostly small or insignificant. More rain is generally, and in some districts urgently, required. Some damage to standing crops is reported in Bulandshahr from hail and in Shahjahanpur, Kheri and Bara Banki from frost. Crops are poor in Hardoi and in the Bijaigarh pargana of the Mirzapur district test-works have been opened and have attracted considerable numbers. Generally however standing crops are in good or fair condition. Fodder and supplies are adequate. Malarial fever is dying out. Prices have risen in 3; have fallen in 5 and are stationary elsewhere.

Punjab.—Moderate to light rain has fallen in Hissar, Gurgaon, Delhi, Ambala, Jullundur, Ludhiana, Sialkot, Rawalpindi and Jhang. Winter rains are generally late and

in defect. Autumn crops are being harvested in some districts. The outturns of sugarcane and *toria* are good. Spring crops are in good condition in most districts but only fair in Rohtak, Hissar, Gurgaon and Mianwali where rain is urgently needed. Extra spring crops are being sown in Gurgaon and Delhi. Fever is abating. Prices are high but have fallen slightly. Cattle are generally in good condition. Fodder is sufficient except in Sialkot, Gujranwala, Lyallpur and Jhang and in parts of Gurgaon, Amritsar and Mianwali.

North-West Frontier Province.—No rain fell during the week except slight showers in Hazara and in the Mardan tahsil of the Peshawar district. Rain is urgently needed all over the Province. The condition of standing crops is generally good throughout the Province. Pressing of sugarcane continues in the Peshawar and Bannu districts and the outturn is reported to be average. The wheat crop is reported to have been attacked by insects in the Marwat tahsil of the Bannu district. Fodder is procurable. The water supply in canals is sufficient. Cattle are generally in good condition except in two villages of the Mardan tahsil in the Peshawar district. The public health is generally good. Prices are fluctuating. Wheat sells from 8½ to 10¾; gram from 10 to 11; maize from 12½ to 17½ and *bajra* from 13 to 13¾ seers per rupee.

Jammu.—Slight rain fell during the week. Prices are stationary. Wheat sells from 6½ to 14 and maize from 19 to 22 seers per rupee. The condition of standing crops is fair. Fodder is sufficient.

Kashmir.—The weather was snowy and severely cold. Fodder is sufficient. Prices are stationary. There is no disease.

Rajputana.—The rainfall in cents during the week was:—Bharatpur 120; Karauli 47; Dholpur 35; Alwar 30; Kishangarh 20 to 60; Jaipur 11; Kotah 18 and showers in Jhalawar and the Hill Tracts of Mewar and Sirohi. The rainfall was accompanied with hail in Kishangarh causing some damage to crops, while slight damage from frost is reported in parts of the Hill Tracts of Mewar and Jhalawar. Cattle are generally in good condition and fodder is everywhere sufficient. Prices have fallen in Bikaner and Tonk where they had risen last week. They continue to rise in Shahpura.

Central India.—There was slight rain in Gwalior, Baghelkhand and Bundelkhand and *nil* elsewhere. Harvesting of autumn crops has been completed in Indore, Bhopal and Baghelkhand and is in progress elsewhere. Spring sowings are over in Baghelkhand and Bundelkhand and are in progress elsewhere. Crops have been damaged slightly in parts of Indore, Baghelkhand and Bhopawar and are doing well elsewhere. Agricultural stock are good. Cattle disease is prevalent in parts of Bhopal, Baghelkhand, Bundelkhand and Bhopawar. Prices have fallen in Indore and are stationary but high elsewhere. Opium crops are doing well in parts of Gwalior, Indore and Malwa.

Central Provinces.—The weather has been somewhat warm and occasionally cloudy. Jubbulpur received light showers which were accompanied by hail but no damage was done. Threshing and winnowing of autumn crops and picking of cotton are in progress. *Tur* was slightly damaged by insect pests in the Bhandara tahsil. The condition of standing crops is only fair in Chanda and Wardha but generally satisfactory elsewhere. A shower would be welcomed in most districts. Cattle are doing well. The supply of fodder and water is adequate. Prices of all the staple food-grains are very steady. Wheat in Saugor, Jubbulpur and Mandla sells dearer by ¼ to ½ seer per rupee. Rice in Jubbulpur and *juar* in Nimar is cheaper by 1 seer. The number of weavers on relief was 1,607.

Feudatory States.—Sirguja and Korea received ¼ inch of rain during the week. Threshing and winnowing of autumn crops and pressing of sugarcane continue. A shower is much required in Kawardha. Prospects are generally favourable. Fodder and

water are adequate. Prices :—Rice in Raj-Nandgaon and Bastar sells dearer by 1 and 2 seers per rupee respectively. Gram is cheaper by 1 seer in Sirguja. Prices are steady elsewhere.

Bombay.—Slight rain fell during the week in parts of Sind. Standing spring crops have been damaged slightly by insects in parts of Bijapur ; by disease in parts of Poona and by frost in parts of Larkana, Kaira, Baroda and Mahi Kantha and are suffering for want of moisture in parts of Thar and Parkar, Nasik, Ahmednagar, Sholapur and Dharwar. Cotton and oilseeds have been damaged slightly by frost in parts of Hyderabad and Baroda. Crops are generally in good condition elsewhere. Harvesting of autumn crops is practically completed in East Khandesh; is almost over in Nasik, Satara, Belgaum and Dharwar; is in progress in parts of Gujarat, Kanara, West Khandesh, Baroda, Kutch, Rewa Kantha and Kolhapur; and has commenced in parts of Ahmednagar and Poona. Threshing continues in parts of the Upper Sind Frontier, Kaira, the Konkan, East and West Khandesh, Nasik, Poona and Palanpur. Picking of cotton is in progress in parts of Hyderabad, Kaira, Broach, East and West Khandesh and Kathiawar. Sowing of spring crops is almost over in Hyderabad and Nasik and continues in parts of Karachi and Kanara. Harvesting of spring crops has commenced in parts of Kolhapur and the Karnatak. The supply of fodder is adequate except in parts of West Khandesh, Bijapur, Belgaum and Kolhapur. Agricultural stock are sufficient except in parts of the Deccan and Cutch and are generally in good condition. The supply of drinking water is sufficient except in parts of West Khandesh, Nasik, Belgaum and Kolhapur. Water for irrigation is sufficient except in parts of West Khandesh, Nasik, Hyderabad and Thar and Parkar. Prices of food-grains have risen slightly in the Panch Mahals and Dharwar; have fallen slightly in Surat and are stationary elsewhere The quantity purchasable per rupee is in Sind 27 to 42 per cent; in Gujarat 20 to 60 per cent; in the Konkan 14 to 30 per cent; in the Deccan 17 to 46 per cent and in the Karnatak 32 to 83 per cent less than the normal. Stocks of grain are generally adequate. Labourers get sufficient field employment and wages are normal. One test work has been started in Bijapur. The cultivating and labouring classes are in fair condition.

Hyderabad.—There was no rain during the week. Autumn cotton picking and early rice harvesting are almost over. Spring crops are generally in fair condition except in parts of the Raichur district and other isolated parts. Cattle disease is prevalent in five talukas. Prices :—wheat 5¼; coarse rice 6¾ and *juar* 12¾ seers per rupee. White *juar* is selling in Hyderabad City at 11¼ seers per rupee. The highest price in districts is 8¼ seers in the Lingsugar taluka in the Raichur district and the lowest 24 seers in the Nagarkurnool taluka of the Mahboobnagar district.

Mysore.—There was no rain during the week. Prices of food-grains are slightly higher in Hassan and Chitaldrug and steady elsewhere. Paddy and *ragi* are being harvested. Minor dry crops in parts of the State are reported to be withering for want of rain. There is no improvement in the prospects of the season Cattle are generally healthy except in parts of the State. Steps are being taken to supply grass from State forests and to sink wells in places where they are necessary.

Coorg.—Reaping of rice and picking of coffee continue. Prices of food-grains are high. The public health is fair. Water and fodder for cattle are sufficient.

Madras.—No rain fell during the week. Irrigation supplies are insufficient except in Chingleput, South Arcot, Trichinopoly, Tanjore, Madura, Malabar and the Nilgiris. Ploughing, sowing, weeding and transplanting are in progress in parts. Standing crops are fair but some in parts of Vizagapatam, Kistna, Tinnevelly and Malabar require more rain and some in parts of Bellary, North Arcot and South Canara are withering or have withered. Harvests continue with outturn poor to bumper. Pasture is sufficient except in parts of the Circars, Bellary, Anantapur, Tinnevelly and South Canara. Fodder is scanty in parts of the Circars, the Deccan, Nellore, South Arcot and North Arcot. The

condition of cattle is generally good. The price of rice is stationary in seven districts ; has fallen in twelve and has risen in four. The prices of millets have fluctuated as follows :—*Ragi* is stationary in nine districts ; has fallen in eight and has risen in four. *Cholam* is stationary in two districts ; has fallen in nine and has risen in three. *Cumbu* is stationary in eight districts ; has fallen in five and has risen in two. The public health is generally good. Prospects are generally fair. The condition of the labouring classes is good and employment is procurable. Grain-stocks are generally sufficient.
